

# RECYCLE

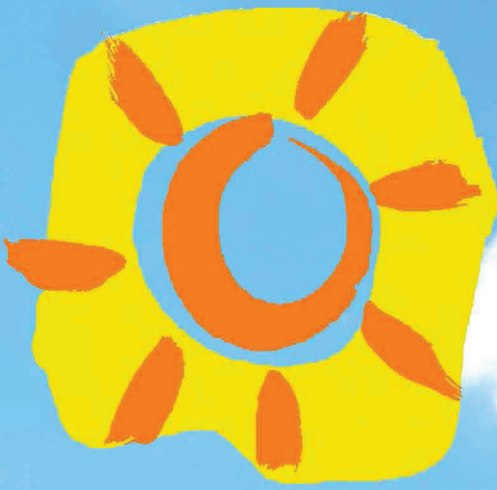

Now, instead of sorting, you can put paper, plastic bottles, metal and glass recyclables in the same container, **ALL-IN-ONE!**

- Plastic Bottles
- Glass Bottles & Jars
- Aluminum, Steel & Tin Cans
- Newspaper
- Office Paper
- Junk Mail
- Magazines
- Cereal Boxes
- Paperback Books
- Cardboard\*  
(limit 36" X 36")

\* Participation may vary by city. Call your city for more information.

# Why Recycle?

Recycling turns materials that would otherwise become waste into valuable resources, and benefits the environment.

## Benefits of Recycling

- ▶ Recycling saves natural resources such as timber, water and minerals.
- ▶ Recycling saves landfill space.
- ▶ Manufacturing products from recycled materials saves energy.
- ▶ Recycling helps reduce greenhouse gas emissions.

## Reduce, Reuse, Recycle

Reduce the amount of trash you generate. Reuse items, or give them away for reuse instead of disposing.

Recycle acceptable material as much as you can.

## And Close the Loop!

Buying recycled products closes the loop that ensures the overall success of recycling.

*For more information, contact your city or visit [www.broward.org/recycling](http://www.broward.org/recycling) or call us at 954-765-4999.*

This public document was promulgated at a cost of \$798.00, or \$0.159 per copy, to inform residents about recycling.

*Proudly printed on recycled-content paper.*
