January 27, 2010

Ms. Nina B. Demeo, Manager
Hollywood-North Perry Airport
101 SW 77th Way
Pembroke Pines, FL 33023

Dear Ms. Demeo:

Congratulations! Hollywood-North Perry Airport (HWO) has been selected to receive the 2010 FAA Southern Region Runway Safety Partnership Award.

This award is presented to the Hollywood-North Perry Airport in recognition of the outstanding work and contributions made to reduce runway incursions. You and your staff quickly began a Special Emphasis Program that included:

- 1) Runway safety education and familiarization for tenants
- 2) Enhancements to the airport's drivers' training program
- 3) Monthly runway safety meetings with airport tenants

Broward County showed support by providing funding to install new signs and marking. The County also made a commitment to sign and mark HWO to meet the requirements of FAR part 139 airport.

These special emphasis initiatives proved to be effective because runway incidents were significantly reduced from 8 incidents in FY 2009 to 0 incidents in FY 2010. The Special Emphasis Program was developed after 2 severe runway incursions occurred in 2009.

Your proactive approach and the desire to maintain the highest level of safety makes you a leader and a partner in aviation safety. Again, congratulations for a job well done in promoting, developing, and implementing runway safety initiatives and activities at the airport.

Sincerely,

Anna B. Cohen
Manager, ASO Runway Safety Program
