REPORTING A FOUND PET

If you find a lost dog or cat, there are many ways you can help reunite the pet with their owner. If the pet has identification, you should:

Search our Pet Registration Database with the pet's Broward County Rabies Registration Tag. Your search result, if successful, will include the pet owners name, address, phone number and pet description.

REGISTRATION TAG NUMBER SEARCH

Enter the letter "L" (for license), followed by the last two digits of the year the license was issued (2012 would be "12") and then enter a hyphen ("-") L12- Enter the registration tag number exactly as it appears on the tag. Example: a registration tag issued in 2012 would be entered as L12-002954

While it's more difficult to reunite a lost pet with its owner when the pet has no identification, you can still report it online!
