Where a tree is of exceptional quality as determined by the Planning, Building and Zoning Department, a two-tree credit for the preserved tree may be granted. Exceptional quality shall be judged on the basis of such factors as extraordinary size of tree, vigorous health, large canopy cover, historic value, rareness, and age. No credit will be granted for preserved trees which are extremely poor specimens or which are in declining health.

9. Landscaping Requirements for Certain Yard and Off-Street Parking and Other Vehicular Use Areas

a. Applicability

All areas used for the display or parking or any and all types of vehicles, boats or heavy construction equipment whether such vehicles, boats or equipment are self-propelled or not, and all land upon which vehicles traverse the property as a function of the primary use, hereinafter referred to as "other vehicular uses", including but not limited to, activities of a drive-in nature such as, but not limited to, filling stations, grocery and dairy stores, banks, restaurants, and the like, shall conform to the minimum landscaping requirements hereinafter provided, save and except areas used for parking or other vehicular uses under, on or within buildings, and parking areas serving single and two-family uses.

b. Required Landscaping Adjacent to Public Rights-of-Way

On the site of a building or open lot use providing an off-street parking area or other vehicular use area, where such area will not be entirely screened visually by an intervening building or structure from any abutting right-of-way, excluding dedicated alleys, there shall be provided landscaping between such area and such right-of-way, as follows:

1. A strip of land at least five (5) feet in depth located between the abutting right-of-way and the off-street parking area or other vehicular use area which is exposed to an abutting right-of-way shall be landscaped, such landscaping to include one tree for each forty (40) lineal feet or fraction thereof. Such trees shall be located between the abutting right-of-way and off-street parking area or other vehicular use area and shall be planted in a planting area of at least twenty-five (25) square feet with a dimension of at least five (5) feet. In addition, a hedge, wall or other durable landscape barrier of at least three and one-half (3½) feet in height shall be placed along the inside perimeter or such landscaped strip. If such durable barrier is of non-living material, for each ten (10) feet thereof, one shrub or vine shall be planted along the street side of such barrier unless such shrubs or vines are of sufficient height at the time of planting to be readily visible over the top of such barrier, in which case they may be planted inside the barrier. The remainder of the required landscaped areas shall be landscaped with grass ground

cover or other landscape treatment excluding paving.

2. All property other than the required landscaped strip lying between the right-of-way and off-street parking area or other vehicular use area shall be landscaped with at least grass or other ground cover.
3. Necessary accessways from the public right-of-way through all such landscaping shall be permitted to service the parking or other vehicular use areas and such accessways may be subtracted from the lineal dimension used to determine the number of trees required. The maximum width of a residential driveway through the perimeter landscaped strip to an off-street parking or other vehicular use area shall be thirty (30) feet for two-way vehicular movement and fifteen (15) feet for one-way vehicular movement. For commercial and industrial uses the maximum width for accessways shall be fifty (50) feet for two-way vehicular movement and twenty-five (25) feet for one-way vehicular movement. No more than one two-way accessway shall be permitted for any street frontage up to one hundred (100) lineal feet or no more than two one-way accessways shall be permitted for any street frontage up to one hundred (100) lineal feet, such standards to be applicable to any property under one ownership. Where such ownership involves over one hundred (100) feet of street frontage, one additional two-way or two additional one-way drives may be permitted for each additional one hundred (100) feet of frontage or major fraction thereof. The balance of such street frontage not included within accessways shall be landscaped in accordance with the provisions of this section.

c. Perimeter Landscaping Relating to Abutting Properties

On the site of a building or structure or open lot use providing an off-street parking area or other vehicular use area, where such areas will not be entirely screened visually by an intervening building or structure from abutting properties, that portion of such area not screened shall be provided with a landscape buffer of a minimum of five (5) feet width along the unscreened portion of the abutting property. The landscape buffer shall include a wall, hedge, or other durable landscape barrier not greater than eight (8) feet in height nor less than three and one-half (3½) feet in height to form a continuous

screen along the property line between the parking lot or vehicular use area and such abutting property.

The landscape buffer shall contain at least one (1) tree for each two hundred (200) square feet or fraction thereof of landscape buffer. The buffer shall be planted to grass, ground cover or other suitable landscape material. The buffer may be counted toward meeting the interior landscaping requirements of Section 3.42.8(d).

The provisions of this subsection shall not be applicable in the following situations:

1. When a property line abuts a dedicated alley, or to those portions of the property that are opposite a building or other structure located on the abutting property.
2. Where a proposed parking area or other vehicular use area abuts an existing hedge, wall or other durable landscape barrier on an abutting property, said existing barrier may be used to satisfy the landscape barrier requirements of subsection provided that said existing barrier meets all applicable standards of this resolution.

d. Parking Area Interior Landscaping

An area or a combination of areas, equal to ten (10) per cent of the total vehicular use area exclusive of perimeter landscape buffers required under Section 3.42.9(b) of this resolution, shall be devoted to interior landscaping. Any perimeter landscaping provided in excess of that required by Section 3.42.9(b) of this resolution may be counted as part of the interior landscaping requirement. When the vehicular use area is related to a structure or structures on the same parcel of land, any landscaping which is in excess of the required non-vehicular open space or required yard areas may be counted toward meeting the interior landscaping requirements so long as such landscaping is contiguous to the vehicular use area and fulfills the objective of this Section. There shall be a minimum of one (1) tree planted for every separate landscaped area and in no instance shall there be less than one (1) tree for each two hundred (200) square feet or fraction thereof of required interior landscaped area. These landscaped areas shall be located to most effectively relieve the monotony of large

expanses of paving and contribute to the orderly circulation of vehicular and pedestrian traffic. Landscaped areas, wall structures, and walks shall require protection from vehicular encroachment of overhang through appropriate wheel stops or curbs, located a minimum of two and one-half (2½) feet from the above.

e. Sight Distance for Landscaping Adjacent to Public Rights-of-Way and Points of Access

When an accessway intersects a public right-of-way or when the subject property abuts the intersection of two or more public rights-of-way, all landscaping within the triangular areas described below shall provide unobstructed cross-visibility at a level between three (3) feet and six (6) feet, provided, however, trees or palms having limbs and foliage trimmed in such a manner that no limbs or foliage extend into the cross-visibility area shall be allowed, provided they are so located so as not to create a traffic hazard. Landscaping except required grass or ground cover shall not be located closer than three (3) feet from the edge of any accessway pavement. The triangular areas above referred to are:

1. The areas of property on both sides of an accessway formed by the intersection of each side of the accessway and the public right-of-way line with two (2) sides of each triangle being ten (10) feet in length from the point of intersection and the third side being a line connecting the ends of the two other sides.
2. The area of property located at a corner formed by the intersection of two or more public rights-of-way with two (2) sides of the triangular area being thirty (30) feet in length along the abutting public right-of-way lines, measured from their point of intersection, and the third side being a line connecting the ends of the other two sides.

10. Landscaping Requirements for Non-Vehicular Open Space

a. Applicability

All non-vehicular open spaces on any developed site in all zoning districts, except for single-family and two-family dwellings, shall conform to the minimum landscaping

requirements herein provided unless requirements of a stricter nature are specified elsewhere. Non-vehicular open space shall include all such space as required by Section 3.41, Site Development Plan Regulations, except water areas, where landscaping is appropriate and feasible.

b. General Landscaping Treatment

Grass, ground cover, shrubs, and other landscape materials shall be used to treat all ground not covered by building, pavement, or other structures. All structures shall be treated with landscaping so as to enhance the appearance of the structure and to screen any detractive or unsightly appearance.

c. Trees Required

Trees shall be planted in the non-vehicular open space to meet the following requirements:

<u>% of Site in Non-Vehicular Open Space (N.O.S.)</u>	<u>Tree Requirement</u>
Less than 30%	1 tree/2000 Sq. Ft. N.O.S.
30-39%	1 tree/2500 Sq. Ft. N.O.S.
40-49%	1 tree/3000 Sq. Ft. N.O.S.
50-59%	1 tree/3500 Sq. Ft. N.O.S.
60% or more	1 tree/4000 Sq. Ft. N.O.S.

11. Buffers between Residential and Non-Residential Property

- a. Where any district zoned Business, Commercial or Industrial is separated by a street from a residential district, then any plot in such non-residential district adjacent to the separating street shall be provided with a yard at least twenty-five (25) feet in depth along such separating street. In any business zoning, except B-2A, such a yard shall provide a landscape buffer at least ten (10) feet in depth along the separating street. In any district zoned Commercial, such a yard shall provide a landscape buffer at least fifteen (15) feet in depth. The landscape buffer shall meet the landscaping requirements for vehicular use areas or general open space, whichever is applicable in total or in part.

Where a yard is required, such a yard, except for the

required buffer, may be used for walkways, parking of passenger cars, driveways, and landscaping, but not for any other purpose.

- b. Where any Business District directly abuts on a Residential District without any separator between them such as a street, alley, canal, or other public open space, then any plot in such a Business District shall be provided with a yard at least ten (10) feet in depth adjacent to the Residential District and such a yard shall be used exclusively for landscaping in conformance with this section.
- c. Where any Commercial or Manufacturing District directly abuts on a Residential District without any separator between them such as a street, alley, canal, or other public open space, then any plot in such a Commercial or Manufacturing District shall be provided with a yard at least twenty (20) feet in depth adjacent to the Residential District and such a yard shall be used exclusively for landscaping in conformance with this section.

The application shall also be accompanied by a written statement indicating the reasons for removal, relocation or replacement of trees and two (2) copies of a legible site plan drawn to the largest practicable scale indicating the following:

- a. Location of all existing or proposed structures, improvements and site uses, property dimensioned and referenced to property lines, setback and yard requirements and spacial relationships.
- b. Existing and proposed site elevations, grades, and major contours.
- c. Location of existing or proposed utility services.

2. Application Review

Upon receipt of a proper application the Planning, Building and Zoning Department shall review the application which may include a field inspection of the site and may refer the application to such Departments as it deems appropriate for review and recommendations. If the application is made in conjunction with a site plan submitted for approval, the application will be considered as part of the site plan and no permit shall be issued without site plan approval.

3. Issuance

a. Removal

No permit shall be issued unless one of the following conditions exists:

1. The tree is located in the buildable area, street right-of-way, canal right-of-way, or utility easement where a structure or improvement is to be placed and it unreasonably restricts the use of the property. In the event that certain trees outside the above areas must be removed to allow the operation of equipment, the site plan shall indicate the exact operation area needed.
2. The tree is diseased, injured, in danger of falling, too close to existing or proposed structures so as to endanger such structures, interfere with utility service, creates unsafe vision clearance or conflicts with other ordinances or regulations.
3. The tree unreasonably restricts bonafide agricultural use of the property.

b. Relocation or Replacement

As a condition of the granting of a permit the applicant may be required where practical to relocate the tree being removed or required to replace the tree being removed with a comparable tree somewhere within the site. The replacement shall have at least equal shade potential and other value to that of the tree removed and shall

be a minimum of seven (7) feet in height when planted.

c. Tree Bank

Where a tree is to be removed under the provisions of this resolution, the County shall have the option to relocate the tree at the County's expense to County owned property for replanting, either for permanent utilization at the new location, or for future use at other County property. If the County does not elect to relocate any such tree, it may give any city within the County the right to acquire any such tree at the city's expense for relocation within the city. The relocation shall be accomplished within fifteen (15) days of the issuance of a permit unless it is necessary to root prune the tree to assure its survival in which case the relocation shall be accomplished within forty-five (45) days of the issuance of a permit.

d. Tree Protection

During any construction or land development, the developer shall clearly mark all trees to be maintained and may be required to erect and maintain protective barriers to County specifications around all such trees or groups of trees. The developer shall not allow the movement of equipment or the storage of equipment, materials, debris or fill to be placed within the protective barrier.

During the construction stage of development the developer shall not allow the cleaning of equipment or material under the canopy of any tree or group of trees to be maintained. Neither shall the developer allow the disposal of waste material such as paint, oil, solvents, asphalt, concrete, mortar and so on under the canopy of any tree or groups of trees to be maintained.

During the land clearing and construction stage of development, a representative of the County shall periodically inspect the site to insure

compliance with the provisions of this section.

e. Exceptions

In the event that any tree shall be determined to be in a hazardous or dangerous condition so as to endanger the public health, welfare or safety, and required immediate removal without delay, verbal authorization by phone may be given by the Director of the Planning, Building and Zoning Department, and the tree may then be removed without obtaining a written permit as herein required.

During the period of an emergency such as a hurricane, tropical storm, flood or any other Act of God, the requirements of this resolution may be waived as may be deemed necessary by the Board of County Commissioners.

All licensed plant or tree nurseries shall be exempt from the terms and provisions of this Section only in relation to those trees planted and growing on the premises of said license, which are so planted and growing for the sale or intended sale to the general public in the ordinary course of said licensee's business.

Utility companies franchised by the County may remove, without a permit, trees which endanger public safety and welfare by interfering with utility service, provided such utility companies shall cooperate with the County to preserve such trees by relocation or replacement in the same vicinity or as determined by the County for the best public benefit; except that where such trees are on owner-occupied properties developed for one-family or two-family use, disposition of such trees shall be at the option of the property owner. In the event that installation of new utilities shall require removal of trees, the utility company shall comply with the provisions of this section.

The requirements for offstreet parking for any uses not specifically mentioned in this Section shall be same as provided in this Section for the use most similar to the one sought, it being the intent to require all uses except agricultural to provide offstreet parking.
26. Fractional measurements:
When units or measurements determining number of required offstreet parking spaces result in requirement of fractional space, any such fraction equal to or greater than one-half shall require a full offstreet parking space.
27. Mixed Uses:
In the case of mixed uses, the total requirements for offstreet parking shall be the sum of the requirements of the various uses computed separately, and offstreet parking space for one use shall not be considered as providing the required offstreet parking for any other use.

28. Measurement:

For the purpose of this Article, floor area shall mean the gross floor area inside of the exterior walls; in hospitals, bassinets shall not count as beds. In stadiums, sports arenas, churches, and other places of assembly in which occupants utilize benches, pews or other similar seating facilities, each 20 lineal inches of such seating facilities shall be counted as one seat for the purpose of computing offstreet parking requirements.

SECTION 9.4 COMBINED OFFSTREET PARKING

Nothing in this Article shall be construed to prevent collective provision for, or joint use of, offstreet parking facilities for two or more buildings or uses by two or more owners or operations, provided that the total of such parking spaces when combined or used together shall not be less than the sum of the requirements of the several individual uses computed separately in accordance with this Article.

SECTION 9.5 NON-CONFORMING USES

In the case of a building occupied by a use which is not permitted as a new use in the district in which such building is located, where major repairs, substantial alterations or extensions of use shall be permitted unless and until the offstreet parking requirements of this Article for a new use of the type involved, are applied to such existing use and are fully provided for.

Section 9.6 USE OF REQUIRED OFFSTREET PARKING BY ANOTHER BUILDING

No part of an offstreet parking area required for any building or use by this Article shall be included as a part of an offstreet parking area similarly required for another building or use, unless the type of use indicated that the period of usage will not overlap or be concurrent with each other.

SECTION 9.7 PARKING OF COMMERCIAL VEHICLES

Offstreet parking facilities supplied by the owner or operator to meet the requirements of this Article shall not be used by commercial vehicles owned, operated or used in the business of such owner or operator during regular hours of business.

SECTION 9.8 OFFSTREET LOADING

1. On the same plot with every structure or use hereafter erected or created, there shall be provided and maintained adequate space for loading and unloading of materials, goods or things and for delivery and shipping, so that vehicles for these

services may use this space without encroaching on or interfering with the public use of street and alleys by pedestrians and vehicles.

2. Where any structure is enlarged or any use is extended so that the size of the resulting occupancy comes within the scope of this Section, the full amount of offstreet loading space shall be supplied and maintained for the structure or use in its enlarged or extended size. Where the use of a structure or land or any part thereof is changed to a use requiring offstreet loading space under this Section, the full amount of offstreet loading space shall be supplied and maintained to comply with this Section.
3. For the purposes of this Section, an offstreet loading space shall be an area at the grade level at least 10 feet wide by 25 feet long with 14 foot vertical clearance. Each offstreet loading space shall be directly accessible from a street alley without crossing or entering any other required offstreet loading space, and arranged for convenient and safe ingress and egress by motor truck and/or trailer combination. Such loading space shall also be accessible from the interior of any building it is intended to serve.
4. Offstreet loading spaces shall be provided and maintained in accordance with the following schedule:
 - a. For each retail store, storage warehouse, wholesale establishment, industrial plant, factory, freight terminal, market, restaurant, mortuary, laundry, dry cleaning establishment or similar use which has an aggregate gross floor area of:

Over 10,000 sq. ft. but not over 25,000 sq. ft...	1 space
Over 25,000 sq. ft. but not over 60,000 sq. ft...	2 spaces
Over 60,000 sq. ft. but not over 120,000 sq. ft...	3 spaces
Over 120,000 sq. ft. but not over 200,000 sq. ft...	4 spaces
Over 200,000 sq. ft. but not over 290,000 sq. ft...	5 spaces

Plus for each additional 90,000 sq. ft. over 290,000 square feet or major fraction thereof.....1 space
 - b. For each multiple dwelling or apartment hotel having at least 50 dwelling units but not over 100 dwelling units
1 space

For each multiple dwelling having over 100 dwelling units:
1 space plus 1 space for each additional 100 dwelling units or major fraction thereof.

- c. For each auditorium, convention hall, exhibition hall, museum, hotel, office building, sports arena, stadium, hospital, sanitarium, welfare institution or similar use which has an aggregate gross floor area of:

Over 20,000 sq. ft. but not over 40,000 sq. ft.....1 space
Plus for each additional 60,000 sq. ft. over
40,000 sq. ft. or major fraction thereof.....1 space

- d. For any use not specifically mentioned in this Section, the requirements for offstreet parking for a use which is so mentioned and to which the unmentioned use is similar shall apply.

5. Offstreet loading facilities supplied to meet the needs of one use shall not be considered as meeting of street loading needs of any other use.
6. No area or facilities supplied to meet the required offstreet parking facilities for a use shall be utilized for or be deemed to meet the requirements of this Article for offstreet loading facilities.
7. Nothing in this Section shall prevent the collective, joint or combined provision of offstreet loading facilities for two or more buildings or uses, provided that such offstreet loading facilities are equal in size and capacity to the combined requirements of the several buildings or uses and are so located and arranged as to be usable thereby.
8. Plans for buildings or uses requiring offstreet loading facilities under the provisions of this Section shall clearly indicate the location, dimensions, clearances and access of all such required offstreet loading facilities.

* SECTION 9.9 ALTERNATIVE PARKING SURFACES

The modifications to parking requirements allowed in this section are intended to permit and encourage the reduction of hardsurface parking areas so as to retain the maximum permeable soil surface and green area while still providing for adequate parking. It is not the intent of this section to define each and every site use where these modifications of parking requirements may be feasible. The Planning, Building and Zoning Department may allow the use of these modifications in any instance where such a modification appears appropriate even though the specific site use may not be cited in the following sections. Hardsurface as referred to in this provision shall mean a hard, dustless, bonded surface such as, but not limited to, asphaltic concrete or portland concrete, and normally used to surface vehicular use areas.

1. PARKING RIBBONS

The use of hardsurface parking ribbons shall be permitted in situations where the required parking is directly associated with an individual dwelling unit. Such ribbons shall be no less than two feet in width, separated at no greater distance than three feet, and constructed to the specifications of the County Engineering Department. The remaining required area for each parking space shall be covered with grass, ground cover, or other porous landscape material. Such ribbons are primarily intended for use with one-family and two-family dwellings, townhouses, tourist homes, guest cabins, mobile homes, and trailer camps and parks.

2. REDUCTION OF HARDSURFACE ALLOWED

For certain site uses it shall be allowed for up to twenty percent (20%) of the required parking to be reserved in a grassed area. Such a reserved area shall be identified on the site plan and shall include space for all associated accessways, drives, aisles, and landscaping. The reserved

area may be used for temporary or overflow parking or may exclude all parking. Parking use of the reserved area shall require compliance with County specifications for grass parking surfaces. Regular use of a reserved area so that maintenance of the grass in a healthy, viable condition is impossible shall require the hard-surfacing of the area. A reserved area used for temporary or overflow parking shall meet all landscaping requirements for vehicular use areas except that the ten percent (10%) interior open spaces required may also be used for parking provided all trees are located in the area of at least fifty (50) square feet which shall be protected from vehicular intrusion. A reserved area which excludes vehicular use shall be required to meet only the landscaping requirements for general open space. Conversion of a reserved area to hardsurface parking shall require compliance with all landscaping requirements for vehicular use areas. In no instance shall a reserved area be used to satisfy the landscaping requirements for a contiguous hard-surfaced vehicular use area or to satisfy requirements for open space.

This reduction of hardsurface parking is primarily intended to be allowed for parking associated with the following uses: businesses, professional and government buildings, retail stores, manufacturing and industrial uses, multi-family dwellings, dormitories, fraternities, hospitals, sanitariums, asylums and mixed uses.

3. GRASS PARKING SURFACES

The use of a grass parking surface shall be permitted where parking is on an irregular, intermittent, or part-time basis. Such grass parking surfaces shall conform to County specifications, including requirements for base material, drainage, and species of grass.

Where regular use of the parking surface warrants, it may be required that aisles, accessways and drives be surfaced with a hard-surface material.

All requirements for landscaping vehicular use areas shall be met except that the ten percent (10%) interior open area requirement shall be considered satisfied by the use of grass parking surfaces. All required trees shall be planted in an area of at least fifty (50) square

feet which shall be protected from vehicular intrusion.

In instances where there is also a limited amount of regular parking use associated with a structure, such as parking for a staff, maintenance crew, security force, etc., an amount of hardsurfaced parking capable of accommodating such regular use shall be required. All landscaping requirements for vehicular use areas shall be met by such parking.

Such grass parking surfaces are primarily intended to be allowed for parking associated with places of public assembly, theaters, private clubs, fraternity buildings, churches, stadiums, race tracks, fairgrounds, schools, mortuaries and similar uses.

4. MAINTENANCE

The owner, tenant and their agent, if any, shall be jointly and severally responsible for the maintenance of all vehicle use areas, whether standard hardsurface or grass. Grass parking areas shall be maintained so as to present a neat appearance to insure a viable and healthy grass surface. In the event of deterioration of a grass parking surface due to improper or inadequate maintenance or due to parking use too heavy to allow a healthy grass surface, the Director of the Planning, Building and Zoning Department may require the restoration of the grass surface or the hardsurfacing of the area.

SECTION 10.2 ZONING DISTRICT MAPS

The areas assigned to these districts, the designation of same, and the boundaries of said districts shown upon the maps hereto attached and made a part of this Resolution, are hereby established, said maps being designated as the "Zoning District Maps" and said maps and the proper notations, references, and other information shown thereon, shall be as much a part of this Resolution as if the matters and information set forth by said maps were fully described herein. Said maps are identified by the signatures of the Chairman and Clerk of the Board of County Commissioners together with the number of this Resolution and its effective date.

Each district shall be subject to the regulations stipulated in this Resolution.

SECTION 10.3 APPLICATION OF ZONING REGULATIONS

When any public use ceases, or when title of unzoned public land passes into private ownership, public land or buildings shall not be used for private purposes until they have been zoned by the Board of County Commissioners.

SECTION 10.4 WATER AREAS

1. The water surface and the land under the water surface, of all canals, rivers, waterways, ponds, lakes and other water areas in Broward not otherwise zoned are hereby placed

in the same Zoning District as the land which it abuts as shown on the Zoning District Maps. Where the zoning districts shown on the Zoning District Maps are different on opposite sides of the water area, then the kind of zoning district on each side shall extend to the centerline or midpoint of the water area.

2. For convenience of mapping and clarity, the zoning of water areas is not shown on the Zoning District Maps, but is determined by the provisions of this section.

SECTION 10.5 DISTRICTING OF VACATED WAYS

Where a street or alley shown on a Zoning District Map is hereafter officially vacated by replatting or otherwise, the land formerly in such street or alley right-of-way shall be included within the zoning district of adjoining property on either side of said vacated street or alley. In the event such street or alley was a district boundary between two or more different zoning districts, the new district boundary shall be the former center line of such vacated street or alley.

SECTION 10.6 BOUNDARIES OF DISTRICTS

Unless otherwise shown, the district boundaries are street lines, alley lines, or the subdividing or boundary lines of recorded plats, or the extensions thereof, and where the districts designated on maps accompanying and made a part of this Resolution are approximately bounded by street lines, alley lines or the subdividing or boundary lines or recorded plats, such lines or the extensions thereof shall be considered to be district boundaries.

Where due to the scale or illegibility of the District Map or due to the absence of a street, alley, or recorded subdividing of plat lines, there is any uncertainty, contradiction or conflict as to intended location of any district boundary, the County Commission shall have the power and duty of interpreting the intent of said District Maps so as to determine and designate the proper location for such district boundary in accordance with the spirit and purpose of the Zoning Resolution.

SECTION 10.7 DISTRICT GROUP CLASSIFICATION

For the purposes of this Resolution, the various Zoning Districts are grouped, and may be referred to as follows:

1. The A-1, R-1A, R-1B, R-1C, R-1T, R-1P, R-2, R-2P, R-3, R-4, R-4A, R-5, R-6, T-1, E-1, R-2U, R-3U are considered to be and are designated as residential districts.

3. The M-1, M-2, M-3, M-4 and M-5 Districts are considered to be and are designated as industrial districts.

SECTION 10.8 RAILROAD RIGHTS-OF-WAY

Where not otherwise indicated on Zoning District Maps or specified in Zoning Resolutions, railroad rights-of-way are hereby placed in the same Zoning District as indicated or specified for abutting property, except that where the Zoning Districts are different on opposite sides of a railroad right-of-way, the railroad right-of-way is hereby placed in the more restricted district of the two zoning districts abutting the right-of-way.

SECTION 10.9 REGULATION OF UNZONED PROPERTY

Any property which has not been placed in a zoning district, or which has not otherwise been zoned, is hereby classified in an R-1A District, it being the intent of the Zoning Resolution to regulate and control the use and development of all land and water in the unincorporated portions of Broward County.

Section 10.9 REGULATION OF UNZONED PROPERTY

SECTION 1. GRANT OF POWER

For the purpose of promoting the health, safety, morals and the general welfare of the community, the Board of County Commissioners of Broward County, Florida, is hereby authorized and empowered to adopt zoning and building regulations within Broward County and to divide said territory into districts or zones and to regulate and restrict the uses of lands, buildings, and other struc-

tures for trade, industry, residence, or other purposes within said districts or zones, and to regulate and restrict the construction, erection, alteration, repair, height, number of stories, size and location of buildings and other structures within said districts or zones, and to regulate and restrict the area, dimensions and the size of lots or tracts of land or yards, and the percentage and portion of lots that may be occupied in connection with the construction and location of buildings or other structures within said district or zones.

SECTION 2. DISTRICTS

For any and all of said purposes said Board of County Commissioners may divide lands within Broward County into districts of such number, shape and area as may be deemed best suited to carry out the purposes of this act. All such regulations and restrictions shall be uniform for each class or kind of property and building throughout each district, but the regulations in one district may differ from those in other districts.

SECTION 3. PURPOSES IN VIEW

Such regulations and restrictions shall be made in accordance with a comprehensive plan to be enacted in accordance with the ordinance enactment procedure set forth in Florida Statute Section 125.66. Said comprehensive plan and regulations and restrictions adopted pursuant thereto shall be designed to lessen congestion on the highways; to secure safety from fire, panic and other dangers; to promote health and the general welfare; to provide adequate light and air; to prevent the overcrowding of land and water; to avoid undue concentration of population; to facilitate the adequate provisions of transportation, water, sewage, schools, parks and other requirements. Such regulations shall be made with reasonable consideration, among other things, to the character of the district and its peculiar suitability for particular uses, and with a view to conserving the value of buildings and encouraging the most appropriate use of land and water throughout such county.

SECTION 4. METHOD OF PROCEDURE

The said Board of County Commissioners is hereby authorized by resolution to establish the boundaries of such districts or zones, to promulgate regulations and restrictions to prevail therein, and from time to time to amend, supplement or to change the same. However, no such regulation, restriction, or boundary or change of same shall be adopted until after a public hearing in relation thereto, at which parties in interest and citizens shall have an opportunity to be heard. At least fifteen (15) days'

notice of the time and place of such hearing shall be published in a newspaper of general circulation published in said County. Notice of said hearing shall be given in writing by regular mail to the record owner of the property affected prior to the hearing, provided, however, said written notice may be waived by an affirmative vote of four (4) members of the Board of County Commissioners. The said notice shall describe the district or districts, or zone or zones, to be affected with sufficient certainty to advise the property owners therein that their property is to be affected but need not describe plans or details thereof. At the hearing all persons interested shall be heard for or against the proposal and any other plans or modification thereof shall receive the consideration of the said Board of County Commissioners. The hearing may be adjourned from time to time until some plan or proposal is adopted or until all are rejected. The "record owner" as used in this Section shall mean the owner shown on the current Broward County ad valorem tax roll as the owner of the property in question.

SECTION 5. RECORDING

The Board of County Commissioners of Broward County may record in the official records of the County a certified copy of such resolutions adopted under this ordinance, or parts thereof, as said Board may deem advisable.

SECTION 6. ZONING BOARD

1. The Board of County Commissioners of Broward County shall appoint a Zoning Board to be composed of fourteen (14) members, two such members to be appointed from each County Commissioner's district and four (4) such members to be appointed at large, to be known as the Zoning Board, to recommend the boundaries of the various original districts and appropriate regulations to be adopted and enforced therein. Such Zoning Board shall make a preliminary report and hold a public hearing thereon before submitting its final report, and such Board of County Commissioners shall not hold its public hearing or take action until it has received the final report of such Zoning Board; provided, however, this section shall not apply to the enactment of the comprehensive plan.
2. The Zoning Board shall from time to time make studies and recommendations for changes and amendments relating to the boundaries of the various districts and the regulations applicable thereto to the Board of County Commissioners. Any proposal or request for such a change or amendment shall first be filed with the Zoning Board, and every such proposal or request shall be considered by the Zoning Board and transmitted

thereafter to the Board of County Commissioners with the recommendation of the Zoning Board, either favorable or unfavorable, attached to or endorsed thereon.

3. The Zoning Board shall act in an advisory capacity to the Board of County Commissioners and make such studies and investigations as requested by the Board of County Commissioners.
4. The Zoning Board shall serve during the pleasure of the Board of County Commissioners and shall serve without compensation but shall be paid actual expenses incurred in performance of their duties as members of the Zoning Board to the extent permitted by law.

SECTION 7. BOARD OF ADJUSTMENT

1. It shall be the duty of the Board of County Commissioners of Broward County to appoint by resolution a Broward County Board of Adjustment, and it shall be the duty of said Board of Adjustment, in appropriate cases and subject to appropriate conditions and safeguards, to make special exceptions to the terms of any zoning order or zoning resolution in harmony with the general purpose and intent of such order or resolution and in accordance with general or specific rules therein contained. The members of such Board of Adjustment shall serve without compensation but shall be paid actual expenses incurred in performance of their duties as members of such Board of Adjustment to the extent permitted by law. Such Board of Adjustment shall consist of one (1) member from each County Commissioner's district and two (2) members at large, each to be appointed for a term of one (1) year and removable for cause by the Board of County Commissioners. Vacancies shall be filled for the unexpired term of any member whose term becomes vacant. No member of the Board of Adjustment shall be a paid or elected official or employee of Broward County.
2. The Board of Adjustment shall have the following powers and duties:
 - a. To hear and decide appeals when it is alleged that there is error in any order, requirement, decision or determination made by an administrative official in the enforcement of any zoning regulation adopted pursuant to this ordinance.
 - b. To hear and decide such special exceptions as the Board of Adjustment is specifically authorized to pass on under

the terms of the zoning resolution; to decide such questions as are involved in the determination of when special exceptions should be granted; and to grant special exceptions with appropriate conditions and safeguards or to deny special exceptions when not in harmony with the purpose and intent of this ordinance or any regulation adopted under the authority of this ordinance.

1. In granting any special exception, the Board of Adjustment shall find that such grant will not adversely affect the public interest.
 2. In granting any special exception, the Board of Adjustment may prescribe the appropriate conditions and safeguards in conformity with this ordinance and any regulation adopted under it. Violation of such conditions and safeguards, when made a part of the terms under which the special exception is granted, shall be deemed a violation of this ordinance and of the zoning resolution.
 3. The Board of Adjustment may prescribe a reasonable time limit within which the action for which the special exception is required shall be begun or completed or both.
 4. The zoning resolution shall require that the Board of Adjustment shall confer with Planning, Building and Zoning Department in all cases involving requests for special exceptions.
- c. To authorize upon appeal such variance from the terms of the zoning resolution as will not be contrary to the public interest when, owing to special conditions, a literal enforcement of the provisions of the resolution would result in unnecessary and undue hardship. In order to authorize any variance from the terms of the resolution, the Board of Adjustment must find:
1. That special conditions and circumstances exist which are peculiar to the land, structure, or building involved and which are not applicable to other lands, structures, or buildings in the same zoning district;
 2. That the special conditions and circumstances do not result from the actions of the applicant;
 3. That granting the variance requested will not confer on the applicant any special privilege that is

denied by the zoning resolution to other lands, buildings or structures in the same zoning district;

4. That literal interpretation of the provisions of the resolution would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district under the terms of the zoning resolution and would work unnecessary and undue hardship on the applicant;
 5. That the variance granted is the minimum variance that will make possible the reasonable use of land, building or structure; and
 6. That the granting of the variance will be in harmony with the general intent and purpose of the zoning resolution and that such variance will not be injurious to the area involved or otherwise detrimental to the public welfare.
 - a. In granting any variance, the Board of Adjustment may prescribe appropriate conditions and safeguards in conformity with this ordinance and any resolution adopted under its authority. Violation of such conditions and safeguards, when made a part of the terms under which the variance is granted, shall be deemed a violation of this ordinance and of the zoning resolution.
 - b. The Board of Adjustment may prescribe a reasonable time limit within which the action for which the variance is required shall be begun or completed or both.
 - c. Under no circumstances shall the Board of Adjustment grant a variance to permit a use not generally or by special exception permitted in the zoning district involved or any use expressly or by implication prohibited by the terms of the resolution in the zoning district. No non-conforming use of neighboring lands, structures, or buildings in the same zoning district and no permitted use of lands, structures, or buildings in other zoning districts shall be considered grounds for the authorization of a variance.
3. In exercising its powers, the Board of Adjustment may, upon appeal and in conformity with provisions of this ordinance, reverse or affirm, wholly or partly, or may modify the order,

requirement, decision, or determination made by an administrative official in the enforcement of any zoning resolution or regulation adopted pursuant to this ordinance, and may make any necessary order, requirement, decision or determination, and to that end shall have all the powers of the officer from whom the appeal is taken. The concurring vote of a majority of all the members of the Board shall be necessary to reverse any order, requirement, decision or determination of any such administrative official or to decide in favor of the applicant on any matter upon which the Board is required to pass under any such resolution.

4. Appeals to the Board of Adjustment may be taken by any person aggrieved or by any officer, board, or bureau of the governing body affected by any decision of an administrative official under any zoning resolution adopted pursuant to this act. Such appeal shall be taken within thirty (30) days after rendition of the order, requirement, decision, or determination appealed from by filing with the officer from whom the appeal is taken and with the Board of Adjustment a notice of appeal specifying the grounds thereof. The appeal shall be in the form prescribed by the rules of the Board. The Administrative official from whom the appeal is taken shall, upon notification of the filing of the appeal, forthwith transmit to the Board of Adjustment all the documents, plans, papers, or other materials constituting the record upon which the action appealed from was taken.
5. An appeal to the Board of Adjustment stays all work on the premises and all proceedings in furtherance of the action appealed from, unless the official from whom the appeal was taken shall certify to the Board of Adjustment that, by reason of facts stated in the certificate a stay would cause imminent peril to life or property. In such case, proceedings or work shall not be stayed except by a restraining order which may be granted by the Board of Adjustment or by a court of record on application, on notice to the officer from whom the appeal is taken and on due cause shown.
6. The Board of Adjustment shall fix a reasonable time for the hearing of the appeal, give public notice thereof, as well as due notice to the parties in interest and decide the same within a reasonable time. Upon the hearing, any party may appear in person, by agent, or by attorney. Appellants may be required to assume such reasonable costs in connection with appeals as may be determined by the governing body through action in setting of fees to be charged for appeals. For procedural purposes, an application for a special exception shall be handled by the Board of Adjustment as for appeals.

7. Any person or persons, jointly or severally aggrieved by any decision of the Board of Adjustment or any officer, department, board, commission, or bureau of the governing body, may apply to the Circuit Court for judicial relief within thirty (30) days after rendition of the decision of the Board of Adjustment.
