

Before Starting the Project Application

To ensure that the Project Application is completed accurately, ALL project applicants should review the following information BEFORE beginning the application.

Things to Remember:

- Additional training resources can be found on the HUD.gov at https://www.hud.gov/program_offices/comm_planning/coc.
- Questions regarding the FY 2021 CoC Program Competition process must be submitted to CoCNOFO@hud.gov.
- Questions related to e-snaps functionality (e.g., password lockout, access to user’s application account, updating Applicant Profile) must be submitted to e-snaps@hud.gov.
- Project applicants are required to have a Data Universal Numbering System (DUNS) number and an active registration in the Central Contractor Registration (CCR)/System for Award Management (SAM) in order to apply for funding under the Fiscal Year (FY) 2021 Continuum of Care (CoC) Program Competition. For more information see FY 2021 CoC Program Competition NOFO.
- To ensure that applications are considered for funding, applicants should read all sections of the FY 2021 CoC Program NOFO.
- Detailed instructions can be found on the left menu within e-snaps. They contain more comprehensive instructions and so should be used in tandem with navigational guides, which are also found on the HUD Exchange.
- Before starting the project application, all project applicants must complete or update (as applicable) the Project Applicant Profile in e-snaps, particularly the Authorized Representative and Alternate Representative forms as HUD uses this information to contact you if additional information is required (e.g., allowable technical deficiency).
- Carefully review each question in the Project Application. Questions from previous competitions may have been changed or removed, or new questions may have been added, and information previously submitted may or may not be relevant. Data from the FY 2019 Project Application will be imported into the FY 2021 Project Application; however, applicants will be required to review all fields for accuracy and to update information that may have been adjusted through the post award process or a grant agreement amendment. Data entered in the post award and amendment forms in e-snaps will not be imported into the project application.
- Rental assistance projects can only request the number of units and unit size as approved in the final HUD-approved Grant Inventory Worksheet (GIW).
- Transitional housing, permanent supportive housing with leasing, rapid re-housing, supportive services only, renewing safe havens, and HMIS can only request the Annual Renewal Amount (ARA) that appears on the CoC’s HUD-approved GIW. If the ARA is reduced through the CoC’s reallocation process, the final project funding request must reflect the reduced amount listed on the CoC’s reallocation forms.
- HUD reserves the right to reduce or reject any renewal project that fails to adhere to 24 CFR part 578 and the application requirements set forth in the FY 2021 CoC Program Competition NOFA.

Information About Submission without Changes

Follow the instructions below making note of the exceptions and limitations to the “Submit Without Changes” process.

In general, HUD expects a project’s proposed project application information will remain the same from year-to-year unless changes are directed by HUD or approved through the grant agreement amendment process. However, HUD expects applicants to carefully review their information to determine if submitting without changes accurately reflects the expiring grant requesting renewal.

Due to e-snaps limitations, only previously submitted renewal applications can import data into the FY 2021 renewal project application. The data from previously submitted new and renewal project applications can be imported into a FY 2021 renewal project application. The “Submit without Changes” process is not applicable for:

- first time renewing project applications
- a project application that did not import last FY 2019 information
- a project that had Issues or Conditions that were addressed in FY 2019 Post-Award and updates need to be reflected in the FY 2021 project application
- a project that had amendments approved in FY 2019 or FY 2020 that need to be reflected in the FY 2021 project application

e-snaps will automatically be set to “Make Changes” and all questions on each screen must be updated.

Renewal projects that brought forward data from FY 2019 and have either a Leasing budget, Operating budget or use HUD PAID RENTS (Actual Rents) instead of FMR MAY NOT use the “Submit Without Changes” process and e-snaps will automatically be set to “Make Changes”. All Leasing and Operating budgets, along with Rental Assistance budgets that use HUD PAID RENT will need to be updated in the application. Refer to the GIW posted on the HUD Exchange for accurate budget information on leasing and operating budgets and refer to the HUD PAID RENT document sent by your field office from HUD HQ to accurately set your rental assistance budgets that use HUD PAID rents. This will only impact the FY 2021 competition.

The e-snaps screens that remain “open” for required annual updates and do not affect applicants’ ability to select “Submit without Changes” are:

- Recipient Performance Screen
- Consolidation and Expansion
- Screen 3A. Project Detail
- Screen 6D. Sources of Match
- All of Part 7: Attachments and Certification; and
- All of Part 8: Submission Summary.

All other screens in Part 2 through Part 6 begin in “Read-Only” format and should be reviewed for accuracy; including any updates that were made to the 2019 or 2020 project during the CoC Post Award Issues and Conditions process or as amended. If all the imported data is accurate and no edits or updates are needed to any screens other than the mandatory screens and questions noted above, project applicants should select “Submit Without Changes” in Part 8. If project applicants imported data and do need to make updates to the information on one or more screens, they must navigate to Part 8: “Submission Without Changes” Screen, select “Make Changes”, and check the box next to each relevant screen title to unlock screens for editing. After project applicants select the screens they intend to edit via checkboxes, click “Save” and those screens will be available for edit. Once a project applicant selects a checkbox and clicks “Save”, the project applicant cannot uncheck the box.

Please refer to the Detailed Instructions found on the left side menu of e-snaps or hud.gov to find more in depth information about applying under the FY 2021 CoC Competition.

Recipient Performance

1. Did you submit your previous year's Annual Performance Report (APR) on time? Yes

2. Do you have any unresolved HUD Monitoring or OIG Audit finding(s) concerning any previous grant term related to this renewal project request? No

3. Do you draw funds quarterly for your current renewal project? No

3a. If no was selected, explain why CoC Program funds are not drawn quarterly.

The Line of Credit Control System (LOCCs) draws for the Dedicated HMIS Project are currently up to date. There was a late submission as a result of finance workload and tracking of timeliness issues. Systems have been put in place to track this more accurately and a new Accountant was hire to address the work load issues.

4. Have any funds remained available for recapture by HUD for the most recently expired grant term related to this renewal project request? Yes

4a. If HUD recaptured funds provide an explanation.

HMIS expended \$217,998.33 of the \$220,149.00 awarded under the Dedicated HMIS project, which is a 99.02% utilization rate. HMIS had a vacant position during the period which required budget adjustments and budget transfers to allow for funds to be spend at the current utilization rate.

Renewal Grant Consolidation or Renewal Grant Expansion

The FY2021 CoC Competition will continue offering opportunities to expand or consolidate CoC projects. A few changes have occurred that differentiate the process from FY 2019.

1. Expansions and Consolidations will submit individual applications.
 - a. Expansions will ONLY submit a Stand-Alone Renewal application and a Stand-Alone New application.
 - b. Consolidations will ONLY submit individual renewal project applications, identifying the renewal application that will survive, and the renewal applications that will terminate. Up to 10 grants may be included in a consolidation.
2. HUD HQ will combine the data (e.g., units, budgets) for Expansion or Consolidation requests from the individual project applications selected for conditional award and provide a data report with further instructions for the field office and conditional recipient.

1. Is this renewal project application No requesting to consolidate or expand?

If "No" click on "Next" or "Save & Next" below to move to the next screen.

The Homeless Management Information System (HMIS) is the data based used to provide the core materials intended to assist all projects throughout the Continuum of Care. The Homeless Management Information System Lead Agency (HMIS Lead) provides oversight of data integrity and timeliness, coordination of all required HUD reports such as System Performance Measures, Point In Time Count, the Homeless Inventory Count, and the Longitudinal Analysis System data. The goal is to provide technical assistance to improve the performance of all CoC agencies in the collective effort to end homelessness in Broward County. To date the HMIS Lead Agency has provided assistance in engaging 26 Contributing Homeless Organizations (CHOs) for 96 projects. HMIS provides the infrastructure for the CoC's Coordinated Entry and Assessment system throughout the continuum from outreach, shelter, CEA and housing placement.

HMIS is used to manage all data and information through the continuum of services for the CoC. These include; outreach, shelter, coordinated entry and assessment, supportive services and housing placement. The HMIS Lead provides the system administration, establishment of priorities and deadlines, data analysis reviewing trends and the assurance of data integrity and timeliness. Introduction

The *Continuum of Care (CoC) Program Homeless Management Information System (HMIS) Policies and Procedures Manual* is intended to support data collection and reporting efforts of HMIS Lead Agencies and CoC Program recipients. This manual provides information on HMIS project setup and data collection guidance specific to the CoC Program and the legacy programs: Supportive Housing Program (SHP), Shelter plus Care (S+C) and Single Room Occupancy for the Homeless (SRO) that have not yet renewed under the CoC Program. This document is not a replacement for any specific program guidance, requirements, regulations, notices, and training materials on the CoC Program. This manual only addresses the use of HMIS for CoC Program-funded projects.

The Broward County Continuum of Care (CoC) requires all funded providers to participate in the Broward County CoC HMIS System and recommends that all homeless service providers take part in the Broward County CoC HMIS System (“Service Point”) who are not funded by the County.

When agencies enter into an HMIS End User Agreement with Broward County, they are Covered Homeless Organizations aka Covered HMIS Organizations (CHOs). HMIS enables homeless service providers to collect uniform Client information over time. This system is part of an essential effort to streamline Client services, inform public policy decision-makers, improve coordination of services among providers of housing and services to homeless Clients, inform advocacy efforts, and assist the CoC in establishing policies that result in targeted services to reduce the time persons experience homelessness. Analysis of information gathered through HMIS is critical to accurately calculate the size, characteristics, and needs of homeless populations. The data collected is necessary to service and systems planning, and advocacy. CHOs share a common interest in serving the homeless population and those at risk of homelessness, with the ultimate goal of reducing and eventually ending homelessness in Broward County.

Federal Guidance

The United States Department of Housing and Urban Development (HUD) requires all homeless services grantees and sub-grantees to participate in a localized Homeless Management Information System (HMIS). This policy is consistent with the Congressional Direction for communities to provide data to HUD on the extent and nature of homelessness and the effectiveness of its service delivery system in preventing and ending homelessness. The HMIS and its operating policies and procedures are structured to comply with HUD’s most current HMIS data standard manuals that allow for the collection of standardized Client and program-level data on homeless service usage among programs within a community and across all communities. This ensures that every HMIS captures the information necessary to fulfill HUD reporting requirements while protecting the privacy and informational security of all persons experiencing homelessness.

The *Broward Homeless Continuum of Care-FL-601 HMIS Policies and Procedures Manual* (HMIS Policies and Procedures) is structured to comply with the most recently released HUD Data and Technical Standards for HMIS. Recognizing that the Health Insurance Portability and Accountability Act (HIPAA) and other Federal, State, and local laws may further regulate agencies, the CoC may negotiate its procedures and/or execute appropriate business agreements with CHOs in order for them to be in compliance with all applicable laws and regulations. The HMIS Policies and Procedures includes privacy, security, Client consent, data entry requirements, and data quality that may be modified from time to time at the CoC discretion in order to be in compliance with applicable laws and regulations.

HMIS Project Set Up

Potential Providers need to understand the difference between a **program** and a **project** because they have distinct meanings in this context. A program is the source of funding that the organization is receiving to run its project (e.g. CoC Program funding for ABC Transitional Housing project). For data collection purposes, HUD and its federal partners refer to categories of funding within a program as **components**. For the CoC Program, there are five program components under which communities can establish and operate projects: permanent housing, transitional housing, and supportive services only, HMIS and, in some cases, homelessness prevention. Additionally, the Joint Transitional Housing (TH) and Rapid Re-Housing (RRH) Component Project combines' two existing program components – transitional housing and permanent housing rapid re-housing – in a single project. There are also Safe Haven projects with previous funding under the Supportive Housing Program that will be renewed under the CoC Program, and the legacy programs: Supportive Housing Program (SHP), Shelter Plus Care (S+C) and Single Room Occupancy for the Homeless (SRO) that have not yet renewed under the CoC Program. A **project** is the group of activities on the ground delivering services or housing for the homeless Client (e.g. XYZ Shelter, Homeless Street Outreach, etc.).

Set Up Projects in HMIS

One of the most critical steps in accurate data collection and reporting is ensuring that a project is set up properly in an HMIS. Incorrect project setup will jeopardize recipients' ability to produce accurate, reliable reports and will affect the community's ability to generate community wide reports like System Performance Measures.

HMIS System Administrators should follow the procedures established for their particular HMIS when setting up projects in the HMIS. These setup procedures must include, at a minimum, the following:

1. The HMIS includes project descriptor data elements for all residential continuum projects, regardless of their participation in HMIS; and
2. The HMIS Lead, in consultation with the CoC, reviews project descriptor data at least once annually and updates that data as needed.

The following are required project descriptor data elements:

Organizational Identifier (2.1)

The name of the agency/organization receiving CoC funding must be entered or identified with the CoC specific project. The HMIS generates an identification number. The HMIS must maintain only one single record for each agency/organization, regardless of how many projects they operate. In HUD's HMIS Data Standards, HUD strongly recommends that the name of the organization is the actual legal name of the entity and not an abbreviation or other derivative of the name, since the name is being transmitted in reports.

Project Identifiers (2.2)

- **Project ID:** The HMIS Lead must assign a Project ID to each project via a system generated number or code, which serves as a distinct identifier that is consistently associated with that project.
- **Project Name:** The name of the project receiving CoC funding must be entered or identified with the CoC specific project. HMIS administrators should note that often the name of the project on the grant agreement is not the same as the name the project is called by the organization and/or the common name in the community and often not the same name as is used on the Housing Inventory County (HIC). HMIS administrators should maintain mapping information to correlate grant names, HIC names, and common names with the project identifiers either within the HMIS itself or separately. The Homeless Initiative Partnership section (HIP) and the HMIS lead will be aligning the names of the projects in HMIS with the names of the project as noted in the contract.
- **Operating Start Date:** Beginning in October 2017, the Operating Start Date of a project must be completed in the HMIS on all projects. The Operating Start Date of the project is defined as the first day the project provided services and/or housing. Thus, this date must be no later than the date the first Client served in the project was entered into the project. For projects that began operating prior to October 1, 2012, the operating start date may be estimated if not known.
- **Operating End Date:** An Operating End Date must be entered when a project closes. The Operating End Date must be the last day on which the last Client received housing/services. The Operating End Date should be left empty if the project is still in operation (refer to the specific HMIS instructions on project close out in an HMIS).

Continuum of Care (CoC) Code (2.3)

Select the CoC code based on the location in which the project operates. Broward County is the Collaborate Applicant and the CoC. The code is FL 601.

Project Type (2.4)

All CoC Program-funded projects are part of the Continuum of Care and should be marked as "yes" to whether they are funded Continuum Projects.

Each project must be identified with a single HMIS project type. Select the correct project type for each project in the HMIS – no single project within an HMIS may have two project types.

CoC Program Component	HMIS Project Type
Permanent Housing (PH)	PH: Permanent Supportive Housing
Permanent Housing (PH)	PH: Rapid Re-Housing
Supportive Services Only (SSO)	See SSO Chart Below
Transitional Housing (TH)	Transitional Housing
Homelessness Prevention (HP)	Homelessness Prevention
Safe Haven (SH)	Safe Haven
Joint TH and PH-RRH	Set up as two separate projects in HMIS: <ul style="list-style-type: none"> • PH: Rapid Re-Housing • Transitional Housing
Legacy Programs	HMIS Project Type
Supportive Housing Program – Permanent Housing	PH: Permanent Supportive Housing
Supportive Housing Program – Supportive Services Only	See SSO Chart Below
Supportive Housing Program – Transitional Housing	Transitional Housing
Shelter Plus Care	PH: Permanent Supportive Housing
Single Room Occupancy for the Homeless	If services are provided – type as PH: Housing with services
Single Room Occupancy for the Homeless	If services are not provided – type as PH: Housing Only

There are a wide variety of Supportive Services Only projects within the CoC Program. Many SSO projects that were incorrectly classified were able to reclassify their project in 2014 and change their component type from SSO to a Housing Project Type (e.g. SH, TH or PH) depending on the relationship of their services to specific housing. HMIS administrators should update those SSO projects that changed component types in 2014 or later so that their HMIS project setup reflects the affiliated residential HMIS Project Type.

For SSO projects whose services are designed to serve all persons in the residential facility, and where the project’s housing and service providers are able to share data, HMIS administrators should adjust the system so that there is only a single project within the HMIS, using the residential HMIS Project Type. In this situation, both the housing provider and the service provider would have access to the Client’s project record and would be able to enter data and run reports on the same Client. Merging these projects together within the system eliminates the occurrence of duplicate Client records and double counting for inventories and system-wide outcomes. If the housing and service providers cannot share the same record due to community confidentiality policies or domestic violence restrictions, then the HMIS administrator should update the services project as a Supportive Service Only project and identify in the Project Type element which HMIS Project ID (which residential project) it is affiliated with.

<p>The following applies to SSO projects affiliated with a residential project in HMIS that either</p> <p>1) did not change component types or</p> <p>2) provides services only to Emergency Shelter Clients:</p>	<p>Affiliated with one residential project & either does not offer to provide services for all of the residential project Clients Or only serves Clients for a portion of their project stay (e.g. provides classes) Or information sharing is not allowed between residential project and service provider.</p>	<p>Affiliated with multiple residential project of the same project type (e.g. multiple PH: PSH) & either does not serve all of the all residential project Clients. Or information sharing is not allowed between residential projects and service provider.</p>	<p>Affiliated with multiple residential project of different project types (e.g. PH: RRH and PH: PSH) OR Affiliated with Emergency Shelter(s)</p>
--	---	--	---

2.4 Project type to use Services: Only

2.4 A – Affiliated with a residential project: Yes

2.4 B – ID of Affiliated Project: List the HMIS Project ID of the residential project

For an **SSO whose primary work is street outreach**, use the HMIS Project Type "Street Outreach."

For an **SSO that operates a Coordinated Entry/Assessment** project funded under the CoC Program, use the HMIS Project Type "Coordinated Assessment."

For an **SSO that is a standalone supportive service**, use the HMIS Project Type "Other." A standalone supportive service is typically provided in a facility or office designated for the sole purpose of providing that service and administered by providers that are trained and/or licensed in the field, e.g. childcare centers and employment training centers. These SSOs will generally be the APR SSOs without Housing Outcomes. "Other" means that this project will not be considered in system wide performance measurements or cause duplicate HIC/PIT counts.

Method for Tracking Emergency Shelter Utilization (2.5)

This element is not relevant for CoC Projects since the CoC Program does not fund Emergency Shelter projects.

Federal Partner Funding Sources (2.6)

Projects funded in whole or in part by CoC Program funds are to be identified based on the CoC Program component. Select the appropriate CoC component for each project:

- **HUD: CoC – Permanent Supportive Housing [also for legacy SHP-PSH and S+C]**
- **HUD: CoC – Rapid Re-Housing**
- **HUD: CoC – Supportive Services Only**
- **HUD: CoC – Transitional Housing [Use also for legacy SHP-TH]**
- **HUD: CoC – Safe Haven**
- **HUD: CoC – Single Room Occupancy**
- **HUD: CoC – Homelessness Prevention (High Performing Communities Only)**

Enter a grant identifier for each CoC Program grant that the project receives, along with the grant's operating start and end dates. The HUD grant identifier for a CoC Program in HMIS may be whatever identifier the HMIS Lead believes is appropriate to assign to further identify the program. It may, but does not have to be, the fixed grant number (i.e. the grant number minus that last 4 digits which change annually with renewal). Safe Haven, SRO and old S+C grants will have different grant number configurations. The grant must be identified with the Grant Start Date (the first time a CoC grant was provided to this project). When a project is not renewed by the CoC, it must be identified with a grant end date. Projects still in operation with unexpired 15- or 20-year use terms that no longer receive operating funds would not "end" until the use term is completed. Grant start dates and end dates for CoC funded projects are critical to identifying them for system performance measurement.

105.5 Policy Statement	It is the policy of the HMIS that Security and Access provisions will apply to all systems where Personal Protected Information (PPI) is stored. Systems include HMIS Lead and CHO networks, desktops, laptops, mini-computers, mainframes, and servers. Note: Various important aspects of ServicePoint are the contracted responsibility of Wellsky and are therefore not covered in the HMIS Policies and Procedures Manual. These involve data protection procedures that take place at the site of the central server include data backup, disaster recovery, data encryption, physical storage security, location authentication, etc.
105.6 Procedures	A. End User Account and Password Access: <ol style="list-style-type: none"> 1. The HMIS Project Supervisor will provide an End User Account username and initial password to each authorized End User. 2. Temporary/default passwords will be changed on first use. 3. End User Accounts are assigned on a per-person basis, rather than to a particular position or role.

4. End User Accounts are not to be exchanged, shared, or transferred between personnel at any time. Sharing of End User Accounts is a breach of these Policies and Procedures and a violation of the CHO End User License Agreement.
5. Under no circumstances shall the HMIS Lead and/or the CHO demand that an End User disclose his or her password.
6. CHOs shall inform the HMIS Project Supervisor of any changes in personnel that require disabling of an End User's account or other requests to revoke or transfer accounts.

1. Temporary/default passwords will be changed on first use.
2. End User Account passwords must be changed every 45 days and the system will automatically prompt each End User to change his or her password.
3. Passwords should never be written on any item left in their office, desk, or other workspace, and passwords should never be in view of any other person.
4. End Users must not be able to log onto more than one workstation or location at a time.
5. Passwords must meet reasonable industry standards. By following the guidelines below,
6. End Users will meet HUD and ServicePoint security standards:

 - d. Never let your computer and/or internet browser store a login or password.

C. End User Inactivity:

1. End Users who have not logged into the system in the previous 45 days will be flagged as inactive.

2. Inactive End Users may have their HMIS accounts locked or removed to maintain the security, confidentiality, and integrity of the system.
 3. CHO HMIS Security Officer is responsible for reporting inactive
 4. HMIS End User accounts to the HMIS Project Supervisor within three (3) business days of the account becoming inactive.

- D. Lead and the CHO Security Officer is responsible for contacting the HMIS Lead to provide an update on the status of the account and or providing confirmation that the account is no longer needed. Account inactivity in excess of 150 days will result in the account being deactivated and forfeiture of the license(s). NOTE: The HMIS Lead will inquire with the CHO HMIS Security Officer about inactive End User accounts prior to any decision to disable account(s).
- E. Connectivity and Computer Systems: CHOs will connect to HMIS independently via the internet and are responsible for providing their own internet connectivity and computer systems.
- F. Remote System Access: CHO HMIS End Users and/or Security Officers must abide by the following Policies and Procedures and ensure the security and confidentiality of Client data regardless of the computer used to log in to the system:
1. Remote laptops and desktops must meet the same security requirements as those of office HMIS workstations;
 2. Remote access to ServicePoint should be limited to only those situations when it is imperative that the End Users access the system outside of the normal office setting; and
 3. All HMIS End Users are prohibited from using a computer and/or workstation that is available to the public. In addition, accessing ServicePoint from a public location through an internet connect that is not secured is prohibited. Examples of non- secure internet connection are internet cafes, libraries, and airport Wi-Fi, etc.

-
- G. Workstation Security: At a minimum, the primary workstation used by each End User to log in to HMIS should be configured to meet the following best practices:

107.2 Purpose	The purpose of this policy is to lay out client’s rights in case they do not authorize their Protected Personal Information (PPI) to be included in HMIS.
107.3 Scope	This policy applies to HIP, HMIS, and CHO staff.

107.5 Policy Statement	It is the policy of the HMIS not to deny services if Client chooses not to include PPI.
107.6 Procedures	<p>A. Services will not be denied if Client chooses not to include PPI. CHOs must use a Client acknowledgment for electronic data collection in HMIS.</p> <p>B. Collection and Notification: All Client information will be collected only by fair and lawful means with the knowledge and consent of the Client. CHOs will collect and retain signed acknowledgment forms (ROI) and upload them into HMIS before any Client data can be shared.</p> <ol style="list-style-type: none"> 1. Executed Client acknowledgment forms are only valid for a period of three (3) years. 2. CHO staff will thoroughly explain the acknowledgment form to each Client. 3. CHOs must store signed Client acknowledgement for auditing purposes. 4. the Client 's specific options to protect his/her data, such as designating his/her record as hidden/closed to other agencies.

5. If Client acknowledgment is not obtained, the CHO will not be permitted to share that Client record with other agencies in the HMIS. Client data must still be entered into ServicePoint, but only that CHO has the authority to view or edit the Client (s) data. Clients who choose not to authorize sharing of information cannot be denied services for which they would be otherwise eligible.
6. Clients may, at any time, revoke their consent for release of information. In such cases, the CHO remains responsible to ensure that Client 's PPI is unavailable to all other CHOs.

C. Exception(s): In instances where a Client gives verbal acknowledgment via the Homeless Helpline, CHO staff will complete the form accordingly. Homeless Helpline staff will not be required to obtain written consent to share primary and general Client information that is collected via telephonic or electronic means. In this case, Clients will be read the call center's verbal intake consent to release information. Callers who do not want their information shared in HMIS will have their records closed and/or may be limited in their ability to obtain an agency referral. The Helpline will document in a note that they have read the Client the agreement and the Client 's disposition on whether to agree or not to agree.

D. Client Record Access and Data Correction: All CHOs must have written policies that address provisions for Client (s) to have access to their records and correction to their records. Any Client will have access to view, or keep a printed copy of, his or her own records contained in the Broward County HMIS. The Client will also have access to a logged audit trail of changes to those records. The following provisions will be maintained for the access to and correction of Client records:

The disclosure of information would be reasonably likely to endanger the life or physical safety of any individual; or e. Client (s) may be denied access to their records in the case of repeated or harassing requests for access or correction. <p>C. Data Elements for De-duplication: The primary way of avoiding duplication of Client records is the responsibility of End Users at their respective CHOs. This is achieved by an End User mediated search of Client data prior to creating a</p>		

new Client record. The following elements will be used to query for unduplicated Client records:

1. Name (first, middle, last, suffix), aliases or nicknames should be avoided;
2. Social Security Number;
3. Date of Birth;
4. Gender; and
5. Race and Ethnicity.

Based on the results, the End User will be asked to select a matching record if identifying elements match correctly. If the End User is unsure of a match, due to differential or missing data elements, then the End User should query the Client for more information and continue evaluating possible matches or create a new Client record. If a duplicate entry is found, notify the HMIS Lead via email at HMIS-ProjectMGMT@broward.org within 8 hours so that the Client records can be merged.

D. Data Quality Standards: All data entered in ServicePoint must meet data quality standards based on HUD Data and Technical Standards and CoC data requirements.

1. Data entered into ServicePoint will be entered in an accurate and timely manner;
2. Per current HUD data standards, blank entries in required UDEs and Program Specific Elements will not exceed 3% per month excluding Client destination;
3. Data entry, including program Entry and Exit, must be completed within three (3) calendar days of data collection; and
4. Data entered shall be collected and entered in a common and consistent manner across all programs.
5. Annual assessments will be conducted 30 calendar days prior to the anniversary of the program Entry date.

E. Data Reports: To ensure data quality for HUD reporting, CHOs are required to submit the following reports to the HMIS Lead each month:

1. 0260 Data Quality Report Card with explanation of errors and plan to correct. The HMIS lead will review and approve or deny the plan;
2. Dashboard HUD CoC Annual Performance Report (APR);

	<ul style="list-style-type: none">3. All other data report(s) mandated by their HUD and/or County contracts;4. Notify the HMIS Lead of findings and timelines for correction;5. Rerun reports to confirm data correction and submit to HMIS Lead for approval;6. The HMIS Lead will perform regular data integrity checks on the HMIS data based on each program at a CHO level; and7. Patterns of error will be reported to the CHO Agency Administrator and End Users will be required to correct data entry techniques and will be monitored for compliance. <p>F. HMIS Program Entry and Exit: End Users must record the Program Entry Date and Program Exit Date of Client (s) into HMIS no later than three (3) calendar days of program enrollment and program exit. For Street Outreach and Night-by-Night projects, any Client that has not had contact within 90 days will be closed with an exit date that matches the last date of contact.</p> <p>G. The Date of Engagement coincides with the requirement for HMIS data quality; therefore all Universal Data Elements should be entered into HMIS on or before the Date of Engagement.d. Definitions

Agency Administrator: The person responsible for system administration at the agency level. Responsibilities include:

1. Informing the HMIS Lead of the need to create and disable End Users,
2. Performing basic ServicePoint troubleshooting, and 3) escalating issues to the HMIS Lead.

Annual Performance Report (APR): A report that tracks program progress and accomplishments in HUD's competitive homeless assistance programs. The APR provides the grantee and HUD with information necessary to assess each grantee's performance.

Anti-Virus Protection Software: Software programs that detect and remove computer viruses. The anti-virus protection software should always include a regular update service/software allowing it to keep up with the latest viruses as they are released.

CHO Administrator: A single point-of-contact, established by each CHO, who is responsible for day-to-day operation of the CHO data collection system, ensuring program-level data quality according to the terms of the Participation Agreement and associated data quality plan.

Client: A living individual about whom a Contributory HMIS Organization aka Covered Homeless Organization (CHO) collects or maintains protected personal information: (1) because the individual is receiving, has received, may receive, or has inquired about assistance from a CHO; or (2) in order to identify needs, or to plan or develop appropriate assistance within the Continuum of Care (CoC).

Continuum of Care (CoC): The primary decision-making entity defined in the funding application to HUD as the official body representing a community plan to organize and deliver housing and services to meet the specific needs of people who are homeless as they move to stable housing and maximum self-sufficiency.

CoC Program: A program identified by the CoC as part of its service system, whose primary purpose is to meet the specific needs of people who are experiencing a housing crisis.

Contributory HMIS Organization aka Covered Homeless Organization (CHO): An organization that operates a contributory homeless assistance program, homelessness prevention program, or contributory non-homeless assistance program.

Data Quality: The accuracy and completeness of all information collected and reported to the HMIS.

End User: An employee, volunteer, affiliate, associate, and any other individual acting on behalf of a CHO or HMIS Lead Agency who uses or enters data in the HMIS or another

administrative database from which data are periodically uploaded to the HMIS.

Firewall: A method of controlling access to a private network to provide security of data.

Homeless Management Information System (HMIS): The information system designated by a CoC to process Protected Personal Information (PPI) and other data in order to create an unduplicated accounting of homelessness within the CoC. An HMIS may provide other functions beyond unduplicated accounting.

Housing Move-In Date: Housing move-in must be completed for all Clients who have moved into housing. Move-in means a lease arrangement has been made, the Client has a key or entry ability to the unit, and the Client has physically slept in the unit. Beginning October 1, 2017, projects must discontinue the pre-entry method of housing and use the project start date and housing move-in date together instead.

HUD strongly recommends HMIS administrators and PH projects monitor data entry accuracy and use of the housing move-in date. Housing move-in timeliness and accuracy will impact project and system performance outcomes for the point-in-time information for the Housing Inventory Chart, project Annual Performance Reports (APR), System Performance Measures, and other federally mandated reports that collect project outcomes.

Clients without a housing move-in date are still considered and should be counted as homeless (living on the streets, in-shelter, etc.).

HMIS Lead: An organization designated by a CoC to operate the CoC's HMIS on its behalf.

HEARTH Act: HUD's McKinney-Vento homeless assistance programs were last reauthorized in the Housing and Community Development Act of 1992. Since then, numerous proposals have been debated, but controversies prevented Congress from passing any significant reauthorizations. However, a number of changes were made to the McKinney-Vento programs by HUD and by Congress through the annual appropriations process. The most significant change by HUD was the creation of the Continuum of Care process, which was first implemented in 1995.

McKinney-Vento Act: The McKinney-Vento Homeless Assistance Act was signed into law by President Ronald Reagan on July 22, 1987. The McKinney-Vento Act funds numerous programs providing a range of services to homeless people.

Notice of Funding Availability (NOFA): Establishes the funding criteria for the CoC Programs.

Program Data Elements (PDE): Program specific elements provided about the characteristics of Clients, the services that are provided, and Clients' outcomes. These data elements must be collected from all Clients served by programs that are required to report this information to HUD.

Project Exit Date: Project exit represents the end of a Client’s participation with a project. The project exit date should coincide with the date that the Client is no longer considered to be participating in the project. This standard should be applied consistently across all Street Outreach projects. Reasons to exit a Client include any of the following:

1. The Client has entered another project type (e.g., TH, PSH) or otherwise found housing;
2. The Client is engaged with another outreach worker or project;
3. The Client is deceased; or
4. The outreach worker has been unable to locate the Client for an extended period of time and there are no recorded contacts.

If this situation arises, and the Client is to be exited from the project due to a lack of regular contact the project exit (3.12) should be listed as “No Exit Interview Completed.”

The possibility that the Client may not be seen again is not a reason to exit a Client from a project, and project exit should only be recorded once project participation has ended, or after the locally- determined period of time has passed without a contact with the Client .

Project Start Date replaces Project Entry Date: A new definition of the point of entry for some PH projects. HMIS administrators should provide end users in the affected PH project types with additional information on when each project type is expected to enter a Project Start Date. The following rules apply to Project Start Date for non-PH projects:

1. Street Outreach projects – Date of first contact with the Client.
2. Emergency Shelters – Night the Client first stayed in the shelter for the consecutive shelter period from entry to exit. Night-by-night shelters, which use a bed-night tracking method, will have a project start date for the night the Client first stayed and will allow Clients to re-enter as necessary without “exiting and restarting” for each stay for a specified period.
3. Safe Havens and Transitional Housing – Date the Client moves into the residential project (i.e. first night in residence).
4. All Permanent Housing project types, including Rapid Re-Housing – Date that the Client was admitted into the project. See the Special Data Collection Instructions for Rapid Re-Housing and Permanent Supportive Housing for additional information on Project Start Date for PH projects.
5. All other types of service projects (including but not limited to: services only, day shelter, homelessness prevention, coordinated assessment, health care) - Date the Client first began working with the project and generally received the first provision of service.

Protected Personal Information (PPI): Information about a Client : (1) whose identity is apparent from the information or can reasonably be ascertained from the information; or (2) whose identity can, taking into account any methods reasonably likely to be used, be learned by linking the information with other available information or by otherwise manipulating the information.

Point-in-Time (PIT): A snapshot of the homeless population on a given day. Since 2005,

HUD requires all CoC applicants to complete this count annually in the last week of January. This count provides a count of sheltered and unsheltered homeless persons.

ServicePoint: The HMIS software that is currently being used by the Broward County Continuum of Care. It is a web based HMIS that is licensed from WellSky Corporation, formerly known as Mediware Information Systems, Inc.

HMIS Project Supervisor: Role within the HMIS Lead. This position is responsible for the oversight of the HMIS Team and all required deliverables.

Unduplicated Count: The number of people who are homeless within a specified location and time period. An unduplicated count ensures that individuals are counted only once regardless of the number of times they enter or exit the homeless system or the number of programs in which they participated. Congress directed HUD to develop a strategy for data collection on homelessness so that an unduplicated count of the homeless at the local level could be produced.

Universal Data Elements (UDEs): Data required to be collected from all Clients serviced by homeless assistance programs using an HMIS. These data elements include date of birth, gender, race, ethnicity, veteran's status, and Social Security Number (SSN). These elements are needed for CoC's to understand the basic dynamics of homelessness in their community and for HUD to meet the Congressional mandate.

CHO END USER LICENSE AGREEMENT BETWEEN BROWARD COUNTY AND ENTER LEGAL NAME FOR ITS HOMELESS INITIATIVE PARTNERSHIP SECTION AND COVERED HOMELESS ORGANIZATION

This CHO End User License Agreement (the “Agreement”) is made and entered into by and between Broward County, a political subdivision of the State of Florida (“County”), on behalf of its Homeless Initiative Partnership Section (“HIP”) and enter legal name and d/b/a name as applicable, Choose an item from drop down list that records, uses, or processes protected personal information of homeless Clients in and for Broward County (“CHO”).

RECITALS

A. This Agreement addresses the joint responsibilities of HIP and CHO for ongoing Homeless Management Information Systems (“HMIS”) activities. As the County’s Continuum of Care (“CoC”) HMIS Lead Agency, HIP is responsible for administering HMIS on behalf of the CoC, including the implementation, project management, training, maintenance, help desk support, and enhancement and upgrading of the software.

B. The U. S. Department of Housing and Urban Development (“HUD”) requires all homeless services grantees and sub-grantees to participate in a localized HMIS. The County’s CoC HMIS: i) provides a comprehensive system for collecting and disseminating information about persons experiencing homelessness or at risk of homelessness; and ii) is the homeless service system in support of the CoC’s goal to prevent, reduce, and ultimately eliminate homelessness. This is accomplished by assisting homeless service providers in generating required reports, as well as streamlining and consolidating the CoC’s HMIS data sharing, tracking, and record keeping requirements.

C. On or about May 7, 2013, the County entered into an agreement adopting the Miami-Dade County Professional Services, Software License, Maintenance and Support Agreement, Social Services Information System, with Bowman Systems, LLC, subsequently acquired by WellSky Corporation, formerly known as Mediware Information Systems, Inc., (“WellSky License Agreement”), which permits County to extend to third-party end users certain license rights to use the ServicePoint software (the “Software”).

D. County through its HIP and CHO desires to enter into this Agreement to provide for CHO use and access to the HMIS system and Software and to establish the terms of such use and access.

For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

Policies and Procedures and HUD HMIS Data Standards. CHO shall abide by all HMIS sharing restrictions as defined by the Client. In accordance with the HMIS Policies and Procedures Manual and other applicable regulations, CHO shall not deny services to any Client solely because the Client declines to give authorization for their information to be shared with other CHOs or entered into the integrated HMIS database.

Invoices must be paid timely in full by the CHO within thirty (30) days of the date of the invoice. Without limiting any other remedies available, failure of CHO to timely pay any invoice may result in the immediate termination of this Agreement or suspension of all license rights of CHO.

4.3 Changes in License Fee. If and to the extent the annual fee for an End User License increases or is otherwise modified in connection with the WellSky License Agreement, the amount due under Section 4.1 shall be adjusted such that CHO shall pay in full the annual

CHO, at all times, will indemnify and hold County, including HIP, harmless from any damages, liabilities, claims, and expenses that may be claimed against County, including HIP, in any way relating to CHO’s use or access to the HMIS system or this Agreement, including without limitation for any loss or damage resulting in the loss of data due to delays, non-deliveries, mis-deliveries, or service interruption relating to the HMIS system or Software.

Exhibit B – User Access Agreement

HMIS is a collaborative project with participating homeless shelters and service providers in the Broward County CoC. HMIS will enable homeless service providers to collect uniform Client information over time. This system is essential to efforts to streamline Client services and inform public policy. Analysis of information gathered through HMIS is critical to accurately calculate the size, characteristics, and needs of the homeless population. This data is necessary to service and systems planning.

The HMIS project recognizes the diverse needs and vulnerability of the homeless community. HMIS' goal is to improve the coordination of care for individuals and families in Broward County. It is important that Client confidentiality is vigilantly maintained, treating the personal data of our most vulnerable populations with respect and care.

As the holders of this personal data, Broward County CoC HMIS users have an ethical and legal obligation to ensure that data is being collected, accessed, and used appropriately.
