Group Discussion on the 2018 Consumer Symposium Report and Feedback:

Based on the report, has there been a significant change from last year's Symposium compared to this year's symposium.

How can we get the word out for those in the community that do not have access to phones and emails?

Clients need better drop in locations, that allows them to feel a sense of dignity and respect.

Day Respite is an issue that is constantly mentioned during the symposiums. Currently the Salvation Army and HOPE South Florida are working on implementing a Day Respite for the person's experiencing homelessness.

Suggestion: Is it possible that to create a Care Team, with different providers that will

help clients navigate through the system.
What is it that the committee wants to know?

How to formalize the questions, based on the need for new goals?

How can we set up a system where there is warm hand off with case managers?

Strengthen the process of warm hand offs with clients, case managers, and providers ensuring that clients are getting the best care and assistance navigating through the system.
