Number 19

The Distribution of Hispanic Communities within Broward County.

Among Broward County's many Hispanic population groups the Puerto Rican and Colombian communities are the most dispersed, whereas the Cuban population is more concentrated.

The Hispanic population in Broward County is made up of many subgroups from different countries of origin. The four largest population subgroups, comprising 58% of the Hispanic population, are Puerto Rican, Cuban, Colombian and Mexican. While each of these communities is dispersed throughout Broward County, they have quite different population distributions.

The following maps show the distribution of the four largest Hispanic subpopulations by census tract. Percentages indicate the proportion of total population that is of Puerto Rican, Cuban, Colombian or Mexican origin in each tract. Comparison between the four maps shows distinctions between the four Hispanic groups:

The Puerto Rican Population.

This is the largest Hispanic subpopulation and the least concentrated. While the population is slightly more prominent in areas south of Interstate 595, nearly all tracts have Puerto Rican residents. More surprisingly, only three tracts exhibit a concentration of greater than 10% and the largest is only 10.9%.

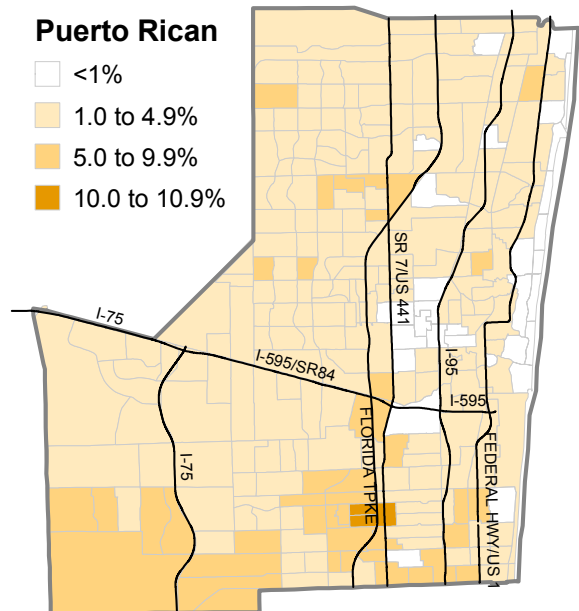

The Colombian Population.

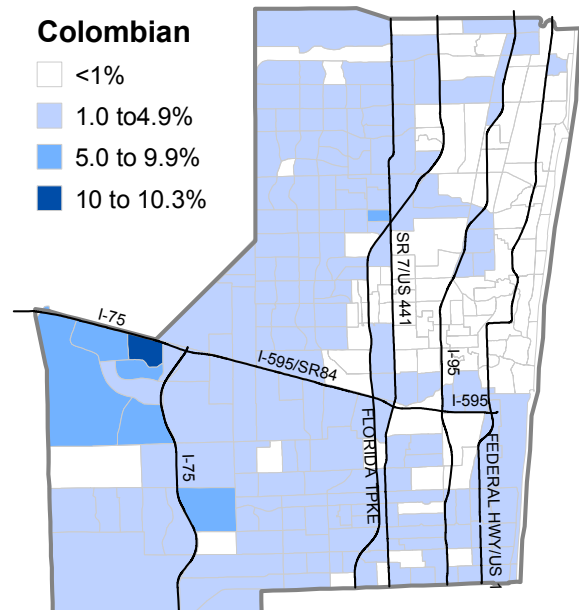

This is another more broadly distributed population. Again, the population is slightly more prominent in southern Broward with higher concentrations in the Weston area and lesser numbers in northeast Broward. There is only one tract where 10% of the population is Colombian, located in Bonaventure (10.3%).

Puerto Rican

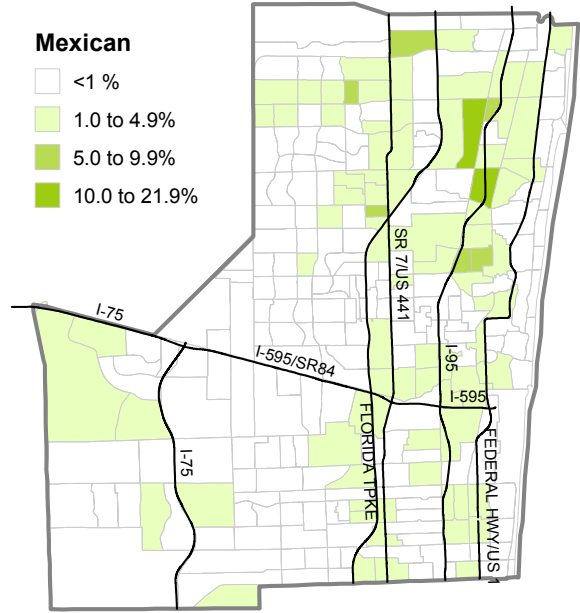

Colombian

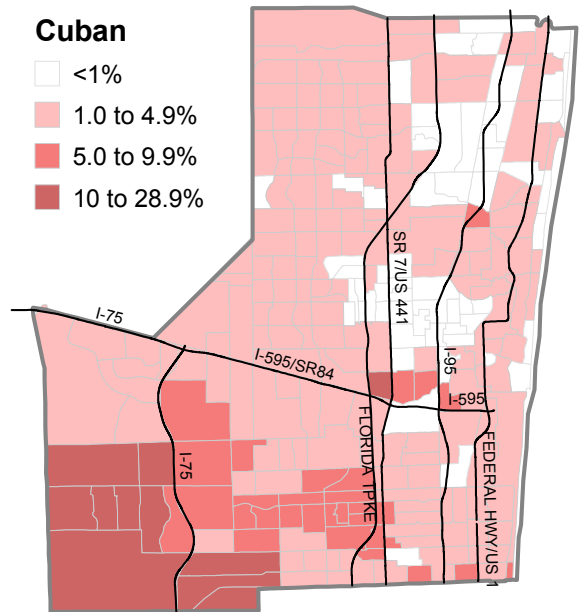

The Mexican Population.

This is the most concentrated population of the larger Hispanic subgroups. Somewhat smaller in numbers, the Mexican population is housed in a commensurately smaller number of tracts. Even so, four tracts have 10% or more of their population from Mexican descent. The single largest tract percentage is nearly 22%. Most of the population is found between State Road 7/Florida's Turnpike and Federal Highway. In contrast with the other populations, the Mexican population is more likely to be located in north Broward.

The Cuban Population.

In contrast, the Cuban population is more concentrated. Because the Cuban population is relatively large, most tracts have some Cuban residents. However, there are eleven census tracts where Cubans make up more than 10% of the population, including one tract where 29% of residents are Cuban, located in south Miramar. Southwest Broward seems to be attractive to the Cuban population. In addition, there are other areas, specifically along Davie Road between I-95 and Florida's Turnpike, that have large Cuban communities.

Persons of Hispanic Origin in Broward County

Hispanic Origin	Persons
Puerto Rican	54,938
Cuban	50,911
Colombian	30,150
Mexican	19,451
Dominican Republic	10,498
Other South American	33,506
Central American	18,249
Spanish and Other Hispanic	53,949
Total Hispanic Population	271,652
