GENERAL STEPS REQUIRED FOR LOCAL BILLS

-Overview of the Process-

1. A representative from your organization should attend the local bill workshop held by the Broward Legislative Delegation staff.

2. File proposed local bill with the Delegation office (checklist is included with this manual) by **noon on Friday, September 29, 2023**.

3. The proposed local bill will be reviewed by the executive director and delegation counsel for proper form and constitutionality.

4. The Delegation office will schedule the first reading and public hearing for all proposed local bills. The first reading is a formality, and no testimony will be taken at that time.

5. All proposed local bills are required to be sponsored by a delegation member who shall be required to present the proposed legislation at a public hearing before the Delegation.

6. All proposed local bills will be formally read at a public hearing and passed on to a second public hearing. Public testimony will be taken at the second public hearing. The Local Bill Public Hearing will be scheduled, and all proposed local bills will be voted on by the Delegation members. Your organization should plan to attend this hearing and be prepared to answer any questions the members may have regarding your proposed local bill.

7. All local bills approved by the Delegation will be advertised in a local paper (usually the Sun Sentinel) as required by the rules of the Legislature at the expense of the requesting organization.

8. All local bills will be submitted to House bill drafting. Local bills cannot be filed with the House unless they have been advertised 30 days or more prior to filing. The deadline for filing local bills is noon the first day of Session (Tuesday, January 9, 2024). Local bills are sponsored by a House Member of the Delegation once filed in the Legislature. Other members of the Delegation may sign on as co-sponsors.

9. Once the bills are filed, the Delegation office will request the Speaker of the House to assign the local bills to committees and then will request the committees to place the bills on their agendas for consideration.

* All local bills will be referred to Local Administration, Federal Affairs & Special Districts Subcommittee and may be referred to other committees. The staff for this committee may ask for more details on your bill. Our office will relay that to you.

10. The local bill will proceed through the committee process in the House of Representatives and will be filed in the Senate at the appropriate time.

11. Once Session is over, the Delegation office will inform you of the status of your local bill. If your bill passed the Legislature, the Delegation office will inform you of the Governor's action.

SECTION 1

LOCAL BILLS NOT RELATED TO ANNEXATION

LOCAL BILLS NOT RELATED TO ANNEXATION

A local bill is any bill which relates to a specific geographical area (Broward County) as opposed to a general bill which affects the entire State of Florida. The deadline for submitting local bills to the Broward Legislative Delegation will be **noon on Friday**, **September 29, 2023**

Below are detailed instructions for filing a local bill with the Broward Legislative Delegation. *This section only pertains to local bills not related to annexation*; i.e., special districts, revisions to current law affecting Broward County, etc.

When submitting your proposed local bill to the Broward Legislative Delegation Office for consideration, the following documentation must be included in this order:

- 1. Cover letter explaining: (see pg.1-5)
 - Why this cannot be accomplished at the local level.
 - (If the substance of your bill may be enacted into law by ordinance of a local government without the legal need for a referendum, the bill does not meet the standard for a local bill)
 - A brief explanation of your local bill.
 - Provide background information has legislation been previously filed regarding this subject; if so, when and what was the bill number.
 - The name of the contact person from your organization with their address, telephone number, fax number and an e-mail address. (*All correspondence from the Delegation Office regarding your local bill will be forwarded to the contact person you designate.*)
 - Indicate the name of the member that will sponsor your request before the local delegation.
- 2. The draft of your proposed local bill in proper bill form. (This will be explained below.) (see pg. 1-7)
- An Economic Impact Statement signed by a representative of your organization or agency. It is required that at least one Economic Impact Statement has an <u>original signature</u>. (see pg. 1-9)

You will need to provide <u>one original and an electronic version</u> of the above information. If any of this information is missing, your local bill will not be considered timely filed. A sample of this complete package is included in this manual on page beginning on 1-5 for your reference.

In addition, we will require that you e-mail your bill draft and supporting documents to the Delegation Office. Please e-mail the information to <u>aknowles@broward.org</u>.

PROPER BILL FORM

All proposed local bills filed with the Delegation Office need to be in proper bill form (see sample, page 1-7). All bill drafts should be dated as of the date submitted to the Delegation Office in the <u>upper right corner of the bill</u>. Amended bill drafts should contain the full section, subsection, or paragraph to be amended with amendments underlined or deletions stricken. All requested amendments should be e-mailed to <u>aknowles@broward.org</u>.

ONE SUBJECT

Section 6 of Article III of the Florida Constitution provides that:

"Every law shall embrace but <u>ONE</u> subject and matter properly connected therewith..."

The subject to be considered is the one expressed in the title of the Act, and the "<u>ONE</u> subject" may be quite broad. So long as the bill embraces a simple subject, it may amend any number of sections or even different chapters.

TITLES

Section 6 of Article III of the Florida Constitution provides that:

"Every law shall embrace but one subject and matter properly connected therewith, <u>and the subject shall be briefly expressed in the title</u>."

The title is the portion of the bill which serves the purpose of expressing the subject of the bill and is essential to the validity of the law to be enacted.

It should briefly express the subject of the proposed legislation so that the mere reading of it will indicate the nature of the details which are embodied in the act. A general title is preferable, but the title must give notice sufficient to reasonably explain the contents of the bill.

ENACTING CLAUSE

Section 6 of Article III of the Florida Constitution provides in part:

"The enacting clause of every law shall read: 'Be it enacted by the Legislature of the State of Florida:'."

The prescribed enacting clause is a prime essential to the validity of the law. In typing a bill, legislative rules require: A blank line be left above and below the enacting clause.

AMENDING PRESENT LAW

Section 6 of Article III of the Florida Constitution provides in part:

"Laws to revise or amend shall set out in full the revised or amended act, section, subsection, or paragraph of a subsection."

This requirement applies only to amendatory acts, not to bills which seek to establish new programs or additional provisions without reference to the present law. When an amendment is made to existing text, the entire text of the portion being amended must be set forth. If the amendment is to a paragraph or subsection that does not make sense standing alone, the remainder of the subsection or section should be set forth in the bill. In addition, introductory language which preceded a group of subsections or paragraphs should be shown whenever any of the subsections or paragraphs which follow is amended. Amendment of the introductory material itself nearly always requires that the following subsections be set forth, even though none of them are being amended. If the amendatory enactment is not a complete, coherent and intelligible act, or if it necessitates separate research and analysis of the local act which is being amended in order to be understood, it does not meet the requirement of Section 6 of Article III.

EFFECTIVE DATE

Section 9 of Article III of the Florida Constitution provides that:

"Each law shall take effect on the sixtieth day after adjournment sine die of the session of the legislature in which enacted or as otherwise provided therein. If the law is passed over the veto of the governor it shall take effect on the sixtieth day after adjournment sine die of the session in which the veto is overridden, on a later date fixed in the law, or on a date fixed by a resolution passed by both houses of the legislature."

Although an effective date section is not necessary to a properly prepared bill, it has become customary over the years to include an effective date in almost every bill. (see pg. 1-9)

ECONOMIC IMPACT STATEMENT

The Economic Impact Statement form will be provided by the Delegation. A sample is provided in this manual on page 1-9.

This form states the financial impact resulting from the legislation. It is required that one form with <u>an original signature</u> be included with your local bill request <u>along with an electronic version to aknowles@broward.org.</u>

RE: Local Bill to authorize special assessments to fund municipal law enforcement services.

Dear Ms. Harris:

The City of North Lauderdale is requesting a special act that would legislatively authorize alternative funding for the significant and growing expense of law enforcement services. The City of North Lauderdale is concerned that without the ability to fund law enforcement services through an alternative funding source, the growing cost of this service will result in an inability to provide other critical municipal services in the near future. The City's operating millage for the 2012-2013 Fiscal Year is 7.6078 mills. Currently, the City's law enforcement services costs are roughly equivalent to 121% of the ad valorem tax revenues received by the City, and approximately 37 % of the total general fund revenues received by the City. Every other municipal function must be funded through other sources in the general fund. Unless action is taken to provide for alternative funding, the City may reach the 10 mill statutory cap within a few years and may not be able to continue providing other basic municipal services. Implementation of this bill will allow for the reduction of ad valorem millage to property owners, thus providing for greater balance in the way municipal services are financed.

The City of North Lauderdale is proposing a local bill that would authorize a special assessment to be levied by municipalities in Broward County, separate from the annual millage levy, which would provide a consistent and distinct funding mechanism for law enforcement services. Florida's Constitution, specifically Article VII, Section 9(a), does not authorize local governments to levy taxes or fees without legislative authority. General law, Chapter 170, Florida Statutes, does not specifically provide that law enforcement services may be funded through a special assessment; therefore, a special act

of the legislature is necessary to provide that law enforcement services may be the subject of a special assessment.

The City's proposed local bill is being sponsored by State Senator Chris Smith. A bill to be entitled

An act relating to Broward County; authorizing municipalities in Broward County to levy special assessments to fund law enforcement services; providing legislative findings of special benefit to real property justifying the special assessment for law enforcement services; providing for a reduction in ad valorem taxes when a law enforcement special assessment is levied pursuant to this act; providing an effective date.

Be It Enacted by the Legislature of the State of Florida.

Section 1. Legislative Findings. Broward County is the second most populous county in the state with 31 municipalities within the county and little unincorporated area within the developed portion of the county. Law enforcement is a vital municipal service as it protects both persons and property from crime. In urban areas such as Broward County, property crimes, including burglary, vandalism, trespassing, arson, and others have a dramatic impact on property owners and the value of real property. Law enforcement services work to prevent these significant property crimes, and thus prevent the loss of property values and use. Moreover, after a property crime occurs, law enforcement efforts to solve such crimes prevents additional property crimes from occurring in the community. Finally, law enforcement provides protection for unoccupied properties and prevents additional losses to property owners, especially in times of economic distress. As a result, the legislature finds that there is a logical relationship between law enforcement services attributable to the protection of real property and the prevention of real property crimes and the benefit to real property.

Section 2. <u>A municipality in Broward County may fund the costs</u> of law enforcement services, in whole or in part, through the levy of a law enforcement services special assessment provided that the governing body of the municipality:

(a) Adopts a law enforcement services assessment ordinance that authorizes the special assessment, and requires that it be levied by resolution each year, and which apportions such assessable costs

among the property based on a methodology that charges a parcel in reasonable proportion to its benefits; and

(b) In the initial year of implementation, reduces its total ad valorem tax revenue, as projected for the upcoming fiscal year and calculated as if there were no law enforcement services assessment, by an amount equal to the amount of the law enforcement services assessment, except that no municipality shall be required to reduce its millage rate, excluding miliage approved by a vote of the electors and millage pledged to repay bonds, by more than 75% (seventy-five percent), thereafter said assessment shall be increased only in the same manner as ad valorem revenue is permitted to be increased pursuant to s. 200.065(5), F.S. The initial reduction in millage rate, excluding millage approved by a vote of the electors and millage pledged to repay bonds, shall be limited to no more than 50% if the implementing resolution is adopted by a extraordinary majority vote of the governing body.

(c) The Department of Revenue is hereby authorized to promulgate any rules or forms necessary to implement this section.

Section 3. This act shall take effect upon becoming a law.

Economic Impact Statement - 2013 PAGE 2

This assessment will require local governments to reduce millage between 50% to 75%.

Will require a local government to complete a methodology study at its cost to ensure that the assessment provides for a benefit to property owners.

Some residential property owners may see a small net decrease; some may see a small net increase in their overall tax bill depending on whether their property has a relatively high taxable value or a relatively low taxable value.

Commercial property owners should benefit from the lower millage since their properties generally carry a higher taxable value relative to residential property.

This assessment is anticipated to give a dollar for dollar reduction through millage to property owners on a citywide basis assuming the assessment revenue is not greater than 75% of the millage.

V. ESTIMATED IMPACT UPON COMPETITION AND THE OPEN MARKET FOR EMPLOYMENT:

It is anticipated that this legislation will have a positive impact of employment if the millage reduction is greater than the assessment on a case by case basis. Businesses would have additional money to hire employees and invest in capital through the reduction of ad valorem tax on their property.

The title is the portion of the bill which serves the purpose of expressing the subject of the bill and is essential to the validity of the law to be enacted.

SAMPLE ANNEXATION LOCAL BILL

City of Dania Beach

November 29, 2011

The Honorable Representative Evan Jenne, Chair Broward County Legislative Delegation 3107 Stirling Road, Suite 207 Fort Lauderdale, Fl 33312-8502

Subject: City of Dania Beach Expansion of Boundaries

Dear Representative Jenne.

At the November 10, 2011 meeting of the Broward County Legislative Delegation the local bill extending the corporate limits of the City of Dania Beach to the jurisdictional boundaries of the State of Florida, a line in the Atlantic Ocean known as the three mile limit was tabled to allow time for the City to coordinate with the City of Hollywood. At issue are two parcels of land that are owned by the City of Hollywood and which lie in the immediate area of the proposed expansion.

The City of Dania Beach has coordinated with the City of Hollywood and instructed Dania Beach's consulting surveyor to work with Hollywood's surveyor to clarify the location of the parcels. Both firms have agreed that the parcels in question are owned by the City of Hollywood but are located within the jurisdictional boundaries of Dania Beach pursuant to the laws of Florida. The proposed boundary expansion would not include any lands owned by the City of Hollywood.

The contact person from the City of Dania Beach is Robert Daniels. Community Development Director. He can be reached at 954 924 6800 Extension 3640. or via e-mail at <u>bdaniels@ci.dania-beach.fl.us</u>.

Thank you for your assistance.

Broward Delegation Annexation Policy August 2001

ANNEXATION DEADLINE The annexation of all unincorporated areas of Broward County should be encouraged to occur by October 1, 2005. Unincorporated areas remaining after October 1, 2005 will be subject to required annexation by the State Legislature. A variety of methods and inducements should be used by both the County and the cities to bring about the willing annexation of the unincorporated areas. It is recognized that misunderstandings and negative attitudes have arisen in the past between municipalities and unincorporated area residents and therefore, an intensive effort at dialogue, open communication, and understanding must take place in order to bring about this goal.

- 1. <u>COMPREHENSIVE ANNEXATION BILL</u> All annexation bills for Broward County shall be combined into one comprehensive annexation bill each year in order to streamline the process and to ensure that no communities are left behind as others are annexed. Government owned properties are exempted from this provision.
- 2. PARTNERSHIP COMMITTEE An official unincorporated partnership committee will be established consisting of one elected official or the city manager from each potential annexing municipality, presidents or designee of all homeowner associations in the impacted unincorporated communities and a County designee. The committee will identify community projects or issues of interest that can be collaboratively achieved, and those projects or issues of interest shall become part of any interlocal agreement entered into prior to the effective date of the annexation. The Apartnership@ shall be responsible for exchanging information between the unincorporated area and the annexing city in order to inform the residents of the unincorporated area and to minimize the possibility of inaccurate information. Any annexing municipalities which express interest and the County shall share in the expense of distributing information to the residents. (As amended December 4, 2002)
- 3. **NEIGHBORHOOD CHARACTERISTICS** The geographic integrity, character, and unique lifestyle of various individual neighborhoods should be preserved through use of municipal charter amendments or Special Act. A comprehensive effort should be mounted to clearly identify each neighborhood and its unique characteristics within the unincorporated areas of the County, so that where possible, defined neighborhoods may be kept whole. Wherever reasonable and possible, the defined neighborhood to be annexed shall vote as one group.
- 5. **TAX AND FEE INFORMATION** When an annexation proposal is made, tax and fee information comparing all charges by the by the County and the city or cities involved should be provided to the residents of an area to be annexed. The residents shall also be provided with information comparing fire, rescue and police service, including staffing levels, as provided by the County and city or cities involved. The information should be produced and distributed in a clear and easy to understand format by an independent third party selected by the Legislative Delegation of Broward County.

- 6. <u>INCENTIVES AND INDUCEMENTS</u> Cities should be creative in providing incentives and inducements to unincorporated areas to encourage them to be annexed, for example: charter amendments to preserve lifestyle, or to guarantee city council representation (where population increase would warrant it); phased-in ad valorem tax adjustments (where significant differences exist), and; infrastructure or service improvements, (and the County should be encouraged to participate with or assist the City wherever possible).
- <u>CHOICE</u> Unincorporated area residents should be given the right wherever possible and reasonable to choose which municipality to join and the right to vote on annexation by referendum.
- 8. **DUAL REFERENDA** The practice of dual referenda should be discontinued.
- 9. **COUNTY FACILITIES** Existing regional County facilities should remain unincorporated, unless the County and the municipality in question agree to annexation.
- 10. <u>EMPLOYEE TRANSITION PLAN</u> A transition plan for County employees displaced by reason of annexation should be established. Whenever possible and practicable, displaced County employees should be placed with the municipality that annexed the area where the displaced employee served, in the same or similar position, and without loss or interruption of rank, tenure, or pension benefits. If a County employee is hired by a municipality with a lower level of benefits (including pensions), the County should consider subsidizing benefits and pensions of the former County employee for a reasonable period of time.
- 11. <u>COUNTY INFRASTRUCTURE PROJECTS</u> Infrastructure projects should be completed by the County as scheduled in the County's Five-Year Capital Improvement Program. Appropriate financing arrangements via interlocal agreement between the County and the city that annexes an area receiving the project should recognize the tax contribution that the area to be annexed would have supplied towards completion of the project had that area not been annexed. The County and an annexing municipality must have an interlocal agreement encompassing all infrastructure improvements that are in the County's Infrastructure Improvement Plan but are incomplete at the time of the passage of the local bill. The preceding requirement may also be fulfilled by specific county resolution committing the infrastructure improvements to the area to be annexed. The resolution shall be referred to in the special act for annexation. The Legislative Delegation should utilize the infrastructure improvement Plan as a standardized model.

- 12. <u>REFERENDUM CHOICE / INFRASTRUCTURE PROJECTS</u> In the event that an unincorporated area will be provided with a referendum choice between municipalities and Broward County's Infrastructure Improvements are not completed, the County and the prospective annexing municipalities shall execute Interlocal Agreements as to said incomplete improvements prior to final passage of the local bill. Such interlocal agreements shall be referenced in the local bill. However, such Interlocal Agreements shall not become effective until referendum approval by the electors of the area to be annexed.
- 13. <u>"CHERRY PICKING"</u> The practice of "Cherry Picking" by municipalities should be ended. To accomplish this, the statutory method of voluntary annexation should be modified by Special Act to require the approval of the Broward Legislative Delegation before a voluntary annexation could become effective. Although no definition of Acherry picking@ exists, it may be generally described as the annexation (usually by voluntary annexation pursuant to general law) of property by a municipality where that property will produce taxes far in excess of the estimated cost to the city of providing municipal services. Cherry picking usually involves a single very valuable commercial property or small group of properties, or other non-residential property, such as undeveloped land that is expected to ultimately produce a positive tax cash flow to the city.
- 14. <u>COMMERCIAL PROPERTIES</u> Accordingly, the Committee recommends to the Delegation that commercial properties should not be stripped from neighborhoods to which they would logically or geographically belong. Furthermore, whenever a voluntary annexation is proposed, notice should be given to the residents of the neighboring areas.
- 15. <u>NO PRECLUSION</u> Nothing contained herein should be construed to preclude the use of deannexation, consolidation, or incorporation as a means to ameliorate past actions which have had the effect of isolating neighborhoods or of rendering neighborhoods unattractive as objects for annexation by the surrounding municipalities.
- 16. **PHASE IN DATES** All future legislative bill(s) may include phase in dates for both the infrastructure improvements, as well as the communities to be annexed.
- 17. <u>**REVENUE NEUTRALITY</u>** Annexation, whenever reasonable or possible, should achieve "revenue neutrality" for the annexing municipality. "Revenue neutrality" should be defined as the infrastructure improvements that are required to make the infrastructure of the unincorporated neighborhood match that of the annexing cities. The improvements should include water, sewer, streetlights and, if applicable, sidewalks. (However, cities should not force on the County "Infrastructure Improvements" which they themselves do not enjoy.)</u>

<u>MUNICIPAL PROTOCOL</u> With respect to municipal protocol, all correspondence regarding annexation must be directed to the mayor, elected officials and city managers or administrators of each city of interest.
