Mobility Advancement Program

Brought to you by the  
Penny For Transportation

**Did you know** every time you purchase sales taxable goods or services in Broward that you are investing in transportation and mobility improvements throughout the county?

**Why is that?** Because in November 2018, Broward residents voted to approve a 30-year 1% surtax dedicated to transportation improvements, which was called the **Penny for Transportation.**

**Thanks to voters** the Mobility Advancement Program or MAP Broward, was created. As of 2019-2026, MAP consists of hundreds of projects which have been completed, in process, and categorized into different project types defined and pictured in the blue circles. All of these projects are intended to make getting around the entire county both safer and easier.
