

# Five Finger Rule

- 1) Choose a book and read a page or two.
- 2) Put one finger up for every word you don't know.
- 3) If five of your fingers go up while reading, this book is probably too hard for you. Choose another book.
- 4) If no fingers go up, this book is probably too easy for you. Choose another book.
- 5) If only two or three fingers go up, you've found just the right book for you.

Happy Reading!
