PUBLIC NUISANCE ABATEMENT

Public Nuisance Abatement investigations occur when Code Enforcement Inspectors become aware of conditions that pose a significant threat to the health, safety, and welfare of the general public such as heavily overgrown vacant lots, junk or wrecked vehicles stored outside, unsecured vacant structures, and improper storage of junk items and trash that require immediate attention by the property owner. Violations that are not corrected in a timely manner may result in administrative fines, abatement by the County or both. Broward County Ordinance 2009-80 established the Abandoned and Vacant Real Property Registration and Inspections Program to prevent blight and neglect due to foreclosed and abandoned property. This program requires financial institutions to register abandoned homes with the County, perform routine monthly inspections, and adhere to maintenance and security requirements.

RENTAL HOUSING INSPECTIONS

On June 11, 2013, the Broward County Board of County Commissioners adopted the Landlord Registration and Residential Rental Property Inspections Program. This program is designed to provide property maintenance guidelines to owners and renters through annual registrations and subsequent property inspection reports conveying improvements needed to keep residential properties clean and neat in appearance. Program complements the efforts of code enforcement by encouraging proactive compliance with rental home maintenance and community standards. Program serves to protect property values, preserve the quality of unincorporated area neighborhoods, and prevent blight. To prevent the negative results of deferred or inadequate maintenance of rental housing units, unpermitted dwelling units, or unsafe repairs, Code Inspectors work with property owners to develop a plan for compliance as needed.

BOULEVARD GARDENS AND WASHINGTON PARK NEIGHBORHOOD HIGHLIGHTS

The Code Enforcement Section has opened 208 cases with 18 properties that were cleared of unkempt property grounds after being declared public nuisances in the Boulevard Gardens and Washington Park Neighborhoods during this quarter. There were also 189 zoning code violation cases opened and 66 rental property inspections performed. Code enforcement works with property owners and other county agencies, to help ensure the quick removal of unsightly and unsafe public nuisances. Over the past year, Code Enforcement has opened a total of 850 cases and has achieved an overall compliance rate of 89% in these two communities.
WASHINGTON PARK NEIGHBORHOOD CLEARED OF BACK YARD HAZARD

A large amount of junk items and household discards were being thrown on the property grounds of a single-family home on the 2800 block of NW 6 Court in June. Upon closer investigation, a code inspector discovered that renovation work was being done without any building permits. The property was immediately cleared of the junk and household discards and an application for building permits was submitted to Broward County.

DUMPING INVESTIGATION REVEALS
VEHICLE STORAGE YARD AT RESIDENCE NEXT DOOR

While investigating an illegal dumping complaint a large number of vehicles were discovered in the rear yard of a property at the 500 block of NW 31st Avenue in the Boulevard Gardens Subdivision. Code Enforcement staff worked quickly to notify the out-of-state property owner and work with the local property management company and the tenants to clear the property violations within 10 days.
UNLICENSED FOOD SALES ACTIVITY OCCURING IN RESIDENTIAL NEIGHBORHOOD HALTED BY CODE ENFORCEMENT

During a neighborhood inspections project on February 7, 2017 in the Roosevelt Gardens Subdivision, the Code Enforcement Section identified a residence where continuous unpermitted outside storage and prohibited food sales to the public was occurring. The tenant was notified of the violation and code enforcement continued to monitor this location for compliance. Through additional enforcement measures, the property owner had to take steps to ensure the violations were cleared. Since this property is required to pass annual rental inspections, the property owner performed other property maintenance corrective actions including the installation of new sod, proper street identification numbers, and repainting of the building which were all completed in June 2017.
