FAST GUARD
SECURITY SERVICE

MESSAGE from the CEO

I founded Fast Guard Service with sense of duty and ethics at its core. Essentially, I operate my business to give the businesses that we protect the same standard of care creating a safe and secure environment for staff and customers.

Through research and experience I have learned that this is and always will be, the most essential duty in a business's day to day operations.

Roderick C. Payne Jr
Fast Guard Service
President and CEO

Who We Are?

Fast Guard Service has a strong history of providing security services within many agencies of the Government, Hospitality, and Private Industry.

We have the experience to deliver a high degree of regulatory compliance, reporting transparency and compliance with minimum/living wage standards.

Fast Guard Service can be relied upon to deliver a trusted security program. We deliver comprehensive security with high visibility at critical infrastructure locations/facilities.

Organizations can rely upon **Fast Guard Service** to ensure security and safety while providing the best value to the taxpayers.

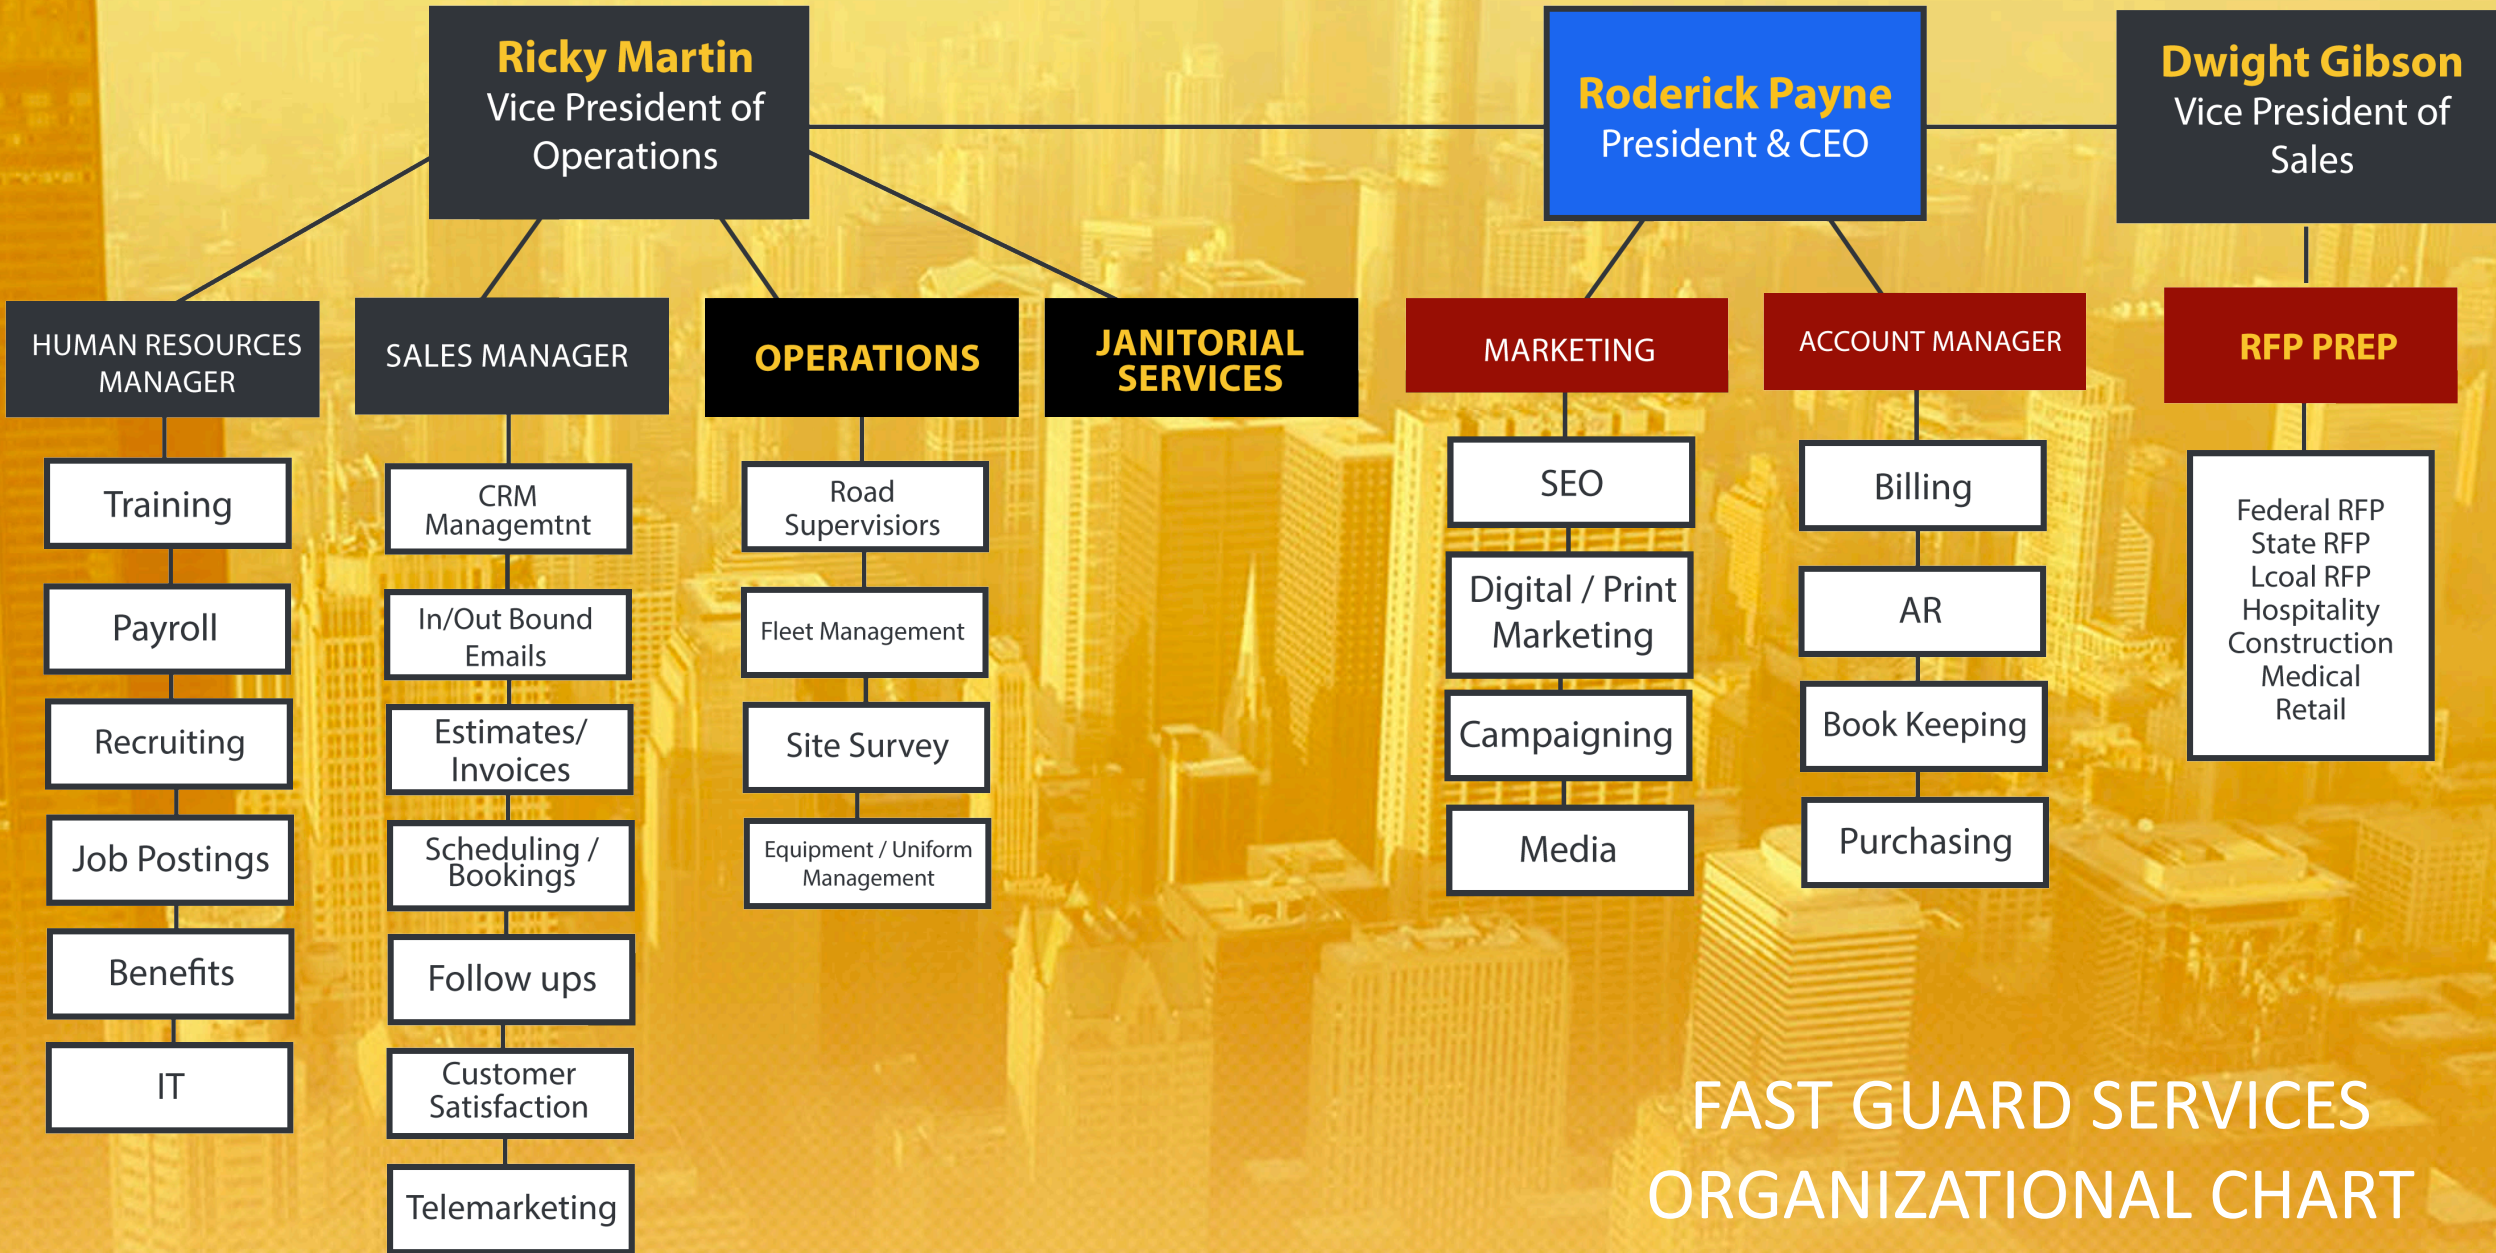

Why Choose
FAST GUARD SERVICE ?

Management Team

Implementation Plan and Schedule

Scheduling

Accurate scheduling is a vital component of our effectiveness and client satisfaction. Our automated scheduling system provides Broward County Government with the most accurate, efficient scheduling available. The system not only plans who is scheduled for work and when, it also integrates with our training compliance tracking to ensure scheduled security officers have the necessary training and skills.

Scheduling

In addition, managers who are directly responsible for employee schedules participate in our **How to Create and Manage a Schedule** training program. This training helps ensure schedules are efficient and meet contractual requirements.

Our quality scheduling protocols include:

- Providing all hours of contracted service.
- Scheduling officers who have received every training specific to your site.
- Maintaining scheduling standards such as a maximum of 12 hours per shift, minimum of 8 hours off between shifts, and at least 24 consecutive hours off each week. Fast Guard Service scheduling system records the requirements of each post and allows for effective tracking of all changes.

We can also quickly and appropriately respond to call-offs due to illness or other events that could potentially disrupt fulfillment of coverage requirements. Fast Guard Service employees are given more than a week's advance notice of their schedules so they can effectively manage their time and personal commitments without compromising their professional lives and service delivery.

Transition Philosophy

Every successful project phase-in requires early coordination and involvement by all supporting resources, very much like the process of putting a puzzle together with parts that never stop moving. Finance, Legal, Human Resources, Training and Administration teams communicate during proposal development to ensure only executable and achievable commitments are made. The early and persistent flow of information between stakeholders is essential to building a foundation for the transition process. Transition objectives catalog the range and depth of tasks and goals that support effective evolution from award notification to service delivery start and include every facet of the organization. Although the transition manager is ultimately responsible for leading the startup effort from award through contract start, he is supported, on-and off-site by district, regional, division and corporate support.

Transition Philosophy

The Transition team is a group of subject matter experts who support the transition manager during implementation of the Plan. Each has a well-defined role and has experience in complex contract startups within the organization. Work begins prior to contract award and continues through start-up, remaining in place for a minimum of thirty (30) days after service delivery begins. The transition manager manages the Plan, while the transition team executes all aspects of the transition, and the onsite supervisor manages the day-to-day interaction with the client on-site.

Company's ability to effectively manage this project

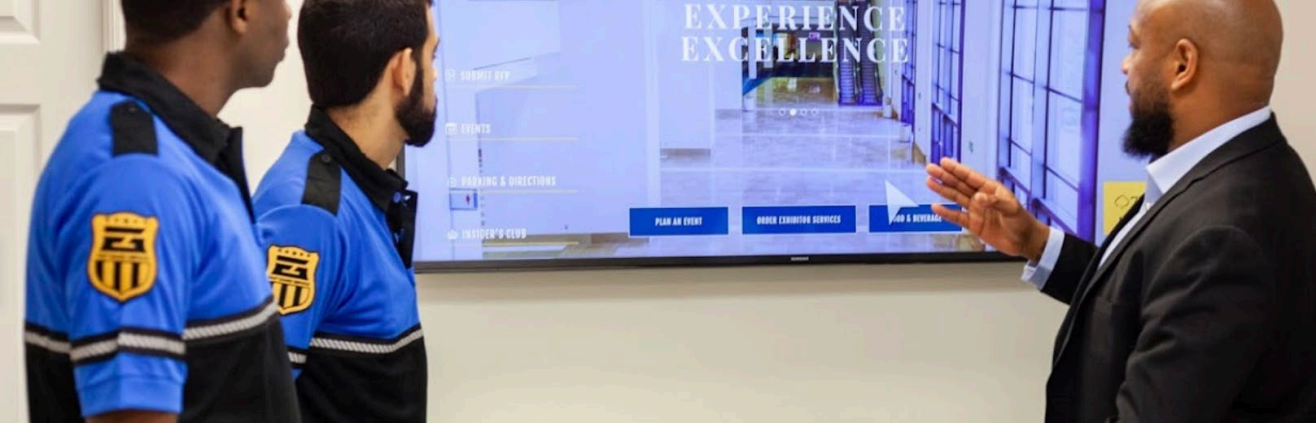

Fast Guard Service is an acclaimed security agency with a reputation for both effective security solutions and the use of innovative technology in the protection of life and property. We have a portfolio of completed and on-going projects, and we believe that your project is well suited to our strengths and aspirations. Fast Guard can be relied upon to deliver a trusted security program that you can rely upon to ensure security and safety, while providing the best value to you.

Training

We will provide the best trained officers in the industry. We invest heavily in training; In addition, to State training requirements all officers will be required to complete 8 hours of site-specific training prior to being assigned a post.

Accountability

We deliver a culture of performance based on accountability that you can rely on.

At Fast Guard Service, we not only train for success, but we also measure for it.

From deploying world class technologies to monitoring our officers' daily activities and compliance with standards and task completion, to on-line resources that provide a constant window into our performance, we are committed to providing world-class security program.

Our tradition of excellence comes from a corporate culture of planning, measuring and accountability.

Technology

Continuous evaluation and implementation of the best-in-class technology solutions.

We will provide non-proprietary, industry leading technology that will reduce security costs and improve overall security best-practices to manage operations more efficiently saving time while reducing administrative burdens.

Professional Attire, Appearance and Presentation

We offer a variety of uniforms that can be customized to the various needs of the officer such as: Hotel/Condominiums, Tactical, Bike Patrol and Traffic Control, Event security and other officer duties.

We offer everything from a military uniform that provides a show of force for the code enforcement officer to bicycle uniforms suitable to the mobility required with bicycle patrols.

Fast Guard Contracts and Major Projects

Florida Vero Beach Airport

Vero Beach Regional Airport is located in Indian River County, just over one mile from downtown Vero Beach.

The airport has three runways, with the longest runway measuring 7,314 feet. The airport serves all facets of general aviation, including intercontinental business jets and most air carrier aircraft.

Fast Guard is the 24/7 Security Provider for the airport. We provide security screening and control access to the runway and the manufacturing hub.

Panama City, Florida

Hurricane Michael 2018

Fast Guard was deployed to provide a security presence at impacted businesses until the facility could be secured and inventory preserved after Hurricane Michael which made landfall along the Florida panhandle near Panama City. We assisted law enforcement with enforcement of curfews and blocking of roads with marked vehicles.

California **Paradise Fire 2018**

Damage: \$16.65 billion

Fast Guard Service worked with the American Red Cross and the Butte County Emergency Management and State and local partners in the sheltering of 28,000 survivors.

We created the security plan for the evacuation shelter. Over 150 guards were deployed to provide security 24/7 for approximately one year.

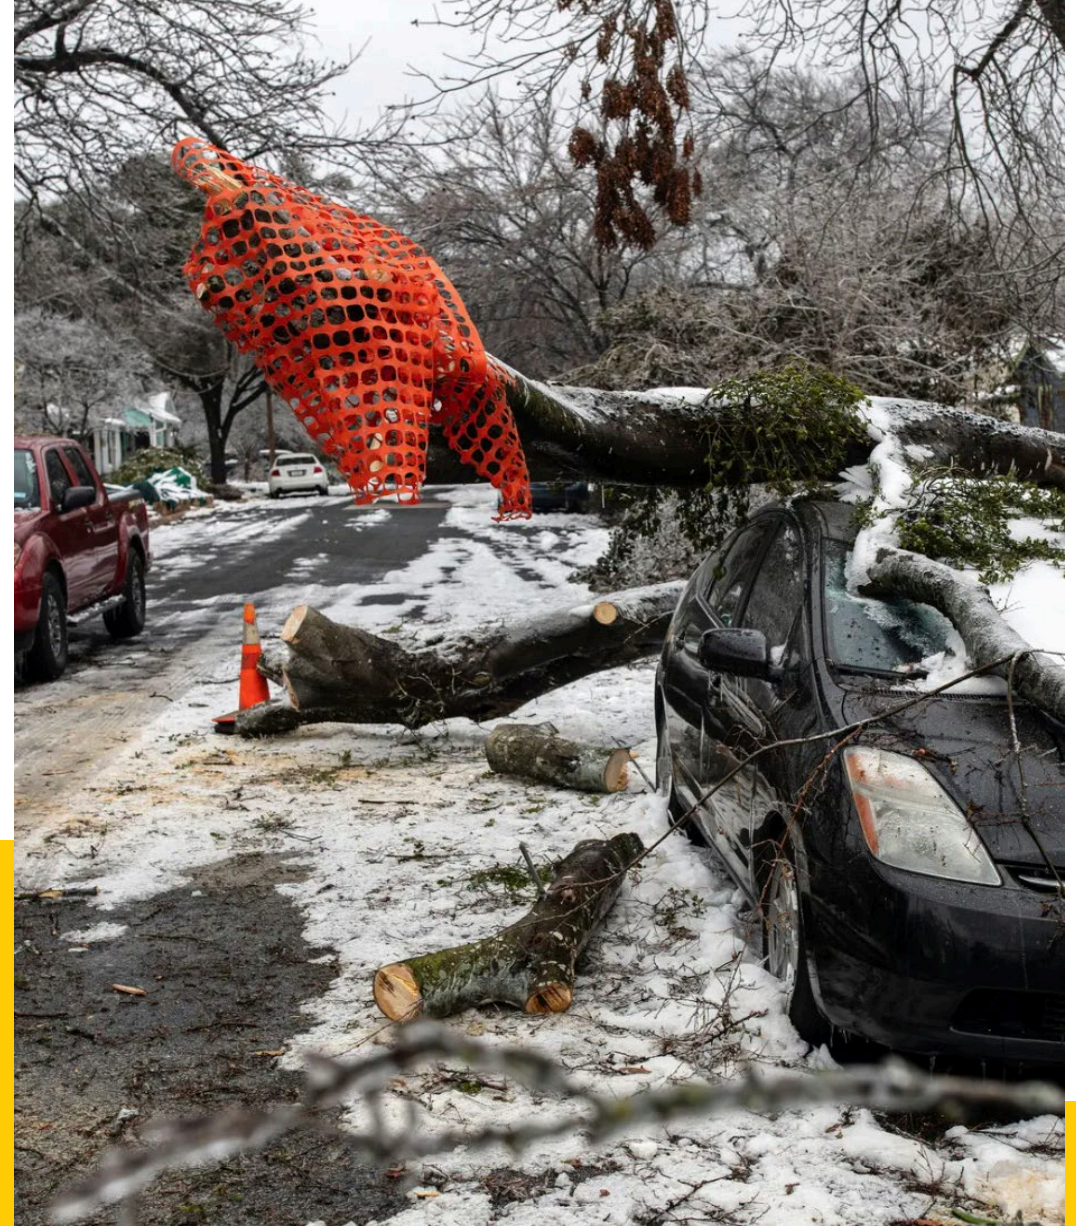

Texas **Ice Storm Texas 2021**

Damage: \$196.5 billion

Fast Guard was deployed to Houston, Austin, San Antonio and Beaumont in Response to one of the coldest winter storm on record.

Provided visual fire watch to 300 apartment complexes where the fire detection system was unable to communicate due to damaged lines in lieu of evacuation.
