

# Broward County Transit

## Broward Commuter Rail North – Fact Sheet

### Less Congestion, More Connection

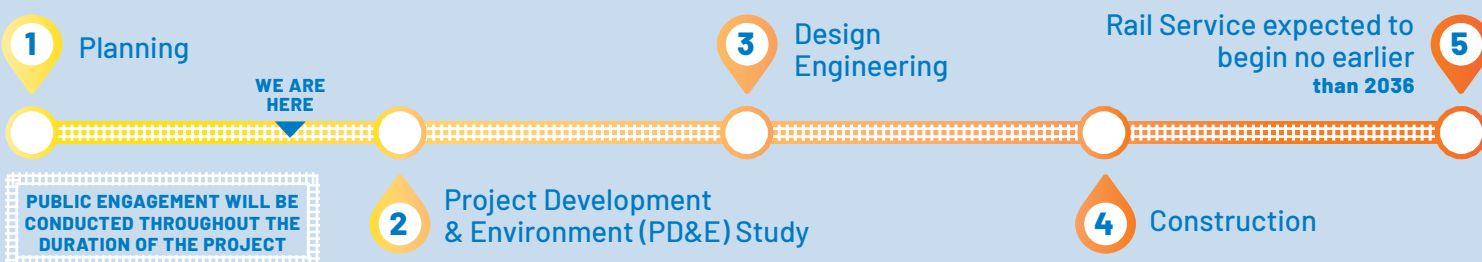

**Broward County Rail (BCR) North is a proposed commuter rail service developed by Broward County Transit (BCT) to deliver seamless and sustainable transportation between Fort Lauderdale and Deerfield Beach.**

BCR North will enhance quality of life by expanding transportation options and providing greater access to employment, education, and essential services. This transformative project spans 15.5 miles along the Florida East Coast (FEC) Railway, seamlessly connecting communities with planned stations at Downtown Fort Lauderdale, Oakland Park, Pompano Beach and Deerfield Beach.

By addressing critical infrastructure needs and enhancing regional mobility, BCR North will play a key role in supporting Broward County's growth by offering improved transportation options for residents and visitors.

### PROJECT TIMELINE

### BCR NORTH PROJECT MAP

#### ***Skipping the Traffic!***

On April 22, 2025, the Broward County Commission took a significant step forward by adopting the Locally Preferred Alternative (LPA) for the BCR North project. This milestone paves the way for the next exciting phase: the Project Development and Environment (PD&E) Study—a comprehensive analysis that will explore how the chosen alternative could improve traffic flow, support surrounding communities, and safeguard the environment.

#### ***Why BCR North Matters***

- » Economic growth by increasing property values and attracting business investments
- » Access to opportunities and improved quality of life
- » Congestion relief and environmental benefits to mitigate impacts to Broward's growing population
