Section 2: As a condition of continued employment with the Employer, any physical examination above provided for must reveal the physical or mental fitness of the employee involved to perform the duties for which he was employed.

Section 3: Should any required physical examination above provided for reveal the physical or mental unfitness of the employee involved to perform the duties for which s/he was employed, s/he may at his/her option have a review of the case in the following manner:

- A.** S/he may employ a licensed physician of their own choosing and at their own expense for the purpose of conducting a further physical examination for the same or recommended purpose of the physical examination made by the physician employed by the Employer. A copy of the findings of the physician so chosen by the employee involved shall be furnished to the Employer, and in the event such findings verify the findings of the physician employed by the Employer, no further medical review of the case shall be afforded.
- B.** In the event the findings of the physician chosen by the employee involved shall disagree with the findings of the physician employed by the Employer, the Employer and the employee involved shall, within five (5)

days from such disagreement agree upon and select a third (3rd) qualified, licensed and disinterested physician for the purpose of making a further physical examination of the employee involved. If the third (3rd) physician agrees to make a further physical examination of the employee involved, the employee must secure an appointment with the third (3rd) physician within five (5) days of such acceptance. The third (3rd) physician shall have five (5) days from the date of his/her physical examination of the employee involved within which to submit his/her findings to the two (2) physicians previously selected by the Employer and the employee. The findings of the majority of the three (3) examining physicians shall determine the disposition of the case and be final and binding upon the parties hereto. The expense of the employment of such third (3rd) physician shall be borne equally by the Employer and the employee.

- C.** In the event the findings of the third (3rd) physician agree with the findings of the physician employed by the employee, the employee shall be paid for the days s/he was taken out of service but in no event for more than fifteen (15) days from the date the employee's physician made his/her findings known to the Employer's physician.

Section 4: Should any physical examination provided for above reveal the physical or mental unfitness caused by disease, defects or disabilities of a temporary or curable nature, and the employee involved is willing to have the cause or causes of such unfitness treated and rectified, then, in such an event, depending upon the particular circumstances of each case:

- A.** The employee involved may continue working while undergoing medical treatment, if the examining physician, or a majority of the three (3) examining physicians, as herein above provided, shall certify to his/her ability to safely do so, or
- B.** The employee involved shall be taken out of service and given a leave of absence for the purpose of undergoing medical treatment until such time as the examining physician, or the majority of the three (3) examining physicians, as herein above provided, shall certify to his/her physical and mental fitness to perform again the duties for which s/he was employed; provided, however, such leave of absence shall not extend for a period of more than eighteen (18) months, and the seniority of the employee involved shall be unaffected thereby. Such a leave of absence shall further be subject to the provisions of the Article relating to leave of absence and any employee on leave of absence because of physical or mental unfitness and unable to perform his/her duties may be required to supply the Employer with a physician's report covering his/her condition at such interval, or intervals which the Employer may require. The limitation of leave provided in this Section may be extended only by mutual agreement between the Employer and the Union.

Section 5: Physicians employed by the other party, as required in this Article, shall be members of the American Medical Association or American College of Surgeons, except as permitted by mutual agreement between the parties.

Section 6: Employees will not be required to go for a physical examination on their day or days off.

Section 7: Any employee who is found temporarily incapable of fulfilling the duties for which they were hired or found permanently incapable of returning to the duties for which they were hired may be given preference in a job they are capable of doing over the hiring of new employees or train for a new position where possible, in the highest prevailing rate within the job classification where they are placed.

Section 8: Specified employees will be required to submit to a physical to be given by a physician of the County's choice, subject to the requirements of State Rule Chapter S-14.90 Equipment and Operational Safety Standards Public Sector Bus Transit Systems. If such a physical is scheduled on the employee's day off, the employee shall be paid for the actual time necessary to undergo the physical at the employee's straight time hourly rate with a minimum guarantee of three (3) hours pay.

Section 9: Any Operator that is found temporarily incapable of fulfilling his or her duties as revealed by a biennial physical or a follow-up biennial physical shall be entitled to work light duty for a period not to exceed ninety (90) calendar days in a rolling 365 day period. For purposes of this Article, once an Operator is diagnosed by the County physician(s) to have an illness, then any subsequent diagnosis by the County physician(s) for that illness shall be considered as a follow-up to a biennial physical.

Any Operator that is found temporarily incapable of fulfilling his or her duties not revealed by a biennial physical or a follow-up to a biennial physical shall be entitled to work light duty for a period not to exceed ninety (90) calendar days in a rolling 730 day period.

An Operator is eligible to utilize light duty only after exhausting a waiting period of 40 hours per occurrence of light duty. The Operator shall utilize any accrued sick leave, or unscheduled, incremental annual leave during the waiting period. After exhausting

accrued sick leave or incremental annual leave, the Operator may also choose to utilize annual leave during the waiting period. In the event that the Operator does not have accrued sick leave or incremental annual leave, and chooses not to use accrued annual leave, the remaining portion of the waiting period will be unpaid. These Light Duty Guidelines do not apply if an Operator is held out of service by management.

- A.** Light Duty Guidelines - The light duty lists below will be a guideline to utilize Workers Compensation employees first, then "personal" injury employees.
- B.** The time allowed for light duty will be limited to the medical recommendation, as agreed to by the County and will not be considered a permanent change in assignment.

The seniority of all employees covered by this Agreement shall be determined by the length of their continuous service in the Operating Department or in the Maintenance Department, as the case may be. Employees may not hold seniority in more than one (1) department of the Employer.

Section 3: The Employer agrees to post within thirty (30) days, and thereafter to keep posted in an accessible place, an up-to-date and revised seniority roster showing the name, "date of employment," and seniority standing of all of the employees coming within the scope of this Agreement.

Section 3: To be eligible for any of the vacation as provided herein, an employee must have completed not less than twelve (12) months of continuous service with the Employer subsequent to his/her last date of employment. Thereafter, such employee shall have established his/her first (1st) full year of service with the Employer and will be

entitled to receive a vacation in accordance with the eligibility provisions as herein established.

Section 4: In this Section, it is intended and agreed between the parties to establish January 1 of the year next succeeding their last date of employment as the eligibility rate for annual vacation purposes of employees employed on and after January 1, 1971; therefore, in accordance with this Agreement the following shall apply:

Any employee on the payroll of the Employer whose last date of employment occurred on and after January 1 of the year shall, upon completion of no less than twelve (12) months of continuous and active service with the Employer, subject to the eligibility provisions of this Article, be entitled to a prorated vacation allowance and vacation pay from his/her last date of employment to the end of the calendar year in which s/he was employed, and thereafter shall be deemed to have correctly established his/her eligibility date for all vacation purposes as of January 1 of the year next following his/her last date of employment and thereafter, in accordance with the eligibility requirements established in the Article shall, during the twelve (12) months of the calendar year immediately following January, of each year, be entitled to the vacation allowance and vacation pay as established in the "Schedule of Vacations" of this Article.

Other than as provided in this Section, the vacation eligibility of the employees shall be posted on the bulletin board and employees shall bid for vacations within the periods prescribed according to their general seniority within each work site. Employees shall bid in the order of seniority, and if they fail to bid in the order of seniority, and if they fail to bid promptly or to authorize some person to act in their behalf, the Employer shall assign their vacation or permit other employees to sign around them and the employees shall be allowed to choose any open remaining period available to them in accordance with their seniority within each work site.

the employee is not granted previously picked vacation time, management may consider granting vacation time as Leave Without Pay.

Effective for FY 2008, employees that earn three (3) or more weeks of vacation a year shall have the option to designate an additional week (forty (40) hours) for a total of eighty (80) hours of their vacation for use in increments of one (1) day. At the same time in November that employees declare whether or not they will use sick leave conversion, they will also make known their intention to use incremental vacation for the following year. The forty (40) or eighty (80) hours of vacation time designated for incremental use shall be considered floating vacation days.

No day will be scheduled as an incremental vacation day when the incremental leave balance is three and one half (3.5) hours or less. This time will be cashed out.

Unscheduled incremental vacation, personal holidays, or bonus days will be used when the employee calls in for an emergency unscheduled day off. Request and approval for floating vacation days must be made to the Superintendent by September 30th. Floating days for which scheduling has not been requested and approved by September 30th shall be paid in December for up to a maximum of sixteen (16) hours for those converting one week and forty (40) hours for those converting two (2) weeks at the regular straight time hourly rate. ***NOTE:** Unless otherwise changed as subject to provisions of Section 3 of this Article.

Section 8: Requests and approval for personal days must be made to the Superintendent no later than September 30. Personal days for which scheduling has not been requested and approved by September 30, shall be paid out at the employee's regular straight time hourly rate.

ARTICLE 19
FUTURE OPERATIONS

In the event the Division of Mass Transit, Broward County, Florida, throughout the term of this contract should implement operations out of another work base station, the following conditions will apply:

There shall be placed on said bulletin board any change made in its management by the Employer which may be of interest to the Union, and the Union shall post on the bulletin board any changes in the officers of the Union or in the members of the executive board. All notices shall be initialed or signed by the President or his/her designee.

ARTICLE 21

ACCIDENTS

Section 1: Any employee involved in any accidents will make an immediate report to supervisory personnel in case of a serious accident or any personal injury. In any event, a written report must be made fully, properly, and completely covering the occurrence and delivered by the employee so involved as soon as possible following such involvement.

Said reports are to be made to the Supervisor or his/her designee at each work location. If an employee is compelled by the County to submit an accident report on his/her day off, the County shall pay the employee three (3) hours of pay at the employee's straight hourly rate. Any time frames for the County to issue discipline do not begin until the employee submits his/her completed accident report to the Supervisor or his/her designee.

Section 2: The Employer and the Union recognize that accident prevention work is necessarily incident to the interest of the Employer and the employees and that safety programs, safety meetings and general accident work is beneficial to both the Employer and the employees. Therefore, the Union agrees that it will encourage employees to voluntarily attend all safety meetings and cooperate in all ways in safety work and take an active part and interest in all accident preventive work.

Section 3: Every effort will be made to maintain speedometers on coaches. If the speedometer is inoperative or is not working, the Employer shall pay speeding citations issued to drivers.

the prior accident.

ARTICLE 22

RUNS AND DAYS OFF

Section 1: The amount of service to be furnished to the public and the determination of the number of bus schedules and changes therein shall be exclusively and solely a function and responsibility of the Employer; however, in the construction of its regular service into regular run assignments, it is the policy of the Employer, to the extent it is reasonably practical, to construct its regular service into regular run assignments, provided, however, nothing contained herein shall be reconstructed as to require the Employer to construct any of its regular service into regular run assignments, as to include penalty payments of any nature. ARTICLE 24

SELECTION AND ASSIGNMENT OF RUNS

Section 1: There will be a general selection and assignment of regular runs once every four (4) months and at such other times as the Employer may deem it necessary. During the pick for January, Operators who pick a run, simultaneously select their job location for the following twelve (12) months. All regular runs, including any new schedules or changes in schedule, shall be posted at the time of the general selection and assignment of regular runs as set forth above. Any regular runs not picked shall be assigned to the Extra Board junior Operators in accordance with their seniority. All Operators not selecting a run or assigned in accordance with their seniority shall be placed on the Extra Board. If no Extra Board slots are available then the Superintendent or adjutant, along with the Union official working the pick, will make the determination as to what run the Operator will be assigned, and that choice will be the Operator's assignment for the duration of the pick.

Section 2: In the selection and assignments of runs, the number of full-time regular runs/run assignments created by the County shall not exceed the number of full-time Operators. By way of illustration, if there are seven hundred (700) full-time Operators, the number of full time regular runs/run assignments created by the County in the selection and assignment of runs shall not exceed seven hundred (700) regular runs/run assignments.

Section 3: Whenever a selection and assignment of regular runs has been determined in accordance with the provisions of Section 1 of this Article, all regularly assigned runs

together with a seniority list of Operators shall be posted on the bulletin board for the selection of runs and days off of such runs as may be determined by the Employer and posted on the bulletin board for selection of runs and days off in accordance with seniority. Except in an emergency, the regular runs will be posted on the bulletin board from Thursday through Sunday on the fourth week before the effective date thereof so that the Operators may familiarize themselves with the changes in runs. The selection of runs will take place from Monday through Friday of the two (2) succeeding weeks, and the assignments will be posted for one week before the new schedule goes into effect. The period between posting and effective date will be twenty-five (25) days.

- A.** Should it become necessary to have a run assignment selection where changes of runs has effect at only one facility, then only that facility will pick. The posting of the pick and the changes will be posted a minimum of four (4) days before the first day of the selection process. The effective date of the new run assignment would be the second Sunday at the conclusion of the selection process. The single facility selection shall in no way alter the provisions of Section 1 of this Article.

Section 4: The Scheduling Superintendent or the appointed adjutant shall have full charge of the selection of runs with regard to runs, routes and picking order. A designated Union official shall be responsible for conducting and posting the run pick and management will provide assistance as needed.

Section 5: If a pick of runs is posted while an Operator is on leave or vacation and the Operator was properly notified of the date of the pick, and given an opportunity to leave a written choice of runs, and failed to do so, then the provisions of Section 1 of this

Article shall apply. Proper notification of a pick date shall be a letter posted on the bulletin board, and the date on the letter shall be the date of proper notification. If an Operator on leave or vacation was not properly notified and s/he had no opportunity to leave a choice of runs, such Operator may be assigned the same run as s/he presently has if it is still open, or a run as close as possible to his or her present work schedule and days off. Upon returning to work the Operator, if dissatisfied at the choice made may, at his or her option be placed on the Extra Board, or may displace an Operator with lesser seniority. Any vacancy thus created will be placed for bid.

Section 6: There shall be a bump down pick if runs are altered which result in a change of pay time of more than ten (10) minutes per day, a change in route, or a change in days off, except if such occurs less than thirty (30) days prior to a general pick. In the event that the Employer considers any changes in routing or scheduling, the Union will be notified.

Section 7: After the runs have been selected and assigned in accordance with the provisions of this Article, exchange of runs shall not be permitted except with the approval of the Employer and with the participation of a union representative. When, in the judgment of the Employer, an operator is not capable of operating the run selected by him or her, the County may reassign him or her to a run s/he may be able to operate. In such an event, however, the Employer will discuss the matter with the representative of the Union.

Section 8: When a general selection and assignment of regular runs is to be held, the Union will be provided a copy of all runs and days off as of the date the assignment is posted. Any complaint or discussion of the runs by the Union must be made within

seven (7) days thereafter.

Section 9: Any Operator holding a regular run who reports as scheduled in proper attire and in fit physical condition to work, but whose run has been canceled or assigned in error shall be paid in full. If required to work thereafter, the Operator shall be paid time and one-half for that work performed on the same day. The Operator will be given his/her run. In the event the bus has not left the garage, the Operator will be placed on the bus prior to leaving. The extra Operator or regular Operator on his/her day off who was assigned the regular employee's run will be guaranteed pay equal to that which s/he would have earned had s/he worked the assigned run. However, the extra or regular Operator on his/her day off may be required to stand by for other work that may become available.

Section 10: At each general selection and assignment of runs, vehicle numbers (except p.m. pullouts from the garage), will be identified for each run and will remain with the run unless unforeseen circumstances or vehicle maintenance requires a change.

Section 11: A Union designated official may sit in on all make-up of runs at no cost to the Employer.

Section 12: Management reserves the right to schedule all or any part of a route out of either work site i.e. Copans Road or Ravenswood Road.

ARTICLE 25

Operators making a road relief at their regular scheduled hours of their platform assignment shall receive a preparatory time allowance of ten (10) minutes. Operators who make a second road relief during the day shall not be entitled to any additional preparatory time for that relief. The preparatory time as provided herein is for duties required to perform their scheduled work assignment.

Section 2: All employees shall be guaranteed thirty (30) minutes at the employee's applicable rate of pay for fully, properly, and correctly making out accident or unusual occurrence reports. Employees will give a full report to the Supervisor of Accident Reporting and will be assisted as needed in making such report.

Section 3: In the event an employee is required to attend court as a witness on behalf of the Employer, the employee so required to attend court shall be paid at his/her regular straight hourly rate of pay for his/her assigned day's work, provided he presents himself for work if excused from court prior to 2:00 p.m.

If an employee is required to attend court as a witness on behalf of the Employer on his/her day off, he will be guaranteed a minimum of two (2) hours or actual time spent at the employee's regular hourly rate of pay.

Section 4: All regular operators shall receive seventy-five (75) cents per hour in addition to their regular straight time hourly rate of pay when required by the Employer to break in and instruct a student operator.

Section 5: Neither the time allowance nor the pay provisions contained in the above Sections, excluding report time, shall be used in computing overtime, and at no time and under no circumstances shall employees be paid at the overtime rate of pay.

Section 6: Effective for the Fall pick of 1997 and thereafter, all work days will start and stop at the garage. Relief points will be determined by the County. Transportation and/or vehicles will be provided by the County. Travel time and report time will be used in the construction of runs and in time accumulated for the purpose of calculating overtime. Until the Fall 97 pick travel time will be paid for all reliefs away from the garage, using the following table:

Operators traveling to and from the garages will be paid travel time according to the above schedule. Operators traveling between relief points will be paid travel time equal

to the scheduled bus travel time between the two relief points. Any operator having to travel more than once during his/her work shift will be paid travel time for each relief according to the above schedule.

Section 7: Any relief points created during the course of this Agreement will have their travel times negotiated at that time.

Section 8:

- A.** One crew vehicle will be available for operators from each worksite for the purpose of transporting operators, relieving and being relieved, away from the terminal from the defined relief point set forth in Section 6 above.
- B.** The crew vehicles will be operated by "Crew Vehicle Operators" as scheduled by management. If a Crew Vehicle Operator is not available, management has the right to assign "light duty" operators to drive the van. If not assigned to a "light duty" operator, the van work will fall to the Extra Board either as hold down or daily assignment. Crew vehicle operators may sign for overtime subject to working a maximum of two times a month if there is not "light duty" operator or Extra Board operator available.

- B.** Any maintenance employees who are scheduled to work, who are advised by management not to report to work or sent home in the middle of a shift, will suffer no loss of pay. The payroll voucher shall show normal hours; however, such hours will not count toward hours worked for computing overtime.

Section 6: Employees expressing a desire for a work location during a pick will be assigned to a comparable vacancy if available between picks. A vacancy is deemed to exist when the County seeks to fill a budgeted position.

Section 7: In the event the marketing section utilizes a bus for demonstration purposes and transports non-employee passengers on public roadways, current or past operators of the month, operators of the year, or rodeo champions will operate the bus.

ARTICLE 29MAINTENANCE ASSIGNMENT OF WORK

Section 1: At such times as the Employer deems necessary, it will determine and schedule the number of maintenance employees needed in each classification on each of its work shifts, including the days off of each of its work shifts and post such information on the bulletin board. A union representative may participate in the construction of maintenance work schedules.

Section 2: With the exception of the Body Shop, Unit Repair Shop, and Farebox Shop Mechanics, all maintenance employees will choose their work shifts, primary job assignment and days off ("Pick") in accordance with their seniority within their job classification at least every six (6) months.

Job pick sheets shall be posted on the maintenance bulletin board at least 14 calendar days prior to the scheduled start of the next pick. The date and time in which the maintenance employees will pick their assignments will also be posted on the maintenance bulletin board. Any maintenance employee who will be absent at the time he/she is scheduled to pick, may leave his/her first, second and third choice selection with the Union. A maintenance employee who fails to pick on his/her designated day and time and who did not leave a selection with the Union will be passed over and the next senior maintenance employee will pick. When a maintenance employee is out on approved leave due to illness or injury or on Workers' compensation for more than thirty calendar (30) days or there is a vacancy that the County is seeking to fill, and there is agreement between management and the Union, there shall be a bump down pick within that shift (job and days off). Section 4: LOCK SHOPS

- A.** Creation of Lock Shops – The Employer may create Mechanic job assignments for the Body Shop, Unit Repair Shop, and Farebox Shop (hereinafter the “Lock Shops”). The Employer maintains the right to determine the number of Mechanics assigned to the Lock Shops and the scheduled work hours, days off, and work locations of those assignments. Mechanics who select a Lock Shop shall be compelled to remain in the Lock Shop (locked in) for two years. There

shall be no restrictions on assignment locations for Farebox Mechanics. Farebox Mechanics may be assigned to any garage.

- B.** Seniority in Lock Shops – Mechanics assigned to the Lock Shops shall pick work shifts, days off and work locations annually by seniority. - C.** Leaving the Lock Shop - A Mechanic in a Lock Shop who has completed his/her two year commitment and who desires to leave the Lock Shop shall notify the Employer, in writing, of his/her intent to leave the Lock Shop.

If the Mechanic notifies the Employer in writing of his/her desire to leave the Lock Shop less than ninety (90) days prior to the next scheduled “Pick”, the Mechanic will remain in the Lock Shop through the next “Pick” and will not be able to exercise his/her seniority to select his/her work shift, primary job assignment and days off until the subsequent “Pick.”

Notwithstanding the above, a Lock Shop Mechanic who has completed his/her two (2) year commitment and who has provided timely notice of his/her intent to leave the Lock Shop may leave a Lock Shop to fill a vacancy any time between “Picks.” In the event the Mechanic fills a vacancy, he/she assumes the

job vacancy's work shift, primary job assignment, and days off.

- D. Vacancies in Lock Shops** - If there is a vacancy in a Lock Shop, and the County is seeking to fill that vacancy, the County shall post a notice of the vacancy on each maintenance bulletin board at each maintenance location for at least 14 days. Any Mechanic who desires to fill that vacancy shall submit a request, in writing, to the Transit Manager of maintenance on or before the closing date of the posted vacancy. Mechanics shall be provided first opportunity to fill the vacancy. The determination as to whether the Mechanic is qualified to fill the vacancy shall be based upon his/her County seniority and his/her qualifications to perform the job. In the event that a Mechanic, based upon his/her seniority and qualifications to perform the job, is deemed not qualified to fill the vacancy, or there are no other Mechanic candidates, the County may seek to fill the vacancy from candidates who are not Mechanics in the bargaining unit.

- B.** All safety-sensitive employees shall be subject to testing prior to employment, for reasonable suspicions, and following an accident, consistent with applicable federal regulations. In addition, all safety-sensitive employees will be tested prior to returning to duty after failing a drug test, during and/or after completion of rehabilitation treatment. Those employees who perform safety-sensitive functions as defined in Section 3 of this policy shall also be subject to testing on a random, unannounced basis.
- C.** Regarding drug testing, an initial drug screen will be conducted on each specimen. For those specimens that are not negative, a confirmatory Gas Chromatography/Mass Spectrometry (GC/MS) test will be performed. The test will be considered positive if the amounts present are above the minimum thresholds established in 49 CFR Part 40, as amended.
- D.** Tests for alcohol concentration will be conducted utilizing a National Highway

(EBT) operated by a trained breath alcohol technician (BAT). If the initial test indicates an alcohol concentration of 0.02 or greater, a second test will be performed to confirm the results of the initial test. A safety-sensitive employee who has a confirmed alcohol concentration of greater than 0.02 but less than 0.04 will result in removal from his or her position for the remainder of the employee's scheduled shift. An alcohol concentration of 0.04 or greater will be considered a positive alcohol test and in violation of this policy.

- E.** Any safety-sensitive employee that has a confirmed positive drug or alcohol test will be removed from his/her position, informed of educational and rehabilitation programs available, and evaluated by a Substance Abuse Professional (SAP).
- F.** Upon successful completion of compulsory or voluntary rehabilitation (as determined by the County physician and SAP) the employee shall be returned to his/her regular duty assignment or the equivalent thereof. If continued treatment is prescribed after return to duty, such may be imposed by the County as a condition of continued employment consistent with a return to work agreement. Such prescribed treatment may include unannounced follow-up testing which shall be conducted in accordance with the federal regulations. Should an employee refuse to submit to drug or alcohol testing in accordance with this Article and the County's policy, to submit to and successfully complete a treatment and rehabilitation program prescribed by the SAP and County Physician, to comply with the requirements of any prescribed treatment, or should the employee test positive for drugs or alcohol during the rehabilitation and prescribed treatment period, the employee shall be immediately dismissed.

Section 7. Types of Testing:

- A. Pre-Employment Testing:** All safety-sensitive position applicants shall undergo urine drug testing and breath alcohol testing (alcohol testing suspended by FTA May 10, 1995) prior to employment. Receipt by BCT of negative test results is required prior to employment. Employees may also be required to undergo pre-employment testing following a leave of absence, seasonal layoff, out or reassigned for workers= compensation, temporary assignment to nonsafety-sensitive duties (including light duty), or combination thereof, for a period of thirty (30) consecutive days or longer.
- B. Reasonable Suspicion Testing:** The County may require any employee to submit to a breath and/or urine analysis when it has a reasonable suspicion that an employee is impaired in the performance of his/her duties because he is under the influence of alcohol, drugs or narcotics. To permit testing, the County must have reasonable suspicion based upon the observations of one (1) supervisor establishing reasonable suspicion to believe that an employee is under the influence of illegal drugs or alcohol.
- C. Post-Accident Testing:** All safety-sensitive employees will be required to undergo urine and breath testing if they are involved in an accident with a BCT vehicle (regardless of whether or not the vehicle is in revenue service) that results in a fatality. This includes all safety-sensitive employees that are on-duty in the vehicles and any other whose performance could have contributed to the accident.

1. In addition, a post-accident test will be conducted if an accident results in injuries requiring transportation to a medical treatment facility; or one or more

vehicles incurs disabling damage that requires towing from the site; unless the employer determines, using the best information available at the time of the decision, that the covered employee's performance can be completely discounted as a contributing factor to the accident.

2. Following an accident, the safety-sensitive employee will be tested immediately, but not to exceed eight hours for alcohol testing and 32 hours for drug testing. Any safety-sensitive employee involved in an accident must refrain from alcohol use for eight hours following the accident or until he/she undergoes a post-accident alcohol test. Any safety-sensitive employee who leaves the scene of the accident without justifiable explanation prior to submission to drug and alcohol testing will be considered to have refused the test and their employment terminated. Employees tested under this provision will include not only the operations personnel, but any other covered employees whose performance could have contributed to the accident.

- D. Random Testing:** Employees in safety-sensitive positions will be subjected to random, unannounced testing. At least 50 percent of the total number of safety-sensitive employees subject to drug testing and at least ten 10_percent subject to alcohol testing must be tested each year. These percentages are subject to change as prescribed in the federal regulations as amended.
- E. Return-to-Duty Testing:** All safety-sensitive employees who previously tested positive on a drug or alcohol test must test negative and be evaluated and released to duty by the Substance Abuse Professional before returning to work.
- F. Follow-up Testing:** Safety-sensitive employees will be required to undergo random urine and breath testing consistent with their return to work agreement.
- G. Employee Requested Testing:** Any safety-sensitive employee who questions the results of a required drug test under paragraphs 6.1 through 6.5 of this policy may request that an additional test be conducted. This test must be conducted at a different testing DHHS-certified laboratory. The test must be conducted on the split sample that was provided at the same time as the original sample. All costs

is negative. The method of collecting, storing, and testing the split sample will be consistent with the procedures set forth in 49 CFR Part 40, as amended. The employee's request for a split sample test must be made to the MRO within 72 hours of notice of the initial test result. Requests after 72 hours will only be accepted if the delay was due to documentable facts that were beyond the control of the employee.

Section 8. EMPLOYEE ASSESSMENT:

- A.** Any safety-sensitive employee who tests positive for the presence of illegal drugs or alcohol above the minimum thresholds set forth in 49 CFR Part 40, as amended, will be evaluated by a Substance Abuse Professional (SAP). A SAP is a licensed physician, or a licensed or certified psychologist, social worker, employee assistance professional, or addiction counselor with knowledge of and clinical experience in the diagnosis and treatment of controlled substance or alcohol-related disorders. The SAP will evaluate each employee to determine what assistance, if any, the employee needs in resolving problems associated with prohibited substance abuse or misuse.
- B.** An employee who test positive for the presence of alcohol, and is referred to a SAP for assessment, shall have the option to take advantage of the following applicable review process:
1. If the County contracts with an outside provider for SAP services, the following process will apply:

After a SAP has recommended treatment and the employee has met with a treatment provider to prepare a treatment plan, the employee may request that his/her case be reviewed by a County Employee Assistance Program SAP if the employee disagrees with the treatment recommendation.

2. If the County **does not** contract with an outside provider for SAP services, the following process will apply:

After a County Employee Assistance Program SAP has recommended treatment and the employee has met with a treatment provider to prepare a treatment plan, the employee may request that his/her case be reviewed by a qualified third party SAP if the employee disagrees with the treatment recommendation. The County and the Union will mutually select the third party SAP.

- C. If a safety-sensitive employee is allowed to return-to-duty, he/she must properly follow the rehabilitation program prescribed by the SAP, the employee must pass return-to-duty drug and alcohol tests, and be subject to unannounced follow-up tests for a period of up to five years from date of return to duty. Should the employee be unavailable for follow-up testing due to approved leave of absence, seasonal layoff, out or reassigned for workers' compensation, any temporary assignment to nonsafety-sensitive duties (including light duty) or combination thereof, for a period of thirty (30) consecutive days or longer, the employee shall be re-evaluated by the SAP to determine whether the requirement for and term of treatment and/or the Return to Work Agreement shall be extended accordingly. The cost of any treatment or rehabilitation services will be paid directly by the employee or their insurance provider.

Section 9. SYSTEM CONTACT: Any questions regarding this policy or any other aspect of the drug-free and alcohol-free transit program individuals should contact the following transit system representative:

**Drug and Alcohol Testing Program Manager
Broward County Transit (305) 357-8304**

Section 10. VOLUNTARY ADMITTANCE: All employees are encouraged to make use of the available resources for treatment for alcohol and substance abuse problems. An employee may be allowed to voluntarily enter a County approved chemical dependency program, assuming that the employee has had no history of substance influence or use and that no disciplinary action is pending (and further that the employee has done nothing for which he could be subject to disciplinary action) at the time of such request.

Section 11. GENERAL PROVISIONS:

- A.** The parties agree that rehabilitation rather than discipline is the primary objective. At the conclusion of the drug and/or alcohol testing, the County may take whatever action, if any, it deems appropriate. However, in the case of an employee who has not previously tested positive, and except in cases involving moderate or major property damage, personal injury of passengers or other members of the public or gross misconduct by the employee, the employee shall be permitted to enter a County approved chemical dependency program.
- B.** Testing shall be conducted in a manner to assure a high degree of accuracy and reliability and using techniques, equipment, and laboratory facilities which have been approved by the U.S. Department of Health and Human Services (DHHS). All testing will be conducted consistent with the procedures put forth in 49 CFR [Part 40, as amended.]
- C.** An employee affected by the provisions of the Article shall be granted the opportunity to contact and meet with a Union official in order to advise the Union of the desire of the County to take a urine sample and/or breath sample prior to said

sample being given by the affected employee. However, in no event will the test be delayed by more than one (1) hour.

- D.** Two (2) years after treatment is completed, the records of such treatment shall be retired to a closed medical record. The employee shall be given a fresh start with a clean administrative record and the retired records shall not be used against the employee in any proceeding. However, this fresh start provision may be used only for the first instance of compulsory treatment.
- E.** Application of all aspects of this procedure are subject to the grievance procedure.
- F.** The Union, upon request, shall have the right to observe any aspect of the drug testing program, with the exception of individual test results. The Union may inspect individual test results only if the release of such information is authorized by the employee involved, or may observe an individual during testing only if consented to by the individual. Such authorization or consent must be in writing.
- G.** Employees are entitled to all rights, benefits and protections to which they are otherwise entitled under law but which are not expressly set out herein.
- H.** This article is not intended as a complete restatement of the federal regulations or the County's policy. All regulatory requirements not specified herein shall govern the implementation of this article.
- I.** The parties agree that the Broward County Transit substance abuse policy shall be consistent with the Federal regulations adopted pursuant to the Drug Free Workplace Act of 1988, the Omnibus Transportation Employee Testing Act of 1991, and any other applicable State or Federally mandated rules or regulations.

ARTICLE 44
WORK RULES

Section 1: The County's operations work rules revised October 1999, and maintenance work rules revised October 1996 ("work rules") are incorporated by reference herein, and shall in all respects be part of the Agreement. Any application or interpretation of these rules shall be subject to the grievance procedure.

Section 2: Should the County desire to add to, delete, and/or amend a current work rule or to issue a new work rule, such work rule shall be presented, in writing, to the Union at least thirty (30) days prior to proposed implementation of the new work rule.

Section 3: Nothing in this provision shall constitute a waiver of the Union's right, under the Public Employees Relation Act, if any, to bargain over the impact of any proposed work rule.

ARTICLE 45

RUN/SHIFT EXCHANGE

Section 1: Effective January 1, 1992, members of the bargaining unit, except probationary employees in training, shall have the right to request a run/shift exchange by means of a form provided by the County, which both parties to the exchange must complete and sign. The completed form must be presented to the Superintendent or designee for approval. Requests for exchanges must be made seventy-two (72) hours in advance. In the case of a documentable emergency, approval may be granted with less than seventy-two (72) hours' notice at the discretion of the Superintendent.

Section 2: The maximum number of exchanges allowable for any bargaining unit member shall not exceed five (5) exchanges per calendar year for an employee initiating the request. Run/shift exchange cannot be used in conjunction with a scheduled vacation.

Section 3: Any employee on duty by virtue of a run/shift exchange shall be entitled to the same benefits, privileges, and protections and shall assume the same responsibilities as on-duty personnel. Repayment of a run/shift exchange is the responsibility of the employee.

Section 4: A replacement who leaves work early because of illness shall have the sick leave deducted from his/her bank and not from the bank accrued by the employee originally assigned to the run/shift. Otherwise, payroll computations will not be affected by run/shift exchanges.

Section 5: A run/shift exchange constitutes an even exchange and neither party becomes eligible for overtime pay because of the exchange. Each employee will be credited as if they had worked their normal schedule.

Section 6: An employee who abuses the procedures described in this Article shall be subject to the loss of the right to run/shift exchange for the period of one (1) year. Any member of the bargaining unit who agrees to run/shift exchange, but reports sick for the agreed exchange must provide doctor's lines to verify the illness. All sick reporting or booking off a run must be done in accordance with existing policies. An employee who fails to provide doctor's lines or otherwise fails to report to work the agreed run/shift, shall be subject to disciplinary action. Members of the bargaining unit are encouraged to police the practice themselves with the operational needs of the County, as well as the practical needs of their bargaining unit members in mind.

ARTICLE 46

PART-TIME BUS OPERATORS

All terms and conditions of the labor agreement, including work rules, shall apply to part-time Operators except as otherwise specifically provided in this Article:

Section 1: The County may hire part-time Bus Operators separate and apart from hiring full-time Bus Operators. The total number of part-time Operators shall not exceed 10% (ten percent) of the total number of budgeted full-time Bus Operators positions for fiscal year 2006/2007; 12.5% (twelve and a half percent) for fiscal year 2007/2008; and 15% (fifteen percent) for fiscal year 2008/2009 and thereafter. In determining the number of part-time Operators permitted in a succeeding year, the County on September 30th of each year must, not only have budgeted full-time Operators, but also have actually filled 90% of those budgeted full-time Operator positions for each fiscal year (FY 2006/2007, FY 2007/2008, FY 2008/2009). If on September 30th, the County has not actually filled 90% of the budgeted full-time Operator positions then the County is not permitted to increase the percentage of part-time Operators as provided herein until it has actually filled 90% of the budgeted full-time Operator positions. By way of illustration regarding the number of part-time Operators, if the County increases its number of budgeted full-time Operator positions in a succeeding fiscal year, the number of actual part-time Operators employed cannot exceed the prior year's part-time percentage cap unless the percentage of full-time positions actually filled is at or above ninety (90%) percent of budgeted full-time positions on September 30th or until ninety (90%) are filled thereafter.

For example, if 700 full-time Operator positions are budgeted, the County at the 10% threshold is permitted to have 70 part-time Operators. On September 30th, when the number of full-time Operator positions actually filled is reviewed against the budgeted number of positions, if the number of filled full-time Operator positions is less than 630, then the County cannot hire more than 70 part-time Operators until such time as it has more than 630 filled full-time Operator positions after September 30th. Notwithstanding, the County may still hire part-time Operators up to the previous cap of 70. Also, by way of example, even if the County increases its number of budgeted full-time positions for the subsequent fiscal year, it may not increase the number of part-time Operators for the subsequent fiscal year until such time as the County actually fills more than 630 full-time Operator positions.

If the percentage of filled full-time positions is below ninety (90%) percent of budgeted full-time positions, then part-time Bus Operators will be given the first opportunity to change their status to full-time Bus Operator. If they refuse the full-time Bus Operator position, they remain at their current status and the opportunity for full-time status will then be passed to the next part-time Operator on the part-time seniority list until the list is exhausted.

In addition to the above, on September 30, 2009, and every two years thereafter on September 30th, and after the part-time Bus Operators have had the opportunity to change their status to full-time, if the percentage of filled full-time positions is less than ninety (90%) percent of the budgeted full-time positions, then no new part-time Bus Operators may be hired until such time as the percentage of full-time positions actually filled is at or above ninety (90%) percent of budgeted full-time positions. For example, if

700 full-time Bus Operators are budgeted, the County at the 15% threshold is permitted to have 105 part-time Bus Operators. On September 30th, when the number of full-time Bus Operator positions actually filled is reviewed against the budgeted number of positions, if the number of filled full-time Bus Operator positions is less than 630, then the County cannot hire any part-time Bus Operators until such time as they have more than 630 filled full-time Bus Operator positions after September 30th. Also, by way of example, even if the County increases its number of budgeted full-time positions for the subsequent fiscal year, it may not hire any part-time Bus Operators for the subsequent fiscal year until such time as the County actually fills more than 630 full-time Bus Operator positions.

No full-time Bus Operator will be laid off as a result of hiring part-time Bus Operators. Notwithstanding the provisions of Article 8 (Reduction in Personnel - Reemployment), in the event of a layoff, part-time Operators shall be laid off prior to any full-time Operator being displaced.

Section 2: Part-time Operators may be used solely in the following manner:

- a. Part-time Operators may be used for scheduled park and rides, express routes and on the Regular Extra Board.
- b. Part-time Operators may also be used for scheduled Peak Service that occurs between 5AM-11AM and 2PM-8PM, subject to the restriction of there being a minimum of three and one half (3.5) hours between the end of a Peak Service AM part-time run and the beginning of a Peak Service PM part-time run for the same route. The County may extend either end of the AM or PM Peak Service up to 15 minutes provided that the service does not extend beyond six (6)

hours for either the AM or PM. The Union President and the Transportation Director can mutually agree to adjust the Peak Service times.

- c. With the exception of part-time Operators assigned to the Regular Extra Board and express routes, all part-time Operators shall work no more than five (5) hours each day in the AM and/or five and one half (5.5) hours each day in the PM. Additionally, there shall be a minimum of three and one half (3.5 hours) between the end of an AM part-time run and the beginning of a PM part-time for the same route.
- d. Part-time Operators shall work no more than a weekly total of twenty nine and one half (29.5) hours with no weekly minimum guarantee. All of the hours set forth herein shall include scheduled travel time, but exclude any extraordinary and/or unforeseen circumstances (for example, breakdowns, accidents, traffic).
- e. Part-time Extra Board Operators shall be guaranteed a minimum of two (2) hours pay for a scheduled report unless assigned work is given prior to the two (2) hours, in which case the Operator will be paid for actual standby time prior to assignments.
- f. Part-time Operators shall not work their Regular Days off.
- g. No use of part-time Operators, other than as specifically set forth in this Section, is permitted.

Section 3: In the event that at the time of the pick there are not enough part-time Operators to select the number of part-time runs/rostered positions, then full-time Operators shall have the opportunity to pick/fill any part-time rostered positions not selected. Thereafter, once any part-time Operator is hired then the full-time Operator

will relinquish the part-time run/rostered position in reverse order of seniority.

Section 4: Leave of Absences shall not exceed ninety (90) calendar days for part-time Operators. Granting of such leave will be at the discretion of management.

Section 5: The part-time seniority list will remain separate from that of the full-time Bus Operators list.

Section 6: For the purposes of Sick and Annual Leave part-time Operators will accrue leave on a half-time (i.e., 4 hours for every 8 hours earned).

Section 7: Part-time Bus Operators may apply for full-time Bus Operator vacancies. Part-time Bus Operators who have completed their initial six-month probationary period who accept a full-time Operator position shall serve a probationary period of sixty-nine (69) working days and in the event that Operator's probation is rejected, the Operator shall have a right to retreat to a part-time Operator position. Part-time Bus Operators who have not completed their initial six-month probationary period who accept a full-time Operator position shall serve a full-time probationary period six (6) months beginning on date of full-time employment and shall have no right to retreat to a part-time position.

Section 8: Full-time Operators that have successfully completed a probationary period, shall have the option to fill part-time vacancies prior to the hiring of new part-time Operators. The full-time Operator must notify management, in writing, of his/her request to change his/her status to part-time. The change from full-time to part-time will become effective on the first day of a new pick, providing the employee has given management a written thirty (30) day notice. Full-time Operators changing to part-time employment will be placed at the bottom of the part-time seniority list. Full-time

Operators that have completed probation will not be required to serve a probationary period as a part-time Operator. Once during an employee's time with the County, if a converted part-time Operator wishes to revert back to full-time s/he could do so and return to full-time status with prior seniority if this change is made within seventy (70) working days from the date of the conversion to part-time.

Section 9: Part-time Operators shall be paid four (4) hours at their regular rate of pay for each Holiday.

Section 10: Part-time runs will be assigned via a pick based on part-time seniority regardless of facility. Part-time Operator picks will coincide with full-time Operator picks. Part-time Operators shall be paid for all hours worked at their regular rate of pay. Part-time Extra Board Operators may be assigned to either facility based on operational needs on a weekly basis with the same travel time as provided to Operators on the full-time Flex Board.

Section 11: All part-time Operators will receive an initial uniform upon completion of training as outlined in Article 27 except that s/he will receive 3 shirts, 2 trousers and the choice of a sweater or jacket, the remaining balance will be given upon completion of full-time training, if applicable. These uniform items must be returned to BCT in the event the employee leaves during his or her first calendar year otherwise the cost of initial uniforms will be deducted from their final paycheck. Subsequent vouchers ninety (\$90.00) will be issued similarly to full-time issuance according to Article 27. For the purpose of the proration process (using \$8.33 per month) will be used for part-time Operators.

Section 12: Part-time Bus Operators will only be issued one pass which will only be

good for their use. A second pass for use by the part-timer's family will not be issued. At any time when leaving the employ of the Transit Division, the pass and transfer punch holder and all other necessary items that may be required to be returned, before the final payroll check will be issued.

Section 13: Any part-time Operator reporting for work late five (5) minutes or less, may be held for part-time work at the dispatchers discretion.

ARTICLE 47

DURATION OF AGREEMENT

Section 1: The provisions of this agreement, except as otherwise specifically provided in the agreement, shall be effective upon ratification of the Unit membership and approval of the Board of County Commissioners for Broward County, Florida and shall continue in force thereafter, through September 30, 2017, exclusively for those bargaining unit employees on the Transit Division payroll on the date of approval of this Agreement by the Board of County Commissioners and for any employees who retired under the Florida Retirement System as provided in Article 26. The parties agree to begin negotiations for a successor Agreement on April 3, 2017, unless another date is mutually agreed to by the parties.

Section 2: If no Agreement shall have been reached by the parties within thirty (30) days from the expiration of said term of this Agreement, the Federal Mediation and Conciliation Service and any state agency established to mediate and conciliate disputes within the state shall be notified of the existence of a dispute as provided for by Florida law.

Re: Letter of Understanding - Applicability of Federal Transit Administration Regulations to contractual Drug or Alcohol Testing.

Dear Joe,

The purpose of this letter is to clarify for the record our mutual understanding and agreement regarding Department of Transportation regulations for drug or alcohol testing.

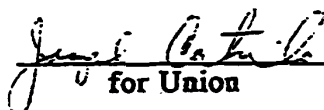

Drug and alcohol testing as described in Article 43 of the labor agreement applies only to that testing performed at the direction of the County and in accordance with the Federal Transit Administration regulations. All such tests are currently being conducted by the North Broward Hospital District under a contract for service between the County and the hospital district.

Any drug or alcohol tests performed on employees by treatment providers in the course of substance abuse treatment, and the results of any such tests, are not in any way governed by the Federal Transit Administration drug and alcohol regulations, nor are they governed by or appealable through the provisions of the labor agreement.

If you agree that this accurately represents our mutual understanding, please sign below.

RE: Letter of Understanding - Promotional Policy

Dear Mr. Catricola:

The purpose of this letter is to document our mutual understanding and agreement regarding promotions or appointments to the Maintenance Section of the Mass Transit Division. This letter further replaces the Letter of Understanding effective August 10, 1995.

The promotional policy affecting promotions or appointments to positions between the Maintenance and Operations Sections of the Mass Transit Division is as follows:

1. Promotion means a change of employment status from a position of one classification to a position of another classification which has a higher maximum salary. Promotional appointments shall not be grievable.
2. The wage rate upon promotion will be set as follows:
 - a. Employees promoted to the Maintenance Section shall be assigned the wage rate which is closest to their pre-promotion wage rate, **without a decrease**. In the case where the employee selected is at a rate higher than the highest rate of the promotion position, the employee will only be paid at the highest rate of the promotion position, not his/her pre-promotion rate.
 - b. Employees promoted to the Operations Section shall be assigned the training rate for the period of training. Upon the successful completion of training, the employee will be assigned his or her pre-promotion wage rate immediately prior to the promotion, **without a decrease**. Thereafter, employees will move through the wage rate schedule outlined in Article 26 as appropriate.

3. The date of promotion, without regard for years of service, shall be used to determine seniority date and annual raises (until the employee reaches the "Thereafter Step" in the new position). The date of hire shall still be used for all other seniority purposes.
4. There shall also be a probationary period served when an employee is promoted. The term of this period shall be six (6) calendar months from the "established date and hour of employment", consistent with Article 17. There shall be no right of appeal from a probationary rejection action taken against an employee, during this probationary period, except in cases involving alleged discrimination. If an employee is removed during the probationary period following a promotion for failure to perform satisfactorily the duties of the higher position, he or she shall be returned to the position held prior to the promotion or to a similar position with the same rate of pay.

A probationary promotional appointment does not affect an employee's earned permanent status and rights in the County system acquired in another position. The promoted employee retains the right to bring a grievance under any term or condition of employment specified in this 'Agreement.

5. If the promoted employee is returned to their former position, which is in the bargaining unit, he or she will be returned with no loss of seniority. If the promoted employee voluntarily decides to bid back to their former position, which is in the bargaining unit, after seventy (70) working days, they will do so at the bottom of the applicable seniority list.

If you agree that the contents of this letter accurately reflects our agreement, please sign below and return to me.

Sincerely,

Phil Rosenberg, Director

LIGHT DUTY AGREEMENT BETWEEN BROWARD COUNTY MASS
TRANSIT/MAINTENANCE DEPARTMENT AND AMALGAMATED TRANSIT UNION 1267

The following guidelines have been established concerning workman compensation/light duty and those granted personal light duty.

LIGHT DUTY

The light duty list will be a guideline to utilize Workmen's Compensation employees first, then "personal" injury employees. The time allowed will be limited to the medical recommendation, as agreed to by Broward County Transit, but will not be considered a permanent position. This agreement assures there will be no change in work shifts to prevent the payment of overtime. No overtime will be granted to anyone on light duty. The employee on light duty will work his normal shift. This agreement will be limited to Maintenance employees only; no Coach Operators.

DUTIES TO INCLUDE:

1. Sweep shop area
2. Pick up trash in yard with a stick poker
3. Clean and dust shelves in parts room
4. Yard map/WCL recycle check reports
5. Pick up and deliver parts between garages
6. Check parts inventory
7. File paperwork
8. Check prices for purchasing
9. Check in and put away parts - areas to consider (as per doctor's instructions) are limits on lifting, stooping, bending, and going up and down stairs.
10. Transport coaches to/from non-mechanical road failure
11. Road test coaches - diagnosis of driver complaints for repair
12. Clean coach interior (as per doctor's instructions) with reasonable accommodation to the employee on an individual basis.
13. Repair coaches (as per doctor's instructions) with reasonable accommodation to the employee on an individual basis.
14. Check and repair fleet lights

In addition to the above, an employee claiming personal injury and requesting light duty will be required to submit doctor's lines and the "Broward County Board of County Commissioners Alternate Duty Criteria and Guidelines" form, which must be filled out by the attending physician along with doctor's recommendation of items pertaining to said employee from light duty list.

The employee whose granted "personal light duty" will be accommodated as per doctor's recommendations. If the employee goes beyond 45 calendar days, a medical re-examination will occur as outlined by the above paragraph. The employee will either return to full duty or return to light duty, up to a 45 calendar day period and will be subject to another medical examination. After the second examination the employee may be allowed an additional 30 days of light duty.

This agreement will be in effect for a trial period of six (6) months. At this time both management and union officials will meet to consider if this agreement should be continued or cancel the above as non-binding.

The trial period for this agreement has been set for May 1, 1995 until November 1, 1995.

RE: Letter of Understanding - Run Relief

Dear Mr. Catricola:

The purpose of this letter is to establish our mutual understanding with regard to a mechanism to objectively address runs which may have insufficient time to provide for optimal customer service and safety.

The following establishes the procedures for run relief:

1. An operator will notify management, in writing, of his or her concern with regard to run time for a particular run.
2. Management, with the assistance of the Union, will review the run (for up to ten runs).
3. Should a determination be made that additional time is needed on the run and such can be added without interfering with the entire route schedule, time may be added. If time is added to a run, NO bump down pick (as described in Article 24, Section 5) will be required.

Nothing herein infringes on management's right to set operation schedules.

If this letter is consistent with our mutual understanding please, sign below.

Sincerely,

Dear Mr. Catricola:

The purpose of this letter is to establish our mutual understanding with regard to the availability of restrooms at the end of a run.

If the Union requests management to review the accessibility of restroom facilities at the end of a run, management will use its best efforts to secure access at established restroom facilities.

RE: Letter of Understanding - Clarification of Medical Arbitration and Light Duty

Dear Mr. Catricola:

The purpose of this letter is to document our mutual agreement with regard to medical arbitration as described in Article 9, Section 3 and the Light Duty policy.

1. The Union and the County agree that any individual who is offered or has the opportunity to work light duty and rejects such light duty while filing for medical arbitration under Article 9, will not be considered "held out" of service pursuant to Article 9, Section 3. Accordingly, those individuals would not be eligible for the fifteen days pay, if the third doctor put the employee back to work.
2. In the event that an individual does work light duty during medical arbitration and such light duty is less than his or her regular scheduled shift, if he or she prevails under Article 9, Section 3, that employee would be "made whole" and be paid the difference between the amount of time that he or she actually worked light duty and his or her regularly scheduled shift.

If this letter is consistent with our mutual understanding, please sign below.

RE: Letter of Understanding: Shuttle bus for Route 1

Dear Mr. Catricola:

The purpose of this letter is to document our mutual understanding to use a "mini bus" as shuttle service for the Fort Lauderdale/Hollywood International Airport connecting with Route 1. This service will operate during the peak season, and will be operated by a bus operator at his/her regular rate of pay. It is further understood that this will not establish any precedent or right to continue to operate such shuttle, nor will it establish any precedent in regards to hourly rate for operators operating a "mini bus."

RE: Letter of Understanding: DROP/Bonus Days/Benefits While on Leave of Absence

Dear Mr. Catricola:

The purpose of this letter is to document our mutual understanding and agreement to apply certain Administrative Code changes to the applicable portion of our labor agreement. Specifically, on June 19, 2001, the Board of County Commissioners approved a Resolution amending the County Administrative Code (see attached) regarding leave usage and accrual for employees entering the Florida Retirement System's DROP Program, Bonus Day earning, Benefit entitlement while on Leave of Absence, and Tuition Reimbursement. Also attached to this letter is a summary of those amendments to the Administrative Code. These procedures are largely ministerial, housekeeping and provide the capability to track leaves and bonus days in a more automated and efficient fashion.

The agreement in this letter is to apply these amendments to the current collective bargaining agreement between Broward County and Amalgamated Transit Union - Local 1267. Specifically, the following Articles would be affected by these Administrative Code changes:

1. Article 39, Section 5 of the Labor Agreement deals with Bonus Day accruals and currently provides that an employee who has completed the first six (6) months of employment without taking any sick leave will be entitled to earn one (1) bonus day for each six (6) months thereafter that they do not use any sick leave. By applying the amended Section 14.230(h) of the Civil Service Rules to the labor agreement bargaining unit member has been amended to provide that an employee will earn one (1) bonus day for any thirteen (13) consecutive pay periods in which the employee does not take any sick leave or leave without pay.
2. The applicable labor agreement does not specifically address an employee's eligibility for payout of accrued annual leave upon entering the DROP (Deferred Retirement Option Program). However, to clarify any issues regarding the DROP and related leave accruals, the County and ATU - Local 1267 agree to apply the amended Section 14.229 (g)(2) and (h) of the Civil Service Rules to provide that bargaining unit members who participate in DROP and who elect to receive payout of all or any portion of accrued annual leave upon entering DROP will continue to accrue leave consistent with the accrual rates defined in the labor agreement and when the employee separates from County service, he/she shall be paid for all accrued and unused annual leave remaining in their leave bank as of the date of separation consistent with the leave payout terms of the contract.

3. The labor agreement does not specifically address an employee's benefit entitlement while on approved Leave of Absence without Pay. Section 14.238 of the Civil Service Rules has been amended to provide that a benefits eligible employee on approved leave without pay will continue to receive any applicable County insurance benefit allowance for the first seven (7) full pay periods of leave of absence without pay. The Civil Service Rules had previously provided for payment of insurance premiums to benefits eligible employee for ninety (90) days.
4. Article 36, Section 4 of the Labor Agreement provides that employees who participate in the County's educational reimbursement program would be subject to the rules established by County policies. This is to acknowledge that this policy as defined in Sections 22.73 – 22.76 of the Broward County Administrative Code has been amended to eliminate the one year waiting period requirement for participation in the Tuition Reimbursement Program and allows benefit-eligible Part-time 20 employees to participate in the Tuition Reimbursement Program. Part-time 20 benefit eligible employees will receive 50% of eligible tuition.

The above referenced amendments were approved by the Commission to be effective on July 1, 2001, for unrepresented employees. I appreciate your cooperation in clarifying the application of these amendments to employees covered by our labor agreement and look forward to working with you on other matters which will make our dealings and administrative processes run more smoothly.

RE: Letter of Understanding – Implementation of Full-Time Bus Operators Selecting Part-Time Runs

Dear Mr. Howard:

The purpose of this letter is to document our mutual understanding and agreement as part of a tentative Collective Bargaining Agreement for FY 2005/2006, 2006/2007, 2007/2008 and 2008/2009, regarding Full-Time Bus Operators selecting Part-Time Runs.

Specifically, in Article 46, the parties agreed to the following:

In the event that at the time of the pick there are not enough part-time operators to select the number of part-time runs/rostered positions, then full-time operators shall have the opportunity to pick/fill any part-time rostered positions not selected. Thereafter, once any part-time operator is hired then the full-time operator will relinquish the part-time run/rostered position in reverse order of seniority.

For implementation and clarification purposes, the parties further agreed to the following:

Full-time Operators picking any part-time rostered positions not selected by part-time operators must work the entire scheduled part-time rostered work-week. The Operator Rules and Regulations, including but not limited to the Late Report/AWOL and Sick Leave policies, shall apply to any part-time runs selected by full-time operators. Likewise, any sick leave or vacation leave taken shall reflect the total number of hours scheduled. For example, if a full-time operator fails to make his/her scheduled part-time report time, it will be considered a late report under the Operator Rules and Regulations. Likewise, a full-time operator will be charged an occurrence when booking off sick for a part-time run. When coverage is necessary to replace (including hold-downs) a full-time operator who selected a part-time run, the Extra Board or RDO operator will work both the full-time and the part-time runs selected. Full-time operators and extra board operators that have selected a part-time rostered work week will be ineligible to work RDO, unless the RDO work is a part of the part-time rostered run.

The contract language and this understanding also resolves the grievance filed on or about December 8, 2004, relating to the assignment of part-time runs which is pending arbitration.

RE: Letter of Understanding– Amalgamated Transit Union, Local 1267 Unit
EasyPay (Time and Attendance, Pay Card Program and Enterprise Resource Project)

Dear Mr. Howard:

The purpose of this letter is to document our mutual understanding of an agreement between the County and the Amalgamated Transit Union, Local 1267 (the Union) regarding an electronic time and attendance program, payroll distribution program and Enterprise Resource Project (ERP). Collectively, these three programs are called **EasyPay**. The **EasyPay** program will apply to County employees, with the significant changes to include: (1) the replacement of manual payroll checks with direct deposit and pay cards as well as replacing check stubs and direct deposit paper slips with on-line pay stubs; (2) a fully automated time keeping system; and (3) the replacement of the County's existing Payroll/Human Resource system.

- (1) **Replacement of manual payroll checks** – The parties agree that bargaining unit employees will be paid through direct deposit with their identified banking institution. If the employee does not have a banking institution, the employee will receive a pay card and their earned wages will be uploaded to that pay card every pay period. In either event, paper pay stubs will be replaced with on-line pay stubs. The pay cards were implemented in May 2013 and the on-line pay stubs will be implemented in July or August 2013.
- (2) **Automated Time Keeping System** – The parties agree that the County and Union have met and reviewed the new time keeping system and have validated the pay and work rules that will be programmed into the new automated time keeping system. Those rules are intended to be the parties' implementation of the collective bargaining agreement provisions and are detailed in the attachment to this letter dated November 27, 2012. If there is a conflict between the attachment dated November 27, 2012 and the collective bargaining agreement, then the bargaining agreement shall prevail. The new automated time keeping system is anticipated to be implemented in early 2014.
- (3) **Replacement of County existing Payroll/Human Resource System** – The County is currently exploring an Enterprise Resource Planning system that would include a new Payroll/Human Resources System. The parties agree to meet and discuss the ERP, in the event that the County contemplates said system.

Re: Letter of Understanding - Amalgamated Transit Union, Local 1267 Bargaining Unit
Article 21 – Accidents

Dear Mr. Howard:

The purpose of this letter is to document our mutual understanding between Broward County (“County”) and Amalgamated Transit Union, Local 1267 regarding disciplining employees for vehicle accidents.

In the negotiations for the 2014-2017 Collective Bargaining Agreement (“CBA”) the parties agreed to abolish the Accident Review Board and for all discipline administered by the County for vehicle accidents to be subject to the just cause and grievance and arbitration provisions set forth in the CBA.

Accordingly, effective January 1, 2017, any past practices regarding discipline issued by the County for vehicle accidents, including comparison for future discipline, shall no longer be past practices. Furthermore, all discipline issued by the County for vehicle accidents shall be subject to the just cause and grievance and arbitration provisions set forth in the CBA.

For implementation purposes, and in recognition that the determination as to whether an employee is charged or not charged with an accident could not be grieved under the previous CBA language, the parties agree that only prior discipline issued after January 1, 2016 may be used as evidence of an employee’s prior accident history for purposes of discipline for vehicle accidents that occur on or after January 1, 2017, through June 30, 2018, when the 30 month time frame set forth in Article 21, Section 6 of the CBA will be in full force and effect.

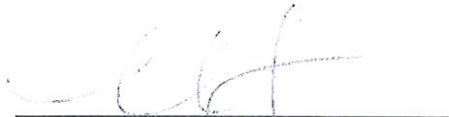

The parties further agree that prior discipline issued after January 1, 2015 may be used as evidence of an employee’s prior accident history for employees who are at the 5-day

suspension level (formerly Step 4) on January 1, 2017, through June 30, 2017, when the 30 month time frame set forth in Article 21, Section 6 of the CBA will be in full force and effect.

The parties also agree that the Accident Review Board will continue to have jurisdiction to determine chargeability for any accidents which occur prior to January 1, 2017. It shall also complete its determination of accident cases no later than March 1, 2017.

The disciplinary process, timeframes, and progression previously utilized for employee accidents shall also be maintained for all accidents which occur prior to January 1, 2017.

The mutual understanding of the parties is documented by the respective signatures below.
