This directory is designed as a navigable electronic flipbook that is filled with valuable information on the range of services offered by our funded partner agencies and highlights resources available to community. Our goals are to inform and provide:

- 1) Accurate and up-to-date information on the services funded by Broward County

The Community Partnerships Division is responsible for planning, coordinating, administering and evaluating a comprehensive array of human service programs for children and adults including behavioral health, child care licensing, sexual assault treatment and counseling, health care, HIV/AIDS, and homeless services.

As the social service safety net for the residents of Broward County, we work collaboratively with other human service funders; non-profit and for-profit providers; faith-based organizations; governmental entities; advocates and consumers. These partnerships ensure that community-based human services are cost effective, coordinated, performance-based and meet the needs of residents.

AHF funds its mission to rid the world of AIDS through a network of pharmacies, thrift stores, healthcare contracts and other strategic partnerships. Generating new, innovative ways of treatment, prevention and advocacy has been the hallmark of our success. We are currently leading a mass testing initiative to identify and treat the 25 million people who are unaware they are infected.

By advocating big goals—such as having 1 billion people tested each year—AHF hopes to eliminate older, more time-consuming methods. Since 1987, AHF has cared for thousands of people living with HIV and AIDS worldwide. As we create and implement new programs in communities across the U.S. and abroad, we expand delivery of healthcare and influence over policy with the aim of saving more lives.

Residents in search of critical social services such as emergency financial assistance, food, shelter, housing, child care, job training placement, relief from abuse, depression, summer/after school programs, healthcare or mental support often do not know where to begin. Many are confronted with a confusing array of organizations through which they must search for what they need. Looking for help means locating dozens of phone numbers and/or web sites (for those who have access), and then searching through a maze of agencies and services to make the right connection.

Established as a 501(c)(3) in 1995, 2-1-1 Broward is the only 24/7 comprehensive agency in the county that provides individuals and families with all of the critical connections to health and human service agencies and programs they need in just one call. Everyday, trained and degreed 2-1-1 counselors assist hundreds of individuals by providing support, information and referrals that will help them to access the right services. As a community-wide point of entry 2-1-1 is accessible and culturally appropriate. The general helpline is available 24/7, and hours of service for the specialty lines are convenient for all families. Services and materials are accessible to those with disabilities. In addition, services are delivered in the language most comfortable to the caller. For languages not spoken on site, 2-1-1 staff uses Language Line, an interpreter service.

Wilton Manors, FL 33305

954-764-5150

[www.sunserve.org](http://www.sunserve.org)

In Broward County, there are more gay and lesbian residents than in any other part of the nation. In this gay metropolis, there are precious few social service agencies that meet the unique needs of this community. Sunshine Social Services, Inc. (SunServe) was born in the melding of community need for quality social services, the generosity of the Sunshine Cathedral, and a team of dedicated community volunteers.

SunServe is the first LGBTQ social service agency in South Florida. In February 2002, SunServe set out to build and operate the World's first Senior Day Care Center designed to meet the needs of the Lesbian, Gay, Bisexual and Transgender community. The Noble A. McArtor Senior Day Care Center is now a home away from home to more than 30 seniors who enjoy a host of activities throughout the week, allowing their caregivers and families a much needed respite.

In the following year, SunServe, under the experienced leadership of Dr. James Lopresti, formed the Counseling Program. With a shoestring budget and a collective team of 40 community therapists, this program grew into what it is today. SunServe then branched out to provide support groups, education and training, and community outreach. These programs continue to expand and evolve to include projects aimed at training professionals, and helping the community at large.
