### D. Homelessness (Transitional and Permanent Housing)

The Chair introduced Ms. Vecchi who provided an overview on transitional and permanent housing. She mentioned that the data and analysis from her presentation was included in the housing council package. She stated that according to Florida's Ten Year Plan to End Homelessness for Broward County, there are over 3,320 persons currently homeless in Broward County. Ms. Vecchi indicated a need to create the connectivity of both public and private organizations that share a vision to end homelessness. She mentioned a need to produce housing by acquiring, rehabilitating, building, and maintain programs that are already established. She stated that Florida has the 3<sup>rd</sup> highest homeless population after California and New York. Ms. Vecchi listed several draft action steps to be implemented within the next 3-5 years with the coordinated efforts of the Council. They are as follows:

- advocacy at the state and local level;
- adding 20-30 new affordable rental housing units for the 1<sup>st</sup> year and each year thereafter;
- long term sustainability (rental subsidies);
- collaboration between public/private sector for funding streams to grow;
- support and adapt the county's 10-year-plan to end homelessness;
- remove the cap on the Sadowski Affordable Housing Trust Fund;
- maintain the fiscal year funding for the homeless program;
- support the BOCC's legislative efforts;
- increase funding levels for the McKinney Vento Homeless Assistance Act; and,
- support the legislation that directs the Department of Justice to gather information regarding hate crimes toward the homeless.

Mr. Michael Wright, Broward County's Homeless Initiative Partnership Administrator, informed the Council that the U.S. Department of Housing and Urban Development (HUD) requires a Point-In-Time Homeless Count be conducted every two years. The next count, he stated, will be conducted in January 2011. He mentioned that these counts are required for communities that receive HUD Homeless

Assistance Funding for housing and homeless services. He indicated that HUD is focusing away from transitional housing (usually 24 months) to permanent supportive housing (not time-limited) for families, individuals of chronic homelessness, and veterans. He concluded by stating that HUD is allocating more resources to HUD veterans.

The Chair mentioned that a summit was held last Friday, October 15 which was sponsored by the Transitional of Independent Living (TIL). She stated that the TIL and the Road to Independence is youth “aging out” of foster care. She indicated that youths in foster care are forced to leave foster care on their 18<sup>th</sup> birthdays. A discussion was held regarding the need to be supportive of youths “aging out” of foster care. The Chair requested that Mr. Stone email the 3 PowerPoint Presentations to the Council Members. She stated that the last PowerPoint Presentation (HousingSummit) identifies the work plan of Fort Lauderdale Independence Training & Education Center’s (FLITE) to attain 500 new rental units, 100 every year for the next 5 years.

Mr. Stone mentioned that Ms. Marcia Barry-Smith of BankAtlantic visited with him regarding the County’s assistance in funding the new rental units for youths “aging out” of foster car. Mr. Stone stated that during his conversation with Ms. Barry-Smith, he mentioned the Neighborhood Stabilization Program (NSP) 3 funding. He stated that \$27 million will be allocated to the 14 entitlement communities in Broward County, and the county receives only \$5 million of the \$27 million. Mr. Stone suggested that the housing council reach out to the entitlement communities as an opportunity to collaborate and attain the goal of acquiring and building new multi-family units in Broward County with a portion of the entitle communities NSP3 funding.

The Chair requested Ms. Chin verify the data in the PowerPoint Presentation as it relates to the need to attain 100 new rental units per year for the next 5 years. She mentioned Ms. Kristen Guerrise from FLITE as a point of contact since TIL is her area of expertise.

Mayor Moseley requested that the Council recommend including in the work program transportation as it relates to assisting the homeless when providing for affordable housing.

Mr. Stone mentioned the section of the work program that emphasizes homelessness will need to be refined by identifying what can be accomplished and implemented. He stated that staff will bring those recommended changes back before the Council at the next scheduled meeting. He also indicated the need to determine what type of funding is available so the Council can set a realistic goal to achieve.
