

BOARD OF COUNTY COMMISSIONERS
POLLUTION PREVENTION, REMEDIATION AND AIR QUALITY DIVISION

EMERALD AWARD PROGRAM

The **Emerald Award Program** is designed to recognize businesses, government, individuals, or organizations in Broward County demonstrating a commitment to protecting and preserving our environment. The Emerald Award Program recognizes exemplary performance in the following Categories: **Pollution Prevention/Hazardous Waste Reduction, Recycling, Climate Change Leader, Green Practices/Innovation, and NatureScape**. A brief description of each Category is as follows:

POLLUTION PREVENTION/HAZARDOUS WASTE REDUCTION

This category recognizes facilities, business, or government entities that excel in the reduction or elimination of pollution or waste while increasing the efficient and sustainable use of resources at the source (source reduction) instead of at the end-of-the-pipe or stack. You must have a current PPRAQ Hazardous Material Management Facility License to be eligible for an award in this category.

RECYCLING

This category recognizes facilities, business, or government entities that make a significant contribution to reducing solid waste that is deposited into a landfill by recycling at least 30% of all solid waste generated at one location.

CLIMATE CHANGE LEADER

This category recognizes facilities, business, and government entities that have made great strides in addressing global climate change. It recognizes best practices from private and public organizations that demonstrate measurable activities that achieve operational and community benefits including the reduction of greenhouse gas emissions, and the promotion of behavioral change to employees and customers. Organizations with established annual reduction targets will also be evaluated based on their progress toward meeting the reduction target.

GREEN PRACTICES/INNOVATION

This category recognizes facilities, business, or government entities that sell, manufacture, or produce products and services that generate less toxic pollution and waste, conserve natural resources and habitats, encourage sustainable behavior or use technology upgrades or changes in processes to generate less waste, and become more energy efficient.

NATURESCAPE BROWARD

This category recognizes certified businesses, municipalities, schools, government facilities, and homeowners, that have created and maintained landscapes that are drought tolerant, provide food, water, and shelter for wildlife, and utilize landscape best management practices.

Every business that applies for an Emerald Award certificate is required to be free of environmental enforcement actions for a period of one year (365 days) prior to the date the application is submitted. Additionally, each category has its own set of additional requirements.

When applicants successfully fulfill the requirements for any of the identified categories, they become eligible for an Emerald Award Certificate. Emerald Award Certificate recipients will also have their names and e-mail addresses placed on our Emerald Award website (www.broward.org/pprd/emeraldaward.htm) and will receive beneficial advertisement recognizing their achievements.

At the end of the calendar year, all Emerald Award Certificate recipient's applications will be reviewed and the recipients that excel in each category may be selected for an *Emerald Award Trophy*. The Emerald Award Trophy winners will be invited to attend an award ceremony and reception. At the Emerald Award Trophy Ceremony an *Environmental Business of the Year Emerald Award Trophy* will be awarded to the one Emerald Award Certificate recipient who has excelled in efforts to protect the environment.
