GOAL 16. PUBLIC SCHOOL CONCURRENCE
The Broward County Board of County Commissioners (Broward County) in collaboration with the School Board of Broward County (School Board) and Broward County municipalities (municipalities) shall ensure that public school facilities will be available for current and future students consistent with available financial resources and adopted level of service standards (LOS). This will be accomplished recognizing the School Board’s statutory and constitutional responsibility to provide a uniform system of adequate public school facilities and the authority of Broward County and the municipalities for development permitting and comprehensive planning.

Objective 16.1. FINANCIALLY FEASIBLE DISTRICT EDUCATIONAL FACILITIES PLAN
The School Board, pursuant to Chapters 163.3177 and 163.3180 F.S. and the Interlocal Agreement for Public School Facility Planning (ILA), shall prepare and annually update and adopt the Five-Year District Educational Facilities Plan (DEFP) which shall contain a five-year financially feasible schedule of capital improvements to address existing deficiencies and achieve and maintain the adopted level of service in all concurrency service areas (CSAs). The DEFP shall also contain an LOS plan which reflects the data required to demonstrate the achievement and maintenance of the adopted LOS. The School Board shall also ensure that school facilities are planned to meet the long-term planning period of the Public School Facility Element (PSFE) of the Broward County Comprehensive Plan.

Policy 16.1.1. The DEFP shall include a financially feasible schedule of capacity additions to existing schools and construction of new schools to eliminate existing level of service deficiencies and meet the needs of projected growth for the five-year planning period. This financially feasible schedule shall be annually adopted into the Broward County Comprehensive Plan Capital Improvements Element (CIE) and the capital improvement elements of the municipalities. This adoption may either be by reference or by restatement of the relevant portions of the adopted DEFP, but in no event shall the County or municipality attempt to modify the adopted DEFP.

Policy 16.1.2. The DEFP shall provide year-by-year projections of the capacity needed to achieve and maintain the adopted LOS within the CSA for each school for the five-year planning period. These projections are included in the supporting documents of the PSFE.

Policy 16.1.3. The DEFP’s five-year financially feasible schedule shall provide for the remodeling/renovation of existing schools to meet the identified needs of aging schools and replace worn facilities.
Policy 16.1.4. The DEFP shall be amended on an annual basis to: 1) add a new fifth year; 2) reflect changes in estimated capital revenues, planned capital appropriations costs, planned capital facilities projects, CSAs and school usage; and, 3) ensure the DEFP continues to be financially feasible for the five-year planning period.

Policy 16.1.5. Annually adopted updates to the DEFP and CSA maps shall be coordinated with annual plan amendments to the CIE of the Broward County Comprehensive Plan and comprehensive plans of the municipalities. The annual plan amendments shall ensure that the schedule of capital improvements within the CIE continues to be financially feasible and the LOS will be achieved and maintained.

Objective 16.2. CONCURRENCY MANAGEMENT SYSTEM
Broward County shall adopt a county-wide public school facilities concurrency management system for implementation of public school concurrency to ensure that public school facilities are available at the adopted level of service standard concurrent with the impact of proposed residential development.

Policy 16.2.1. Broward County and the municipalities, in collaboration with the School Board shall implement concurrency management systems consistent with the policies included in the Broward County and municipal public school facility elements, procedures and requirements included within the ILA and Broward County and municipal land development regulations (LDRs).

Policy 16.2.2. The CSAs shall be the annually adopted school attendance boundaries for each elementary, middle and high school. The maps of the CSAs are maintained in the data and analysis section of the PSFE.

Policy 16.2.3. The Level of Service standard shall be 100% of gross capacity (with relocatable classrooms) for each CSA until the end of the 2018/19 school year; and commencing at the 2019/20 school year, the LOS for each CSA shall be 110% of permanent FISH capacity for each public elementary, middle and high school.

Policy 16.2.4. If adequate capacity is not available in a CSA for a proposed residential development, but capacity exists in one or more contiguous CSAs, the development may proceed consistent with the provisions and procedures in the ILA and County and municipal LDRs.

Policy 16.2.5. If adequate capacity is not currently available in a CSA or contiguous CSA, for a proposed residential development, but capacity is scheduled in the DEFP to be available within 3 years after the issuance of final subdivision or site plan approval, (or functional equivalent), development of the project may proceed in accordance with the provisions and procedures in the ILA and County and municipal LDRs.
Policy 16.2.6. Broward County and the municipalities shall not approve a residential plat or site plan (or functional equivalent) until the School Board has reported that the school concurrency requirement has been satisfied consistent with the provisions and procedures in the ILA and County and municipal LDRs.

Policy 16.2.7. The CSAs shall be established and subsequently modified to maximize available school capacity and make efficient use of new and existing public schools in accordance with the level of service standards and the capacity, taking into account special considerations such as, core capacity, special programs, transportation costs, geographic impediments, diversity programs, and class size reduction requirements to prevent disparate enrollment levels between schools of the same type (elementary, middle, high) and provide an equitable distribution of student enrollment district-wide.

Policy 16.2.8. The projected student impact of a proposed residential development shall be determined using the student generation rates approved by the School Board and adopted within the Broward County Land Development Code. The student generation rates shall be reviewed and updated at least every 3 years.

Policy 16.2.9. The public school concurrency approval for residential plats shall expire if development within the plat does not commence within 5 years following the date of County Commission approval.

Objective 16.3. PROPORTIONATE SHARE MITIGATION
The School Board, pursuant to Chapter 163.3180 F.S. and the ILA, shall adopt proportionate share mitigation alternatives which provide an option for residential developments unable to meet the public school concurrency requirement. Upon approval of a proportionate share mitigation alternative by the School Board and completion of necessary binding agreements, a development will be deemed to have met the public school concurrency requirement and may proceed.

Policy 16.3.1. A residential development’s proportionate share mitigation value shall be determined by multiplying the number of additional student stations needed to mitigate the impact of the proposed development on schools within the affected CSA(s) not meeting the adopted LOS standards by the State cost per student station for each school type plus a land impact cost share, if any. Pursuant to Section 163.3180(13)(e)(2), F.S., the applicant’s proportionate share mitigation obligation shall be credited toward any other impact or exaction fee imposed by local ordinance for the same need, on a dollar-for-dollar basis, at fair market value.

Policy 16.3.2. Proportionate share mitigation shall enhance the capacity of the schools (or provide for the construction of new schools) serving the proposed residential development. The mitigation shall equate to at least one permanent classroom, which
PUBLIC SCHOOL FACILITIES ELEMENT

may be funded by one or more residential developments, or other identified funding sources. Mitigation that results in the need for school site(s) shall primarily be the dedication of land. Proportionate share mitigation shall include the following options, as further defined and subject to, procedures and requirements in the ILA;

1. Purchase or dedication of needed elementary, middle or high school sites.

2. Construction of capacity improvements identified in years four (4) or five (5) of the DEFP including advancement of such improvements into the first three years of the DEFP.

3. Construction of previously unplanned schools, classroom additions, modular classrooms or similar facilities. Such facility capacity shall be included in the first three years of the DEFP through an amendment approved by the School Board.

4. Construction of the needed capacity at one or more charter schools.

5. Other mitigation options approved by the School Board on a case by case basis contingent upon a School Board finding that the option mitigates the impact of the proposed development.

Policy 16.3.3. Mitigation shall be assured by a legally binding agreement between the School Board, the applicant and the County or municipality (as applicable), which shall be executed prior to the issuance of the final subdivision plat or the final site plan approval (or functional equivalent). If the School Board agrees to the mitigation, the School Board must commit in the agreement to placing the improvement required for mitigation in the first three years of the DEFP.

GOAL 17. COLLABORATE AND COORDINATE TO MAXIMIZE QUALITY EDUCATION
Maximize collaboration and coordination between Broward County, the School Board and the municipalities, to effectively plan for public elementary and secondary school facilities to meet the current and future needs of Broward County's public school population. Pursuant to Chapter 163.3180 (6)(a) F.S., Broward County and all non-exempt municipalities within the County, shall coordinate and cooperate to ensure that the adopted public school facilities elements and/or provisions included in comprehensive plans regarding school concurrency are consistent with each other.
Objective 17.1. LAND USE CONSISTENCY, COMPATIBILITY & ADEQUATE INFRASTRUCTURE

Broward County, the School Board and the municipalities shall establish coordination mechanisms to ensure that the locations of existing and proposed school sites are compatible with and proximate to the existing and planned land uses they serve. Such coordination shall also ensure there is adequate public infrastructure available to serve existing and planned school sites including infrastructure which provides safe access to schools.

Policy 17.1.1. Broward County, the School Board, and the municipalities will coordinate through the procedures established in the ILA and the Broward County and municipal land use planning process to ensure that existing and proposed public school facility sites are consistent and compatible with the land use categories, future land use maps and policies of the County and municipal comprehensive plans and enable a close integration between existing and planned schools and surrounding land uses.

Policy 17.1.2. Broward County, the School Board and the municipalities shall coordinate to prepare projections of future development and public school enrollment growth and to ensure such projections are consistent with the Broward County and municipal future land use maps and the School Board’s Long Range Public School Facilities Map consistent with the procedures and requirements identified in the ILA.

Policy 17.1.3. The Broward County PSFE Support Document shall include future conditions maps showing existing and anticipated school facilities for the short-term (5 year) and long-term (10 year) planning time frames.

Policy 17.1.4. Consistent with provisions and procedures in the ILA, the School Board will advise Broward County and the municipalities of inconsistencies in comprehensive plans and plan amendments with the DEFP and Long-Range School Facilities Plan.

Policy 17.1.5. The School Board shall monitor and participate in the Broward County and/or local government plat review and site plan review processes, the Development of Regional Impact (DRI) process, the land use plan amendment process and other development order/permit processes that may have an impact on current or planned public educational facilities in Broward County.

Policy 17.1.6. Broward County, the School Board and the municipalities shall utilize the procedures identified within the ILA, including the Staff Working Group and Oversight Committee established by the ILA, to coordinate the annual review of school enrollment projections in addition to the preparation and annual reviews of
Public school facilities elements and ensure that the elements are consistent with each other.

Policy 17.1.7. The School Board shall annually update and adopt the DEFP and transmit it, including any supplemental amendments, to Broward County and the municipalities, which then shall amend their CIEs to incorporate the updated DEFP consistent with the provisions and procedures of the ILA.

Policy 17.1.8. Broward County, the School Board and the municipalities shall share and coordinate information through the plat, site plan and school siting processes and procedures identified in the ILA to ensure the location, phasing, and development of public school facilities, including additions to existing facilities, is coordinated with the provision of necessary public infrastructure including water and sewer, roads, drainage, sidewalks, mass transit and other infrastructure required to support the public school facilities.

Policy 17.1.9. Broward County shall coordinate with the School Board and the municipalities through the school siting process identified in the ILA and Broward County and municipal platting and site plan approval processes to implement strategies, consistent with Florida’s Safe Ways to School Program, which reduce hazardous conditions and provide direct, unobstructed and safe access for pedestrian travel (including sidewalks, bicycle paths, signage and signalization) to existing and new school facilities.

Objective 17.2. SCHOOL FACILITY SITING, COLLOCATION & DESIGN
Broward County, the School Board and the municipalities, pursuant to the ILA, shall coordinate the location of public school facilities relative to the location of other public facilities such as parks, libraries and community centers and promote schools to be focal points within the community.

Policy 17.2.1. In the planning, siting, land acquisition, permitting and development of a new school facility or significant renovation or expansion, the School Board shall coordinate with Broward County and the municipalities on the availability of public facilities, services and grounds (especially for the purposes of collocating parks, libraries, ball fields, community centers, public safety facilities, parking facilities, drainage facilities and other appropriate facilities).

Policy 17.2.2. Broward County, the School Board and the municipalities shall pursue shared-use and co-location of school sites with County and municipal facilities having similar facility needs, such as libraries, parks, ball fields, other recreation facilities. At a minimum, per the ILA, Broward County will look for opportunities to collocate and share use of County facilities when preparing updates to the Schedule of Capital
PUBLIC SCHOOL FACILITIES ELEMENT

Improvements within the Comprehensive Plan and planning and designing new or renovated facilities.

Policy 17.2.3. Through the design of school facilities, establishment of school siting standards and pursuit of collocation opportunities, the School Board shall encourage school facilities to serve as community focal points.

Policy 17.2.4. Broward County will coordinate with the School Board and the municipalities on efforts to build new school facilities, which are designed to serve as emergency shelters as required by Section 1013.372, F.S., Broward County will also collaborate and coordinate with the School Board and the municipalities on emergency preparedness issues through the County’s Emergency Operating Center.
PUBLIC SCHOOL FACILITIES ELEMENT

Post Adoption Revisions

1. This Element was amended in Cycle 2009-I by Ordinance No. 2009-49 adopted on June 23, 2009.

2. This Element was amended in Cycle 2009-IIA by Ordinance No. 2009-72 adopted on December 8, 2009.

3. This Element was amended in Cycle 2010-IIA by Ordinance No. 2010-62 adopted on December 14, 2010.

4. This Element was amended by Ordinance No. 2012-12 adopted on March 27, 2012.
