C-51 RESERVOIR SITE, GREEN INFRASTRUCTURE AND RECLAIMED WATER PLANT TOUR

A wastewater treatment facility tour will allow participants to gain a perspective of how reclaimed water projects are implemented. An innovative community demonstration green infrastructure project will illustrate solutions to deal with stormwater issues. Participants will also visit the C-51 Reservoir site, which provides an example on how to deliver regional solutions to address water supply, water quality, flood protection, and climate change challenges in our region.

Broward County Board of County Commissioners
