Wednesday, March 16, 2016 1:30 pm EST

The price of solar panels continues to decline, so you may have wondered if it was time for you to consider installation of solar panels. This free webinar will show you how to finance the installation. This two-hour webinar will teach you about financing tools available to assist you in making your solar wishes a reality.

- Listen to bankers that specialize in residential and commercial solar loans.
- Hear how utilizing solar co-ops can reduce costs. Several solar co-ops have already started in Central Florida and another in Broward County is on the horizon.
- Learn about EnergySage, a service used by more than 10,000 people each year to get multiple solar quotes from more than 300 pre-screened solar installers.
- Discover PACE (Property Assessed Clean Energy) in our PACE 101 segment, including a segment on the Value of PACE Finance to Solar Projects.

Sponsored by Go SOLAR Florida and the U.S. Department of Energy, this webinar will show you how to afford solar for your home.

Meet your presenters:

John Buffington,
VP Business Development
