

**Thinking of adding a Pet to your Household?
Before you buy, talk to us first!**

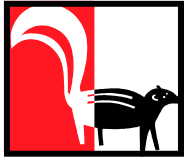

We can save you hundreds, possibly thousands of dollars, avoiding costly and often heartbreaking mistakes.

Professional Pet Counseling is a service of P.A.W. (Partners in Animal Welfare) that provides information and advice on pets, independent of any retail outlet.

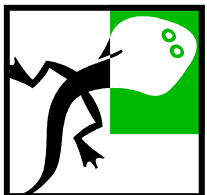

We tell you what the breeders and Pet Stores won't, because they don't want to lose the sale.

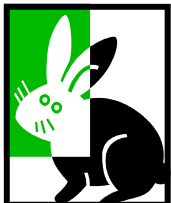

We guide you to the right Pet for your family and lifestyle and give you advice on the best way to obtain your new companion; from Puppies to the Exotics. We also offer ongoing support for the care of your pet.

Our counselors include licensed rehabilitators, veterinary technicians, trainers, groomers, Humane Agency staff. We have dealt with the aftermath of poor information and wish to help prevent future heartache for animals and people alike.

Spend a few moments getting educated; Get the right Pet, at the right Place, at the right Price. Helping you make informed decisions
