

**PORT EVERGLADES TARIFF NO. 12**

**ITEM: ANCHORAGE**

**ITEM NO: 230**

**ISSUE NO: 1**

**EFFECTIVE DATE: OCTOBER 1, 2006**

The prescribed anchorage areas "A" & "B" at Port Everglades are outside of the harbor and north of the Entrance Channel. The anchorages areas are designated on N.O.A.A. navigation charts and are under the control of the United States Coast Guard. Vessels desiring to anchor are required to do so in the prescribed anchorage areas so as to avoid damage to the coral reefs. Vessels must contact the Harbormaster via radio prior to anchoring.

South of the Entrance Channel, immediately offshore, there is a Government Restricted Area. No anchoring is permitted in this area.

Caution is to be exercised when anchoring a vessel north of the Entrance Channel due to spoil banks and other underwater obstructions. For this reason, the use of a pilot is recommended when anchoring a vessel.
