

Free Irrigation Evaluation for WWS Clients

Through the **Broward NatureScape Irrigation Service** initiative, a **Mobile Irrigation Lab (MIL)**, staffed by a trained irrigation specialist will visit your home, evaluate the performance of your irrigation system, and develop a site specific irrigation management plan. This plan will provide a detailed statement of how your system is functioning along with recommendations to increase efficiency. This service is **FREE**. You are under no obligation to implement any improvements suggested by the irrigation specialist. However, by making any of the suggested improvements you will save both water and money. Please take a moment to fill in this form and e-mail it to us.

Would you like us to contact you to have your irrigation system inspected?

Name

Street Address

* City

ZIP

Where does the water come from?

Number of days per week you water

Phone Number (No spaces just numbers W/area code)

Your e-mail address

* This program is provided as a free service to WWS customers. Please contact your local service provider for additional opportunities to conserve water.
