

STATEMENT OF RESPONSIBILITIES REGARDING ASBESTOS

IF YOU ARE PLANNING TO DEMOLISH OR RENOVATE ANY EXISTING STRUCTURE, YOU MAY BE SUBJECT TO FEDERAL RULES RELATING TO THE HANDLING OF ASBESTOS CONTAINING MATERIAL. PLEASE FILL OUT THIS FORM TO DETERMINE IF FEDERAL ASBESTOS RULES APPLY TO YOU.

I. PROJECT INFORMATION:

Owner (or operator): Phone:
Mailing Address:
Project Name/Description:
Project Address:
Contractor performing the work:
Start Date: Estimated Finish Date:
Building Department Jurisdiction:

II. PLEASE MARK THE APPROPRIATE BOX(ES) AS APPLICABLE:

1. Facility: (Check One)

- Commercial, industrial or public building
One residential building of more than four dwelling units
Any residential property being demolished for commercial purposes or by government order
School/College/University Unsafe structure Emergency
Two or more residential structures at the same site

2. Demolition: Wrecking/dismantling any load-supporting structural member involving:

- All Partial

Renovations: Any material being removed, stripped or disturbed involving:

- Regulated Asbestos Containing Material (RACM) of 160 square feet or more
RACM of 260 linear feet or more of pipe insulation
35 cubic feet of RACM off facility components

III. IF ANY BOX IS MARKED IN SECTION 1 AND SECTION 2 THEN:

1. A thorough inspection must be done by a Florida licensed asbestos consultant.

AND

2. An original Notice of Asbestos Renovation or Demolition DEP Form 62-257.900(1) must be filled out and submitted at least ten (10) working days before start of project, for:

- all demolitions
all renovations involving at least 160 sq. ft. or 260 linear ft. of regulated asbestos containing material

I have received information regarding the use of a Florida licensed asbestos consultant (See reverse side) and understand that I may be subject to the ten (10) working day advanced notification requirement under the Federal Law regarding demolitions and renovations (See reverse side).

Signed Date

Name and title (print)
(Owner/Operator)

*Notice of Asbestos Renovation or Demolition form is available at: www.broward.org/air

WARNING

YOU MAY BE SUBJECT TO SUBSTANTIAL PENALTIES UNDER FEDERAL LAW FOR FAILURE TO PROVIDE WRITTEN NOTIFICATION AT LEAST TEN (10) WORKING DAYS PRIOR TO DEMOLITION AND RENOVATION. PLEASE BE ADVISED THAT A CITY/COUNTY DEMOLITION OR RENOVATION PERMIT DOES NOT MEET THE REQUIREMENT OF THE 10-DAY NOTIFICATION.

THIS FORM DOES NOT CONSTITUTE A 10 WORKING-DAY NOTIFICATION

DEMOLITION

The National Emission Standards for Federal Asbestos Regulations places a ten (10) working-day advanced Notification Requirement on owners and operators (including contractors) engaging in the Demolition of a facility. "Facility" is defined to include all structures, installations, and multiple buildings, but excludes a single residential building having four or fewer dwelling units. Demolition includes the wrecking or dismantling of any load-supporting structural member. This includes beams and load supporting walls. Notification is required to be submitted at least ten (10) working days prior to demolition, even if no asbestos containing materials are present in the facility.

RENOVATION

Written ten (10) working days Notification is also required for Renovation Projects of facilities if the amount of Regulated Asbestos Containing Material being removed, stripped, or disturbed is greater than or equal to 160 square feet, 260 linear feet of pipe insulation or 35 cubic feet off facility components. Notification of Renovation projects involving over these minimum amounts is required at least ten (10) working days prior to the renovation.

The original Notice of Asbestos Renovation or Demolition DEP Form 62-257.900(1) must be sent to:

Environmental Protection Department
Air Quality Division
115 S. Andrews Avenue, Room A-240
Fort Lauderdale, FL 33301
954-519-1220

Federal asbestos regulations apply to both the facility owner and operator. Both owner and operator can be held liable for failure to submit a Notice of Asbestos Renovation or Demolition form at least ten (10) working days prior to a demolition, or renovation involving greater than 160 square feet, 260 linear feet or 35 cubic feet of regulated asbestos containing material.

USE OF A FLORIDA LICENSED ASBESTOS CONSULTANT

Florida Statutes requires that no person shall conduct an asbestos survey, develop an Operation and Maintenance Plan, prepare abatement specifications, or monitor and evaluate asbestos abatement, unless trained and licensed as an asbestos consultant with the following exceptions:

- A homeowner may act as a licensed asbestos consultant in the home in which they reside if they sign a disclosure statement at the building department.
- Asbestos containing roofs may be removed by state certified roofers under the direction of an onsite roofing supervisor properly trained in asbestos-containing roof removal.
