

2007 Emerald Award Winner For Environmental Excellence

Sponsored by the Broward County Board of County Commissioners

NatureScape Broward Homeowner

Sue and Lonnie Reed have created a beautifully landscaped residential yard with a combination of design elements, using brick pathways, stones, arbors, and interesting artwork. Visitors need to walk slowly so they do not miss anything. If you want to sit down, take your choice of five different seating areas. These cozy places are as welcoming as can be adorned with fragrant herbs and colorful flowers. A certified wildlife habitat, the Reed's yard provides all the needs of wildlife; food, shelter, water, and places to raise young.

Their environmental achievements include:

- Maintained without pesticides or fertilizers.
- The irrigation system has not been utilized.
- Attractive blend of native and drought tolerant plants.
- Wildlife habitat for many species of birds and butterflies.
