

EVENT SUMMARY

The SSB movie night with BAPA, featuring the documentary film *FLOW - For the Love of Water* was a great success. Dr. Jurado gave a great introduction on water quality issues in Florida, putting into context the *global gets local* messages presented in the film, and lead us through an engaged discussion afterward on how consumer choices are linked to natural systems integrity, drinking water safety, human happiness and opportunity, and economic stability in a global framework of shared resources. This co-sponsored event at the Cinema Paradiso in Hollywood had 37 attendees and raised \$185 for [charity:water](#).

Join us in Historic Downtown Hollywood as we feature the documentary film FLOW - For the Love of Water

"Water is the very essence of life. It sustains every living being on this planet and without it, there would be nothing....."

FLOW: For the Love of Water, is an award-winning documentary that tackles issues related to potable water including access, privatization and management of this natural resource both in the United States and abroad. Come meet fellow planners, water resource managers, and sustainability professionals as we learn more about this important topic. Dr. Jennifer Jurado will be our special guest for the evening. Dr. Jurado is the Director of Broward County's Environmental Planning and Community Resilience Division where she oversees county-wide water resource policy and planning programs and initiatives.
