RESIDENTIAL/COMMERCIAL RECLAIMED WATER APPLICATION

APPLICANT ACKNOWLEDGES THAT BROWARD COUNTY WILL PROVIDE RECLAIMED WATER TO BE USED FOR IRRIGATION PURPOSES SUBJECT TO THE FOLLOWING CONDITIONS:

USE:

Reclaimed water may be used for cooling towers and irrigation only. Applicant is prohibited from installing or attaching hose bibs or cross-connections with any other water source, unless approved by Broward County. Cross connections are prohibited.

Reclaimed water may not be used for filling swimming pools, wading pools, hot tubs or any other body of water where immersion may occur.

Use of irrigation wells on the property is strictly prohibited.

Low trajectory nozzles or other means of minimizing aerosol formation are required within 100 feet of outdoor public eating, drinking and bathing facilities.

CONNECTIVITY:

The property's potable water supply must be protected by an approved backflow prevention device pursuant to the Broward County Cross-Connection Ordinance, Chapter 34, Article IX.

All new piping, pipelines, valves and outlets including sprinkler heads and caps shall be color-coded Pantone Purple 522C to clearly show the difference between the reclaimed water service line from the potable water service.

Inter-connections to neighboring systems are strictly prohibited.

Reclaimed water will be provided at a low pressure; any re-pumping to have sufficient pressure & flows to operate irrigation systems will be the responsibility of the applicant.

POOLING & COLLECTING:

The irrigation system must be in good working condition and adjusted properly to minimize spray onto roads, common sidewalks, gutters, neighboring properties, or impervious surfaces that allow run-off.

The hydraulic loading rate shall not produce ponding of the applied reclaimed water.

Reclaimed water cannot be discharged into storm water systems, including dry retention ponds.

RESIDENTIAL/COMMERCIAL RECLAIMED WATER APPLICATION (continued)

ENFORCEMENT:

Applicant agrees that, for Broward County to inspect reclaim water irrigation systems, or to monitor the quality of the potable water system, the County shall have the right to enter the premises of the reclaimed water applicant, without further notice or consent, for periodic inspections and/or testing to ensure compliance with stated requirements.

The applicant must repair, remove, or replace the *applicant's private* system at Broward County's direction, if, during a periodic inspection, Broward County determines the private system is not in compliance with applicable city, county, state and federal rules and regulations.

Use of the reclaimed water shall be in strict compliance with all applicable laws and regulations of Broward County's ordinance. The County may discontinue service, temporarily or permanently, for any infraction, violation of law or regulation in the installation, operation and maintenance of the reclaimed water irrigation system, or for the convenience of the County.

No person may operate valves or other County-owned and operated appurtenances or connect to the reclaimed water transmission/distribution system without written approval/permission of the Water and Wastewater Services Director and/or designee. It is strictly prohibited for anyone to tamper with, alter or damage the reclaimed system in any way.

Signage shall be posted indicating the use of reclaimed water at the property (*entrances, access points*). Each sign shall state the following: "This property is irrigated with reclaimed water". Each sign shall also include the following text in English and Spanish: "Do Not Drink" along with the equivalent international symbol.

Broward County assumes no liability for any damage caused by or resulting from customer use of the reclaimed water. Broward County also makes no guarantee of the continued delivery of reclaimed water.
