

# GEN2120540P1 – In-House Pharmacy Management Services

<b>EVALUATION CRITERIA - PROJECT SPECIFIC CRITERIA</b>	<b>Advanced Pharmaceutical Consultants, Inc. 555 NE 15th Street, Suite 200 Miami, FL 33132</b>	<b>Jules Enterprise Group, Inc. dba Anuco Rx 1560 Sawgrass Corporate Parkway Sunrise, FL 33323</b>
--	--	--

<p><b>1. Ability of Professional Personnel (Total Points Value: 40):</b></p> <p><b>1a.</b> Describe prior experience and history providing institutional pharmacy management services and working with facilities that provide mental health and/or substance abuse treatment, including details of knowledge and experience with community pharmacy management. It is preferred that the vendor have a minimum of three (3) years of related experience. Vendors with less than three (3) years of related experience will still be considered; however, failure to have three (3) years of related experience may result in reduced or zero (0) points awarded for sub section 1a.</p> <p><b>Points Value: 10</b></p>	<p>APC Vendor.</p> <p>APC was founded on the mission to provide specialized pharmacy management and consulting solutions to behavioral health care facilities, drug treatment centers, and forensic prisons. APC has over 28 years of experience with nearly 150 facilities nationwide and in Puerto Rico. We believe it is important to be specialized in behavioral health and do it better than anyone else.</p> <p>APC has worked within community and institutional formats in the behavioral healthcare field.</p>	<p>Anuco's team has over 16 years of institutional, community and managed care pharmacy services. We have extensive experience in managing public and private facilities across the country to include all sizes of correctional centers, jails, long-term care centers, managed care organizations, re-entry centers, employer/benefits group consulting and community pharmacy. We specialize in optimizing pharmacy/medication management through an array of clinical pharmacist-led services. We've worked with our clients to establish protocols and programs to help maximize access to care and resources within the mental/health and/or substance abuse settings along with other specialties. Our knowledge extends beyond pharmaceutical management. We know that collaboration is essential for success in preventing opioid overdose deaths. We've brought awareness, resources, and expertise to address this complex and fast-moving epidemic. Together, we better coordinate our efforts to prevent opioid overdoses and deaths through our partnership and community.</p> <p>We understand the importance of continuity of care, especially for our mental health and/ or substance abuse treatment facilities, which is why our "model pharmacy system" ensures our clients are confident that their pharmacy program is manageable, accessible, cost-efficient, accountable, accurate and exceeds industry standards for pharmaceutical care and quality. We have experience assisting Case Managers and Social Workers in providing chronic medications and resources to after-care treatment programs. Providing these services allows individuals (patients/residents/clients) time to transition to medical services in the community.</p>

## GEN2120540P1 – In-House Pharmacy Management Services

<b>EVALUATION CRITERIA - PROJECT SPECIFIC CRITERIA</b>	<b>Advanced Pharmaceutical Consultants, Inc. 555 NE 15th Street, Suite 200 Miami, FL 33132</b>	<b>Jules Enterprise Group, Inc. dba Anuco Rx 1560 Sawgrass Corporate Parkway Sunrise, FL 33323</b>
--	--	--

<p><b>1b.</b> Describe experience providing pharmacy consultation with regards to major accrediting bodies' facility surveys and inspections (i.e. The Joint Commission (TJC), Commission on Accreditation of Rehabilitation Facilities (CARF), and the Substance Abuse and Mental Health Services Administration (SAMSHA)) and any government regulating bodies (i.e. Department of Health, Department of Child and Families).</p> <p><b>Points Value: 10 points</b></p>	<p>APC Vendor.</p> <p>APC has a lineage of expertise in advising and ensuring survey excellence. APC has received positive survey results with little to no recommendations in the past 20 years. We have experience in all types of surveys ranging from Joint Commission, CARF, DEA, Board of Pharmacy, SAMHSA, and an array of state surveys. We often are consulted when a facility experiences issues in medication management and requires expertise to remedy any issues.</p>	<p>Anuco has provided consultation, which includes mock-audits to our clients who are accredited and/or hold licenses by the following agencies: JCAHO, CARF, SAMSHA, DOH, DCF, ACA, and NCCHC. Our Corporate Regulatory and Compliance Pharmacist is dedicated to monitoring developments in laws, rules and regulations that govern our clients and licenses. For each client, Anuco customizes its services to ensure we comply with institutional policies and procedures at each facility and the governing regulatory regime in that respective State. This multi-level approach provides a valuable tool for the facility to ensure client/resident/patient safety, employee accountability, institutional security, and regulatory compliance.</p> <p>Anuco's commitment to full compliance is rooted in our values as an accountable and ethical pharmacy partner. Our mantra is to always be inspection/survey ready.</p>
<p><b>1c.</b> Describe knowledge and experience with purchasing inventory, including control and utilization management of stock and special-order medications for institutional pharmacy services.</p> <p><b>Points Value: 5 points</b></p>	<p>APC Vendor.</p> <p>Part of the APC strategy is not only to provide quality treatment for our patients but to also provide pharmaco-economic knowledge that ensures the best treatment at the best price so patients are able to comply and reduce recidivism. APC will manage inventory with 1.5 maximum turns and will utilize all MMCAP tools to ensure contract compliance. APC has a backup pharmacy to address any special order non-formulary medications. APC has distinct proactive polices that address any drug shortages or outages.</p>	<p>Anuco utilizes a robust pharmacy management solution to ensure the highest level of accuracy and accountability. The application uses bar-code scanning integration which allows for quick input of inventory/PAR levels with automatic adjustment as inventory is ordered and depleted. The real-time inventory control is tracked 24/7 as medications are withdrawn or replenished. Automatic refill triggers are configured as well as pharmacist review prior to sending.</p> <p>Our bar-code integration and reconciliation program monitors and records on-site receipts of orders and assist in maintaining pharmaceutical inventory in a safe, secure, organized and real-time inventory tracking down to the resident/patient /client level.</p> <p>In addition, we know that maximizing the use of generic medications are not always enough to control pharmacy costs however by managing market disruptions, drug shortages and single source generics we've provided our clients with advance information and data to make decisions</p>

## GEN2120540P1 – In-House Pharmacy Management Services

<b>EVALUATION CRITERIA - PROJECT SPECIFIC CRITERIA</b>	<b>Advanced Pharmaceutical Consultants, Inc. 555 NE 15th Street, Suite 200 Miami, FL 33132</b>	<b>Jules Enterprise Group, Inc. dba Anuco Rx 1560 Sawgrass Corporate Parkway Sunrise, FL 33323</b>
--	--	--

		<p>and policy that are proactive rather than reactive. This information has been essential to planning drug budgets, controlling medication costs and in determining which medications provide the most value for our clients.</p>
<p><b>1d.</b> Describe experience obtaining wholesale pharmaceuticals as a member of a group purchasing organization such as the Minnesota Multi-State Contracting Alliance for Pharmacy (MMCAP) and utilizing a specialty pharmacy. Provide details of experience working with Patient Pharmaceutical Assistance Programs and Reverse Drug Distribution.</p> <p><b>Points Value: 5 points</b></p>	<p>APC Vendor.</p> <p>APC works with several Group Purchasing Organizations and has the skill to properly ensure contract compliance with pricing. It is important to note that APC never shares any pricing data amongst buying groups. APC has been provided the task to operate patient assistance programs in other organizations. In this case we have hired a patient assistance specialist to ensure this is properly handled. We also have experience in properly managing samples under Florida law and to help defray patient and facility cost. APC has not included hours for a patient assistant specialist but could allocate if BARC desires.</p>	<p>Our experience includes reviewing drug costs for our client's purchasing contracts by leveraging 340B, state and pharmaceutical purchasing programs. As a value added service we provide an analysis of current drug market trends that allows essential planning for our clients' pharmaceutical budget, drug costs and determining overall value. Our analysis includes: medication availability data, current market prices or estimated pricing, evidence-based medicine, market disruptions and clinical pharmacist recommendations.</p> <p>We assist our clients increase access to care and tailor resources for patient assistance programs, as we fully understand lack of access to medical care can introduce unnecessary operational issues, jeopardize public safety, drain resources and increase costs. As a partner we maximize all resources to ensure access to medications continues to be a value-added service for our clients.</p> <p>Anuco will oversee the disposal of all unusable medications. We will destroy any requested medications (including controls) on site during our inspections and non-controlled medications may be returned to Reverse Distributor. Our pharmacists will sign a destruction log and keep on file for all medications disposed on-site and sent to Reverse Distributor.</p>
<p><b>1e.</b> Describe knowledge and experience with pharmacy management software/hardware, specifically addressing experience using automated medication dispensing machines, Electronic Healthcare Records (EHR), Electronic Medical Record (EMR), E-Script, E-Force (Florida's Prescription Drug Monitoring Program), and fully electronic medication</p>	<p>APC Vendor.</p> <p>APC has extensive knowledge of Electronic Health Records and has effectively interfaced with those that do not contain a pharmacy component. The EHR software must be HL7 compliant to properly interface. APC partners with a EHR company called HCS which is a full service product that will do CPOE, EMAR, MED</p>	<p>We have extensive knowledge and experience with integrations, this is why we are recommending a FULL integration that will deliver a unified medication management workflow for the ADM, EHR, eMAR, E-FORCSE and Pharmacy Management Solutions (PMS).</p> <p>Our solution is to streamline workflow, increase access to care and increase the County's Return</p>

## GEN2120540P1 – In-House Pharmacy Management Services

<b>EVALUATION CRITERIA - PROJECT SPECIFIC CRITERIA</b>	<b>Advanced Pharmaceutical Consultants, Inc. 555 NE 15th Street, Suite 200 Miami, FL 33132</b>	<b>Jules Enterprise Group, Inc. dba Anuco Rx 1560 Sawgrass Corporate Parkway Sunrise, FL 33323</b>
--	--	--

<p>administration systems with medication bar-coding capabilities.</p> <p><b>Points Value: 5 points</b></p>	<p>REC, ESCRIBE, EFORCE and other modules. For the purpose of this bid, APC will install the HCS pharmacy module which will allow interfacing with ECHO or it may be the basis for a full feature EHR. Additional interfacing with ADT and other ECHO features; will require a discussion with the HCS and ECHO teams. HCS may also be the full fledged EHR to replace ECHO if decided by the BARC organization. The HCS program allows unlimited user access to the eprescribe, medication reconciliation, and PMP modules; provided there are workstations in place to provide access.</p>	<p>on Investment (ROI) through increased integration between BARC solutions and enhanced workflows, BARC will see improved medication management processes. Specifically, through the integration between ECHO (EHR) and Fusion (PMS), BARC will achieve a streamlined workflow from the moment of Medication Ordering to the Pharmacist Approval Workflow. Upon the pharmacist approval workflow, the medication will be available for dispensing through the Automated Dispensing Machine.</p> <p>Through this integration we have seen success with our clients.</p> <p>In addition, please refer to Section 2-Technological Requirements of our proposal.</p>
<p><b>1f.</b> Describe the qualifications and relevant experience (resumes) on vendor's key staff, including primary pharmacist, consultant pharmacist, certified pharmacy technicians and any other personnel to be utilized for this project. Provide copies of licensures and certifications applicable in the State of Florida. Include the qualifications and relevant experience of all subconsultants' key staff to be assigned to this project. Include information and disposition for any current or prior disciplinary actions related to licensure of all applicable individuals.</p> <p><b>Points Value: 5 points</b></p>	<p>APC Vendor</p> <p>All APC staff undergo an extensive performance training program that is continuously taught and evaluated over the employee's work life. All human resource documents and training records are available to the BARC human resource department. All staff are licensed by the state of Florida and all staff must complete required continuing education to renew their license. APC has an extensive competency document that is utilized to ensure the best service for our clients. No staff have disciplinary actions on file. Should that occur, APC would notify BARC of any adverse action and APC would cooperate with the compliance department of the county.</p>	<p>All pharmacy personnel are licensed, certified and qualified to meet the expectations of the County.</p> <p>There are no disposition or prior disciplinary actions related to the licensures of our staff.</p> <p>In addition, please refer to Section 3-Pharmacy Personnel Requirements of our proposal and corresponding Exhibit G--Anuco Rx Pharmacy Personnel.</p>
<p><b>2. Project Approach (Total Points Value: 30):</b></p> <p>Additional Information: Describe your approach to the Scope of Services, including software, proposed equipment and ADMs.</p> <p><b>2a.</b> Describe the Vendor's approach to provide Pharmacy Management Services at each service location (Central and Booher). Describe</p>	<p>APC Vendor.</p> <p>APC's approach at all of our facilities is to include automation and software in our solutions. APC realizes no two facilities are alike, so we strive to develop the best solution based on our client needs. APC would propose on-site services at BARC Central and Booher. We would update all our current software and hardware to include HCS pharmacy software and Omnicell Automated dispensing machines.</p>	<p>Our approach is to streamline workflow, increase access to care and increase the County's Return on Investment (ROI) through increased systems integration.</p> <p>Pharmacy Equipment (NEXSYSADC) for each location with include adequate quantity and configuration to meet the need of each facility (Central and Booher). The intent on the ADM is to maximize the dispensing experience without</p>

## GEN2120540P1 – In-House Pharmacy Management Services

<b>EVALUATION CRITERIA - PROJECT SPECIFIC CRITERIA</b>	<b>Advanced Pharmaceutical Consultants, Inc. 555 NE 15th Street, Suite 200 Miami, FL 33132</b>	<b>Jules Enterprise Group, Inc. dba Anuco Rx 1560 Sawgrass Corporate Parkway Sunrise, FL 33323</b>
--	--	--

<p>your agency's proposal for on-site and remote services including the proposed arrangement of staffing, quantity/type of automated dispensing machines (ADMs), related software, and plans for coverage to maintaining adequate staffing or service transition at end of contract term or termination. Provide copies of equipment specifications, software descriptions, and any manufacturer brochures. Include a timetable with phases for deployment to include software and equipment.</p> <p><b>Points Value: 10 Points</b></p>	<p>This is a change from the current winpharm pharmacy software and the med-dispense ADM's. The Electronic Health Record is the area that requires more information. APC can interface with EHCO via HCS or ECHO may be replaced with HCS. HCS would meet many needs of the county such as EMAR, CPOE, MED RECONCILIATION, and EFORCE. APC also realizes that BARC may want to continue the use of ECHO and open up discussions on interfacing. Unfortunately, the EHR aspect of this proposal cannot be decided without further BARC discussion. APC is simply providing a sound basis of a system that can be incorporated in both scenarios. APC has included information on HCS and Omnicell as the new next generation solutions four BARC</p> <p>The new and improved technology changes that APC is proposing would require an implementation period of 120 days from the signing of a new contract. Since APC has equipment and software in place now, the transition period could be timed to not disrupt current services.</p>	<p>compromising desired and required functionality.</p> <p>Each location will have a designated Registered Licensed Pharmacist and Pharmacy Technician available on-site and/or remotely. We will ensure adequate pharmacy personnel coverage is provided in connection with the services to be furnished.</p> <p>In addition, please reference Sections 2 thru 4, 6-8 and corresponding Exhibits A thru G of our proposal.</p>
<p><b>2b.</b> Describe ability to receive physician orders for medication via fax and other means. Describe available provisions for after hour emergency services, filling STAT prescriptions, and delivery of medications on an as-needed basis.</p> <p><b>Points Value: 7 points</b></p>	<p>APC Vendor.</p> <p>APC has a secure VPN connection to receive all CPOE orders via fax. The ability to receive orders via email is not considered secure. APC is on call 24 hours a day seven days a week to address any emergency services, stat orders, and needed deliveries.</p>	<p>Anuco is proposing to integrate Fusion's PMS with ECHO (EHR). Through the integration between ECHO (EHR), Fusion PMS, and NEXSYSADC BARC will receive a streamlined medication management workflow. This will allow for complete interoperability across all software while enhancing BARC's current ePrescribing workflows. This process is a comprehensive on-line FULLY paperless ordering, reporting, and reconciliation program. Anuco's pharmacists are available 24 hours a day, 7 days a week to provide pharmacy support. This service ensures that the County has an ongoing source for drug information and support for pharmacy processes throughout the contract. Anuco will provide after-hours and</p>

## GEN2120540P1 – In-House Pharmacy Management Services

<b>EVALUATION CRITERIA - PROJECT SPECIFIC CRITERIA</b>	<b>Advanced Pharmaceutical Consultants, Inc. 555 NE 15th Street, Suite 200 Miami, FL 33132</b>	<b>Jules Enterprise Group, Inc. dba Anuco Rx 1560 Sawgrass Corporate Parkway Sunrise, FL 33323</b>
--	--	--

		<p>emergency pharmacy coverage, as needed, remotely or as otherwise agreed. When our clients have been directly impacted by disasters, we have demonstrated our capacity to mobilize statewide resources and respond with essential supplies, staffing support, and communications. We have experience in the delivery of pharmacy management services during hurricanes, tornadoes, and a pandemic.</p> <p>Anuco will work directly with the local pharmacies closest to the respective facilities to provide emergency and/or stat medications. In addition to decrease reliance on back-up pharmacy our team of clinical pharmacists will work with the facility to create a "STOCK" list of essential medications that are commonly used and needed for immediate access. As the County's Pharmacy Management vendor it's our stewardship to provide the best and cost-effective services and solutions.</p>
<p><b>2c.</b> Describe Vendor's plan for dispensing medications directly to clients and/or staff on a daily, weekly, and monthly basis or other time frame as determined in coordination with County. Provide a detailed description of the proposed medication packaging system. Describe your plan for and experience in managing mid-cycle changes and re-packaging and required coordination with insurance companies.</p> <p><b>Points Value: 6 Points</b></p>	<p>APC Vendor.</p> <p>APC provides unit dosing for all medications to ensure a nurse is not placed in a position of pre-pouring medications, Our dispensing system with bar coding ensures clients receive the correct medication. Our system for utilizing automated dispensing technology does not require a nurse to reorder medications or any weekly or monthly rotations, Should Booher desire to not have a dispensing machine and retain the current patient specific model; APC could prepare those medications on-site at Booher. The Central pharmacy does not contain the proper space to do this activity, so a Booher limited pharmacy would work best. The automated dispensing machine, requires a nurse to administer the medications. APC does not bill insurance companies, but has a system of maintaining a very low average drug cost per patient day of \$5.</p>	<p>With a FULLY integrated platform Anuco can increase access to patient care and provide our client with a robust electronic solution that will enhance medication management. The high level and functionality of the ADM, pharmacy software and EHR interface will give pharmacy personnel the tools to meet the needs of the facility.</p> <p>All pharmaceuticals and related supplies are packaged in compliance with the specific requirements of the state, federal and facility requirements. Anuco dispenses all medications in packages approved by the United States Pharmacopeia-National Formulary (USP-NF) for that drug.</p> <p>Anuco will coordinate third-party claims processing in accordance with County agreements.</p>

## GEN2120540P1 – In-House Pharmacy Management Services

<b>EVALUATION CRITERIA - PROJECT SPECIFIC CRITERIA</b>	<b>Advanced Pharmaceutical Consultants, Inc. 555 NE 15th Street, Suite 200 Miami, FL 33132</b>	<b>Jules Enterprise Group, Inc. dba Anuco Rx 1560 Sawgrass Corporate Parkway Sunrise, FL 33323</b>
--	--	--

<p><b>2d.</b> Describe Vendor's proposed solution to implement an OBOT Program at BARC, including regulatory requirements, software, and equipment, as applicable.</p> <p><b>Points Value: 7 Points</b></p> <p><b>Additional Information:</b> Vendor may need to provide a presentation of the project approach, including software, proposed equipment and ADMs.</p>	<p>APC Vendor.</p> <p>An OBOT program requires pharmacy expertise and oversight that are knowledgeable with DEA, SAMHSA, and State regulations. APC has policies that address these concerns. An OBOT program does not require an NTP license. So for example, if Booher had this program, APC would set up and arrange the program. APC would conduct routine inspections and work on the behalf of the physician for any DEA survey. APC has expertise in the security of these type of programs. Depending on who provides the buprenorphine ; determines how the patient receives the dose. For example if the physician writes a prescription fo x number of days ; then the client would have it filled at a pharmacy under insurance and perhaps visit the location weekly for groups. The prescription would have to be E-prescribed., APC has some solutions for e prescribing but these must be discussed with BARC. If the physician wants to administer the medication at the OBOT, then no prescriptions other than chart orders would be required. APC could arrange for a supply of medications to be readily available under the provider license.</p>	<p>Anuco is committed to fighting the opioid overdose epidemic and supporting BARC in their continuous efforts to identify outbreaks, collect data, respond to overdoses, and provide care to those in our community.</p> <p>Anuco will provide a dedicated Consultant Pharmacist to provide prospective medication use management by working collaboratively with the facility healthcare team. The Consultant Pharmacist provides comprehensive clinical pharmacy services including chronic care management, medication cost containment plans, and regulatory compliance related to medication use management within the facility. We are proposing an integrated solutions that would mimic the other two locations (Central and Booher). In addition, we would recommend 1 NEXSYSADC Main Cabinet with controlled access modules, which stores all controlled substance, expensive medications and medications that are often deviated inside a lock, lidded, single access CAMs.</p> <p>We will ensure providers comply with all federal, state, local and pharmacy laws and regulations. We will evaluate the success and impact of this program and will actively work with the County to partner with others in the community willing to support programs that prevent drug addiction. We have collaborated with Correctional Medical Vendors on their Buprenorphine Treatment Programs (BTP), Medication-Assisted Treatment (MAT) and Opioid Treatment Program (OTP) to help the tens of thousands of people with opioid use disorders who pass through the U.S. corrections system each year. Our pharmacist-led approach has provided our partners with a holistic approach to assess and refer underlying conditions while providing Buprenorphine Treatment Programs.</p>
