Greg Baker

MEMBERS ABSENT

George Cavros
Carolyn Dekle
Michael Garretson
Colin Hughes
Tony Hui
Charlotte Mather
Peg McPherson
Jim Murley
Robert Renken
Peter Ross
Hector Samario

The April field trip visited Eco-Centre: The Living Building in Lake Worth and consisted of a tour of the office facility which has incorporated numerous energy efficiency and water conservation measures. These measures will allow the building to qualify for LEED Gold Certification. The field trip gave the Task Force members a first-hand vision of the kinds of amenities that can be considered in their recommendations to the Board of County Commissioners to reduce greenhouse gas emissions and promote energy efficiency in buildings throughout the county.
