## FREE CONTINUING EDUCATION UNITS FOR LEED PROFESSIONALS

Sponsored by Go SOLAR Florida

Dear LEED Professional,

Do you need continuing education to maintain your LEED credentials? Why not join us at Third Annual Go SOLAR & Renewable Energy Fest and take one or two FREE classes? Both will be held on Friday, October 9, 2015 at the Broward County Convention Center – Hall B, Room 114. After the class is over, enjoy visiting the numerous exhibitors showcasing their renewable energy goods and services. Best of all, it is all free: Parking; Attendance at the Fest; and Attendance of the LEED classes.

**Friday, October 9, 2015 from 10 am until noon**

**200 LEED Projects: Lessons Learned (2 hours)**

GBCI #: 0090009052 (2 Hour)

### Course Description

The LEED process can be daunting for professionals working on LEED projects. This presentation focuses on the lessons learned from actual LEED practitioners who work on LEED projects every day. You will learn tips on how to avoid common mistakes when documenting a project and gain insight into maximizing your effectiveness when working on a LEED project.

1. Better understand the LEED process
2. Have a much better understanding of real life knowledge beyond the LEED Reference Guide
3. Avoid common mistakes when documenting a LEED project
4. More easily integrate LEED into practices and projects
5. Design and develop a more sustainable project

**Friday, October 9, 2015 from 1 pm until 3 pm**

**LEED V4: A Comparison of Changes (2 hours)**

GBCI #: 0090009150 (2 Hour)

### Course Description

This course provides an overview of the proposed changes for the LEED Version 4 New Construction Rating System. We will focus on the substantive changes to give the participant a high level overview of the difference between LEED V3 and LEED V4.

1. Understand where we are in the transition process to LEED V4 and why the need for change
2. Explain and understand the new categories of LEED NC V4
3. Describe the new prerequisites in LEED
4. Understand the changes to the credits in LEED V4
5. Identify new sustainability strategies, reference standards and codes in the Sustainable Sites, Water Efficiency, Energy & Atmosphere, Materials & Resources, and Indoor Environmental Quality categories

Instructor for both classes is Rob Hink. Rob is one of the few who hold the distinguished title of LEED Fellow. He is a Past President of the USGBC South Florida Chapter and has achieved the prestigious title of USGBC LEED Faculty. Rob's classes are always informative and fun.

To earn free LEED CEUs, sponsored by Go SOLAR Florida, please complete this registration form and return to Kay Sommers, Go SOLAR Florida Project Manager at [ksommers@broward.org](mailto:ksommers@broward.org). For more information, contact Kay at 954-519-1257.
