PRESENTATION OF DRAFT TO CLIMATE CHANGE TASK FORCE

CCAP Comment Summary

- ▶ 130 comments received
- ▶ Formatting/ pictures
- ▶ Addition of detail/ references
- ▶ Reorganization/ reprioritization
- ▶ Connection of objectives to actions
- ▶ Verbiage/ sentence structure

CCAP Comment Summary

- ▶ Studies vs. projects
- ▶ Value of the action?
- ▶ Scope expansion
 - ▶ Other utilities/ energy sectors
 - ▶ Drainage systems in flood mapping
 - ▶ Intracoastal vs canals vs coast
- ▶ Assignment of responsibility
 - ▶ Railroads
- ▶ Refinement of descriptions/ new ideas
- ▶ Realistic?

Reorganization

- ▶ 6 Sections
- ▶ Appendices
 - ▶ What You Can Do!
 - ▶ What We Have Done So Far...
- ▶ Actions listed by scale to tell story
 - ▶ Overarching
 - ▶ Planning/ Assessment
 - ▶ Specific Project

Policy

Energy Resources

Natural Systems

Built Environment

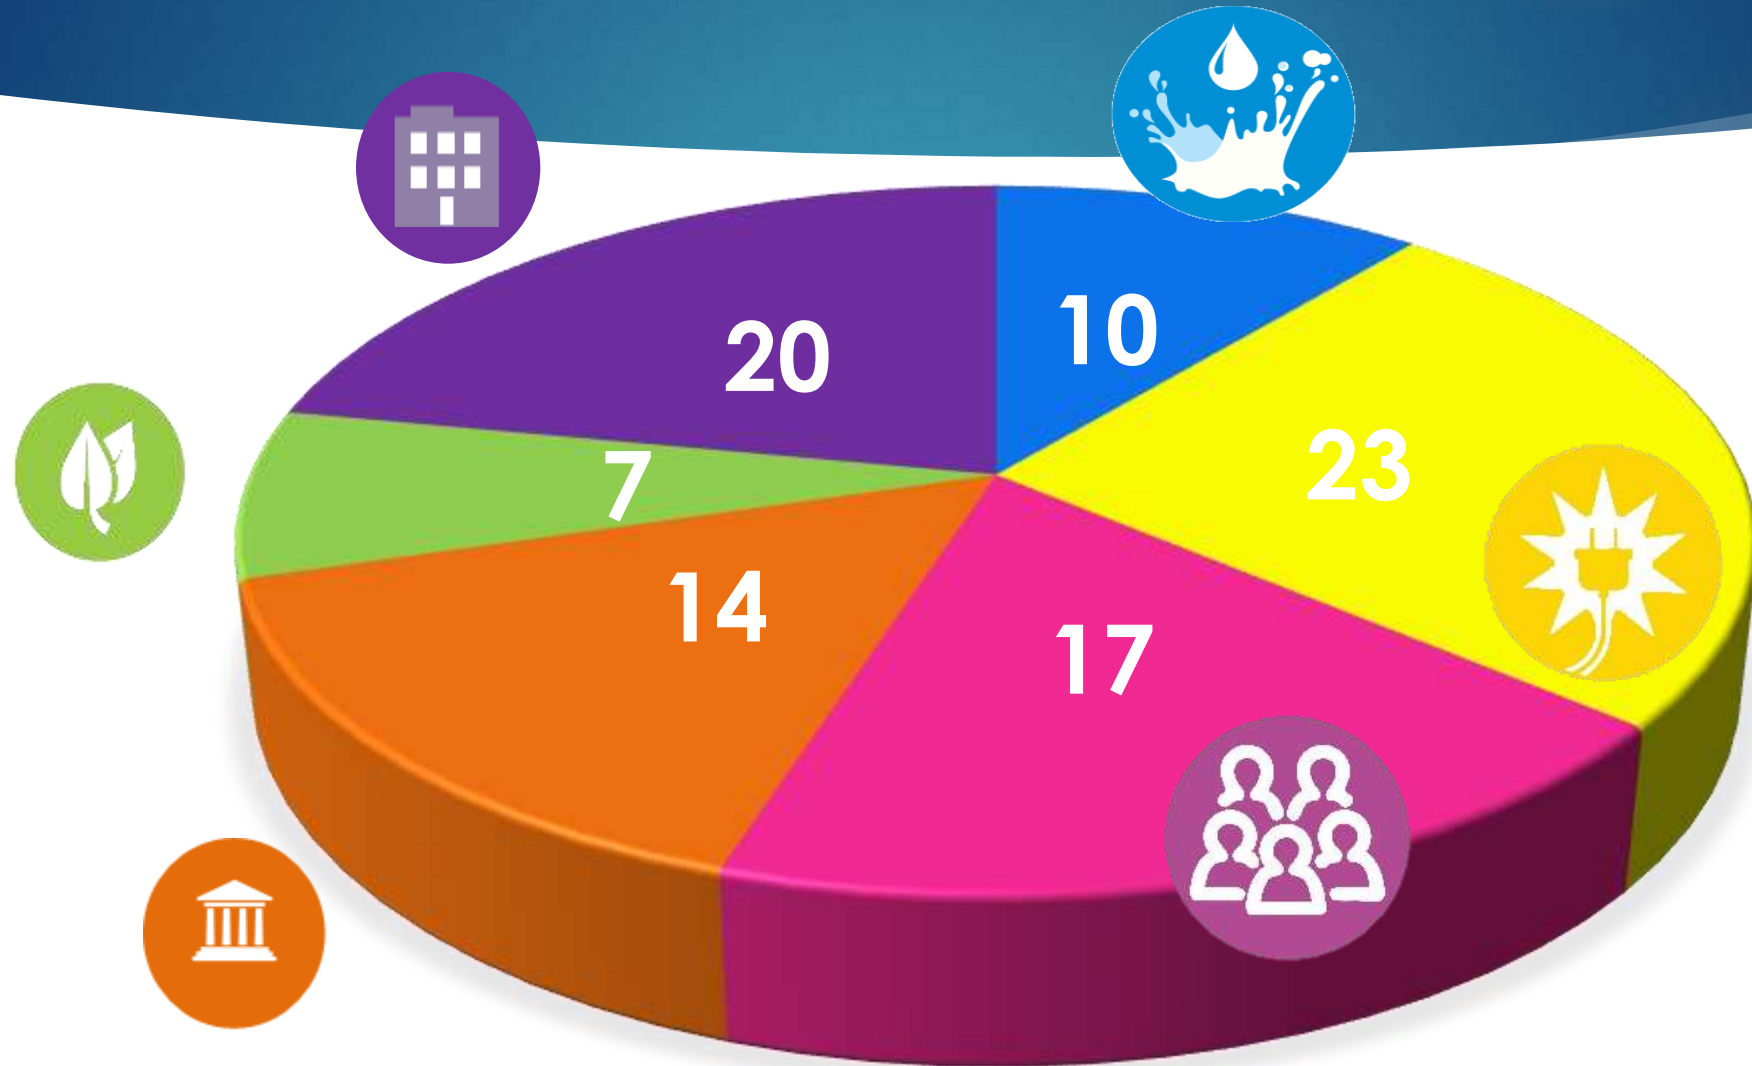

Water Supply

Community Outreach

PLAN EVOLUTION

Significant Edits

- ▶ Introduction
- ▶ High Priority Actions
- ▶ Plan Element Objectives
- ▶ Numbering
- ▶ Duplications/ redundancy removed

Priority Actions

Policy

- ▶ Contribute to local, regional and state climate planning efforts
- ▶ Support the Southeast Florida Regional Climate Compact

Natural Systems

- ▶ Lessen cumulative impacts to natural systems
- ▶ Support Everglades Adaptive Restoration
- ▶ Develop habitat buffer zones
- ▶ Increase number of miles of living shorelines and dunes

Priority Actions

Water Supply

- ▶ Continue local water conservation programs
- ▶ Monitor and protect wellfields
- ▶ Develop alternative water supply strategies

Energy Resources

- ▶ Accelerate government operations GHG reduction efforts
- ▶ Implement Better Buildings Challenge
- ▶ Support third party retail power purchase agreements
- ▶ Increase rooftop solar on county facilities
- ▶ Actively pursue the installation of alternative fuel vehicle infrastructure

Priority Actions

Built Environment

- ▶ Encourage FEMA to consider sea level rise in flood map updates
- ▶ Analyze sea level rise, drainage and hurricane impacts
- ▶ Develop adaptive management strategies
- ▶ Apply models to develop resilient design standards

Community Outreach

- ▶ Educate the community on climate considerations through a regional campaign (p.32)
- ▶ Build community leader network to implement climate action plan

Moving Forward

- ▶ CCTF Support
- ▶ Commission Support
- ▶ Climate Curriculum & Messaging
- ▶ Implementation Planning
- ▶ Tracking & Reporting
