NEWS RELEASE

FORT LAUDERDALE-HOLLYWOOD INTERNATIONAL AIRPORT HOLIDAY TRAVEL ADVISORY

During the two week holiday period more than 1 million passengers are expected to travel in and out of the Fort Lauderdale-Hollywood International Airport (FLL). The busiest travel day is expected to be Saturday, December 23, 2006 when more than 68,000 people are expected to travel through FLL.

To meet the increased demand for parking, FLL will open Overflow Parking Areas beginning Wednesday, December 20, 2006 through January 3, 2007.

As in the past, Overflow Parking Areas will be identified by color for logistics and way-finding purposes. The Overflow Parking Areas will be opened sequentially to meet parking demand. Arriving motorists should follow airport signage on Perimeter Road to the active Overflow parking areas.

Three of the lots (Orange, Green and Blue) will be available to travelers at the established \$10.00 "Event Parking" rate. These three overflow parking areas are unpaved and are located on airport property. The temporary lots will have free shuttle service to and from the terminals. A fourth lot (red lot) is paved and is closer to the terminals. This lot will be available at the remote parking rate of \$6.00 a day.

Whenever possible, travelers are encouraged to use public transportation or have a friend or relative drop them off at the airport. Parking demand at FLL is expected to peak on Sunday, December 24, 2006. We anticipate more than 16,000 vehicles will park at FLL during the upcoming holiday weekend.

Parking will be on a first-come, first-serve basis. Some of the long-term remote lots will fill earlier than others, and travelers should allow one extra hour to be directed to available parking.

Travelers should listen to the Airport Radio Station, 1670 AM, on the way to the airport to get the most current information on available parking. The station can be heard approximately 2 miles from the Airport or can be accessed on our web site at www.fll.net.

Please see the attached: "**Holiday Travel Tips**" for more information.
