**PROGRAM**  
General Capital

**PROJECT**  
Public Art and Design

---

***Project Comments***

- The Broward County Public Art and Design ordinance was established to enhance community aesthetics, promote economic development, and boost tourism. The ordinance instituted a requirement for contributions for art funding based on a percentage of eligible cost components for eligible capital projects.
- The specific percentages of public art allocations are as follows: Two percent of the eligible County Capital Projects, which includes any capital improvement project paid for wholly or in part by funds appropriated by Broward County, to construct or renovate any park, road beautification, bridge or causeway, beach restoration, sidewalk, bikeway, above grade utility, land acquisition for greenways, and to construct or renovate any building except detention facilities. Appropriations for highway and arterial road projects, less projects in the unincorporated areas, shall include an amount equal to one percent (1%) of the total eligible construction costs. Eligible construction costs means the total capital project appropriation, including engineering and design, less demolition costs, equipment costs, real property acquisition costs and soil remediation costs.
- The public art allocation includes commissioned works of art that create a sense of place, that improve the visual environment for the citizens of Broward County and that advance the missions of the County departments where the projects reside. Commissioned artworks are the result of interaction between selected artists and interested constituent groups during the design stages of the projects.
- Non-bond and non-enterprise program art funds are transferred to the Public Art Trust for allocation; bond, grant and enterprise appropriations remain within their respective funds. All public art and design projects in the County are included in an annual plan recommended by the Broward Cultural Council and approved by the Board of County Commissioners.
- Locations and projects for fiscal year 2008 projects include: Public Art and Design 2020 Plan \$100,000; Lauderdale Library and Lauderdale Lakes Library up to \$60,000; Video Wall at the Main Library \$20,000; Cultural Heritage Landmarks \$50,000. Conservation projects will include Flying Saucer canopies at the Bank Atlantic Center \$70,000.
- The fiscal year 2008 conservation and program support allocation includes a \$290,000 agreement with the Museum of Art.

**FY 2008**

**Funding Sources**

General Construction Revenues	\$445,080
Transportation Revenues	95,300
Enterprise Fund Revenues	747,290
Beach Renourishment Revenues	26,000
Unincorporated Capital	155,300
<b>TOTAL</b>	<b>\$1,468,970</b>
