Humana Dental Prepaid HS195MB Plan

The Humana Dental Prepaid plans focus on maintaining oral health, prevention and cost-containment. Members may see a primary care dentist as often as necessary. There are no yearly maximums, no deductibles to meet and no waiting periods. HS plans copayments for listed procedures are applicable at either a participating general dentist or a participating specialist dentist.

A primary care dentist (PCD) may decide that a member needs to see a contracted dental specialist. No referral is necessary to see a network specialist.

Specialists services: Should members need a specialist, (i.e., endodontist, oral surgeon, periodontist, pediatric dentist), they may be referred by a participating general dentist, or members can self-refer to any participating specialist. Visit Humana.com to find a participating specialist.

Summary of services

Services marked with a single asterisk (*) below also require separate payment of laboratory charges, not to exceed \$200. The laboratory charges must be paid to the plan dentist in addition to any applicable copayment for the service.

Pre-determination of your Humana Dental benefits

If you expect to pay more than \$300 for dental care, your dentist may submit a proposed dental treatment plan that Humana will use to help provide you with an estimate of benefits for the planned service. This is known as a “predetermination of benefits.”

The dental treatment plan may include:

- A list of services to be performed, including any supporting documentation
- A written description from the dentist of the treatment
- An itemized list of costs

Schedule of benefits

Florida: HS195MB

Implants services:

Implants and implant supported prostheses are covered with a 50% copayment, up to an annual maximum benefit of \$1,500 and a \$10,000 lifetime maximum benefit. The Member is responsible for payment of the copayment and any amounts in excess of the annual maximum benefit. No benefits for implants and implant supported prostheses are available after the lifetime maximum is met.

Implants and implant supported prostheses covered under this plan are limited to the replacement of permanent teeth extracted while covered under this plan, or for replacement of a prior prosthesis if it has been at least five years since the prior insertion, and is not, and cannot be made serviceable.

NOTE:

- Not all participating dentists perform all listed procedures, including amalgams. Please consult your dentist prior to treatment for availability of services.
- Some Covered Dental Care Services are typically only offered by a specialist (like many oral surgery procedures).
- When crown and/or bridgework exceeds six units in the same treatment plan, the patient may be charged an additional \$75 per unit.
- Additional exclusions and limitations are listed along with full plan information in your Certificate of Dental Benefits.
- Copayment amounts for listed procedures are applicable at either the Participating General Dentist or Participating Specialist. Specialist services are only available in areas where the dental plan has a Participating Specialist.
